

WHEN THEY WERE BABIES

RECOLLECTIONS THAT STAY WITH THE GROWNUPS.

Harry de Windt Met the Prince—Early Memories of a Noted English Preacher.

What is your earliest remembrance in life? Every one of us can recall some happening—probably some trivial incident—

George Groves, the comedian, writes: "My first memory of anything was when, seated in an old-fashioned

THE DANGER OF ANAEMIA

Consumption May Follow Unless its Ravages are Checked

There is danger to every girl and every woman who falls a victim to anaemia—that is, bloodlessness.

Dr. Williams' Pink Pills. Every dose helps make rich, red blood, which drives out disease and brings again the bloom of health to pale and sallow cheeks.

Dr. Williams' Pink Pills. Every dose helps make rich, red blood, which drives out disease and brings again the bloom of health to pale and sallow cheeks.

FROM MERRY OLD ENGLAND

Occurrences in the Land That Reigns Supreme in the Commercial World.

A new public pleasure garden, covering five acres, has been opened in Bournemouth.

It is proposed to erect in London a hostel as a tribute to Mr. W. T. Stead from women of all nationalities.

About \$20,000 damages were done by a fire that broke out at Messrs. Barkers furniture repository at Kensington.

It is rumored that the King is purchasing Rykley Lodge, Burton-on-Trent, as a residence for the Prince of Wales.

A copy of the rare original Kilnarnock edition of Robert Burns' poems, 1786, was recently sold at Sotheby's for \$700.

William Hitchcock, a dairyman of Richmond, was fined the maximum penalty, \$100, at Richmond for adulterating milk.

A fifteen-month-old child at Birmingham, in trying to get out of its cot, got its head fixed in the ironwork and was suffocated.

Ann Caterer, who has died in the Henley Workhouse at the age of ninety-two, was first admitted to the workhouse in 1857.

There are now between 15,000 and 20,000 people on strike in South Staffordshire in connection with disputes in various industries.

Mrs. Alice Jane Hicks, of Hare Street, Woolwich, who was known as the "Queen of the Costers," has died at the age of ninety.

Several policemen were injured in a fierce fight at Bradford in connection with the carter strike.

Some 3,000 men are now out. Selby, formerly an important center of flax growing, has been chosen by the development of the site of further experiments in the industry.

The new tramway route between Rushey Green and Forest Hill via Catford Hill and Stansted Road, has now been opened for traffic.

The Lord Mayor of Leeds received a deputation of citizens advocating a proposal that the city be converted into a seaport with a ship canal.

To effect the reinstatement of a man who was discharged at the Holyhead Mountain Clay and China Works, over one hundred employees struck work.

Hythe Town Council have inaugurated a campaign against wasps. They are offering one cent a head for every queen wasp killed in the borough.

Captain Fred Wombwell, the famous animal trainer, was badly mangled by a lion at Bostock and Wombwell's menagerie at Plymouth.

The scheme to reconstruct the isolation pavilion of Worthing Pier, wrecked at Easter, with a wider structure at a cost of \$50,000, has now been approved.

A suffragette tried to burn down the goods yard of the Great Central Railway Co. at Nottingham, but fortunately all but two stacks of timber were saved.

Breakers broke into the Berkeley Hotel in Piccadilly, bound and gagged the ten porters on duty and rifled the safe of money and jewelry to the value of \$15,000.

A Bad Heart, Its Cause and Cure

Many, Firmly Convinced They Are Dying of Heart Trouble, Have Often the Strongest Hearts.

Sometimes you wake up at night, heart throbbing like a steam engine. Your breathing is short and irregular; pains shoot through the chest and abdomen, and cause horrible anxiety.

Just read what happened to Leano Mallou, of Belle River, Ont.: "Three months ago I was a weak, sickly man. My appetite was poor, food fermented in my stomach, I had sour risings and indigestion. At night I would often awaken with gas in the stomach and heart palpitation."

"I consulted my doctor and used remedies that my friends advised. Nothing helped. One day I received a sample of Dr. Hamilton's Pills, and my cure commenced. To-day I have a vigorous appetite, strong heart action, and no sign of indigestion. I feel younger and healthier than ever before."

Your druggist or storekeeper, sold Dr. Hamilton's Pills, 50c per box or five boxes for \$1.00. By mail from The Catarthone Co., Buffalo, N.Y., and Kingston, Canada.

Wild Animals Understand Each Other's Ways. Once, when Major Stevenson-Hamilton was following the tracks of some lions in Africa, a small troop of zebras a little distance in front of him caught sight of the big cats at close quarters.

They were still invisible to the hunters. Their sudden headlong rush, Major Stevenson-Hamilton writes in "Animal Life in Africa," was a thing to remember.

Conduct of another sort on the part of zebras, however, was observed by one of the rangers a few years ago. As he was riding along the bank of the Olfant River, he suddenly heard zebras making a great noise just in front, and coming into a clearing, he found that three lions had pulled down a mare, but had not yet killed her.

The rest of the troop were standing some twenty paces from the lions, facing them in a semi-circle, much excited. They were making a great noise, but showed no disposition to bolt; the foal was between its dam and the herd. When the ranger fired one of the lions, the zebras at once waited about for its mother, which, although badly clawed, was able to get up and move off.

Another ranger came on a lion and two lionesses taking their midday siesta within a hundred yards of a troop of zebras. One lion was lying on its back, with all four legs in the air, like a cat before the fire, while the zebras were standing about, apparently half-asleep.

The lions must have been clearly visible to them. Incidents such as this illustrate the perfect understanding that the wild creatures have of each other's ways, and how far they are from a clear comprehension of them.

HARD, SOFT, OR BLEEDING? No matter what kind or where located, any corn is promptly cured by Putnam's Corn Extractor; being purely vegetable it causes no pain. Guarantee with every bottle of "Putnam's," use no other, 25c at all dealers.

In general pride is at bottom of all great mistakes. Minard's Liniment Cures Diphtheria. An army officer, noted for his bluntness of speech, rudely remarked in the presence of a clergyman: "If I had a son who was an idiot I would make him a parson."

"Very old, sir," assented the clergyman, "sir," responded the clergyman, quietly. Minard's Liniment Co., Limited. Dear Sir: This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

A bottle of MINARD'S LINIMENT, warmed on fannels and applied on my breast, cured me completely. Bessway, Digby Co., N.S. An Ancient Legend. "This inn must be very old," remarked a tourist, in a story printed in London Opinion, to the landlord, who was serving him with dinner.

"Very old, sir," assented the landlord. "Would you like to hear some of the legends connected with the place?" "I would indeed," replied the tourist. "Tell me the legend of this curious old mince pie. I notice it every time I come."

If we could see ourselves as others see us we wouldn't believe it. Aerobats in India. The wandering acrobats of India are recruited from a low caste of people called Dombaranos, who live by this profession alone.

The children are trained from their earliest childhood, and do not receive any education in schools. They travel from village to town and give their performances, which are really wonderful, in the open air before crowds of onlookers.

Rajahs and rich Indians are very fond of the acrobatic displays, and engage the best of the men to perform before their guests at entertainments. Minard's Liniment Cures Colds, Etc. ED. 7. ISSUE 27-13.

PEDIGREE WHEAT.

Experiments Made in England and Sweden.

Experiments made in Sweden with a view to obtaining a "pedigree" wheat were referred to in a recent lecture by Prof. T. B. Wood, of Cambridge, England, at the Royal Institution.

The two important characteristics which the farmer wanted, the lecturer said, were a good quality and a large yield. Comparison of the yield per acre over 10 years in Lancashire, 35 bushels, and in Monmouthshire, 29 bushels, indicated at once, he said, that soil and climate were responsible to a large extent, and meteorologists were of the opinion that the weather during the autumn sowing in a large measure determined the yield.

The average yield per acre in different countries: Denmark, 42.1 bushels; Great Britain, 32.9 bushels; Canada, 17.6 bushels; India, 11.4 bushels; and Russia, 10 bushels.

Experiments at Cambridge and other places showed that there was no relation between the size of the ear, the size of the grain or the number of stems and the bulk of the crop. Both squarehead and ryelet, one of which had a small ear and the other a large, gave an almost equal yield.

In this connection Professor Wood pointed out that the efforts to obtain a pedigree wheat had been unavailing. In Sweden, by mechanical separators, they had picked the largest grains from the largest ears out of successive crops, but the result was actually not so good as that obtained from an ordinary sowing.

PROPER TIME TO RISE. Is When Eyes First Open—Dozing Not Healthy. The proper time to rise—in it we could only make up our minds to it—is when sleep properly ends. Dozing is not admissible from any reasonable or health point of view.

The brain falls into the state we call sleep, and the other organs of the body follow it. True sleep is the aggregate of sleeps. In other words, sleep, which must be a natural function, is a state which consists in the sleeping or rest of all the several parts of the organism.

Sometimes one part, and at other times another part of the body as a whole may be fatigued, and so the last to awake, or the most exhausted and therefore the most difficult to arouse. Minard's Liniment Cures Cough in Cows. Mother—Well, dears, did you meet any one you knew? The three children (who have just returned from the morning walk)—Yes; Ruby and Derek. Mother—Where did you meet them? Barbara (the youngest)—At the same place as we was.

Try Murine Eye Remedy If you have Red, Weak, Watery Eyes or Granulated Eyelids. Doesn't Smart—Soothes Eye Pain. Druggists Sell Murine Eye Remedy, Liquid, 25c, 50c. Murine Eye Salve in Aseptic Tubes, 25c, 50c. Eye Books Free by Mail. An Eye Tonic Good for All Eyes that Need Care. Murine Eye Remedy Co., Chicago. Every failure teaches a man something if he will learn. Minard's Liniment Cures Distemper. "BLUE FLAME" SPECIAL. To lower our stock by July 31st—we offer these excellent Plugs at \$2 Per Set of Four. "BLUE FLAMES" give perfect ignition and will give a hotter spark than any plug at this price. RUSSELL MOTOR CAR CO., Limited. Accessories Dept., WEST TORONTO.

WANTED—More Workers At once to do picture coloring for us in their home with our wonderful Chemical Process. Simple, mechanical work, rapidly done. All past-tens furnished. Positively no experience required. We furnish the Process and chemicals and supply you with pictures to color, which you return to us. Good prices paid promptly by the week or month. No canvassing or selling our travelers sell the goods and the field is unlimited for our work. If you want clean, neat work, the best route for sample or spare time, write us and we will send you contract and the price we pay. COMMERCIAL ART WORKS, 215 COLLEGE STREET, TORONTO, ONT.

SONORA MOTOR HORNS GUARANTEED for one year against all mechanical defects. PROVED by several years of experience a most satisfactory horn. The Sonora is motor driven, using but little current. By a new device the Sonora does away with the rasping and metallic screeches so much noticed. It produces a smooth, ear-pleasing tone. Our stock must be reduced by that time for the annual stock-taking. Sonora Brass Horn (Motor Driven) Reg. \$20.00. Sale price \$13.25. Sonora Nickel Horn Reg. \$24.00. Sale price \$14.25. Sonora, Comb. Hand & Electric, Brass Reg. \$50.00. Sale price \$27.90. Sonora, Reg. \$30.00. Sale price \$17.90. Phone or Write. RUSSELL MOTOR CAR COMPANY, LIMITED. Accessories Department. WEST TORONTO.

BABY'S OWN TABLETS HIGHLY RECOMMENDED

No medicine for little ones is so highly recommended as is Baby's Own Tablets. They are guaranteed by a government analyst to be absolutely safe, and besides that thousands of mothers throughout the land praise them as the only sure cure for childhood ailments.

Concerning them Mrs. Edward McDonald, Douglastown, Que., says: "I can highly recommend Baby's Own Tablets to any mother who has a baby suffering from constipation or teething troubles."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SWAT THE SPARROW NOW. The Chirpy Little Bird is a Nuisance in City and Country.

To the slogan of "Swat the Fly" might well be added that of "Kill the Sparrow." Flies and sparrows belong in the same class as nuisances and menaces to health, says a writer in a health magazine.

Most birds deserve to be protected for some service they perform, but when all the evidence has been submitted in the sparrow's case it stands condemned. Perhaps it occasionally eats a harmful worm, but the greater part of its food is of grain. Then, it is the constant enemy of native birds which, unlike itself, live mostly on worms and insects that are injurious to trees and crops.

For many years the sparrow was unknown except in the towns, and it gained the name of "town bird." But it later years it has spread all over the country, until now it is probably a greater nuisance on the farm than in the city. The sparrow's habit of living always near settlements and in sheltered places makes it a most prolific bird. It is almost independent of the seasons in breeding. Several broods of as many as seven or eight birds may be reared in a year.

The sparrow helps to spread diseases by building nests upon or near houses. Building on houses is especially a menace to health in the country, where people catch water from the roofs to fill their cisterns. The nests are of such construction that they are likely harbors for various sorts of vermin and germs.

A Bad Joke. "A famous college president declares that there are no new jokes." "Ah, he does, does he?" grimly returned the Old Codger. "Well, he ought to see the husband my niece has just married and brought home to live on me."
