Strange things occasionally happen in a local option town. One of our store clerks got possession of some five year old bottles the other morning and along with a fellow clerk, were soon reeling after sampling the contents and took the rest of the morning off to get clear-headed. Two chaps in a neighboring store were also treated, but were little the worse. No, dear reader, it was not Joe Seagram's famous—it was simply dandelion wine.

We can save you money on a Ham-mock. MacFarlane's Drug Store.

PROTECTING THE PUBLISHER.—A new newspaper law has been passed, which in a measure protects the publishers of newspapers from being defrauded out of back subscriptions. Frequently cases come before the publisher where persons cancelled their paper but, incidentally "forgot" to pay arrears of subscription. Under the new law, however, the publisher can continue to send his paper (even if refused) until such time as said arrears have been paid. Several cases of this kind have come beneath our notice, and we must say it is a cheap way of getting out of an honest debt.

The courts class such an act as "wilful fraud," proceeding upon the basis that a man must pay for what he uses. This new law has passed into effect but a few weeks and will most effectively assist the publisher in his fight against these "cheap skates."

PLAYED IN ORANGEVILLE.—In response to a request for an exhibition game, our Juvenile lacrosse team, with two or three Juniors, went to Orangeville last Wednesday. The home team were principally intermediate players and a much larger aggregation than the Durhams, nevertheless they were surprised at the close hand game they were forced to play. At half time neither team had scored but in the 3rd quarter with the score 2-1 in Orangeville's favor, Moorby, Durham's goal tender, took a swiftly shot ball in the eye unnoticed. This impaired his effectiveness and some of the Durhams who had not been in practice, gave out through lack of condition. This tended to make the close of the game one-sided, Orangeville winning 7-1. Three or four of the home players were accidentally cut and except for Moorby's swollen optic, which is now almost normal again, the Durhams were uninjured. The Orangeville boys are true sports, and as gentlemanly a bunch as the locals ever met. They netted a \$40 gate, which was scarcely sufficient to meet Durham's expenses.

## Agricultural Education.

Next week there opens in Massey Hall, Guelph, a short course in Agriculture for the benefit of School Inspectors. This is a broadening out of the purposes of the O. A. C. which for many years has been teaching Agriculture to students. Lately short courses for teachers have been held and now they are stepping higher and will give inspectors the benefit of the concentrated agricultural wisdom centered at Guelph, and who knows but in the near future the instruction may even extend to the Minister of Education himself!

The Sessions open on Monday evening, Tuesday, W. B. Roadhouse, Deputy Minister of Agriculture will provide, Dr. Sneath, Superintendent of Education on Wednesday; Insp. N. W. Campbell, on Wednesday; Inspector Craig on Friday, on which day as a wind up an inspection will be made of the direction of Warden Gilmore of the Central Prison.

From a leaflet containing the program, we quote the following: "It does not mean merely an additional subject. It means a new purpose! It means a new method! It means a new school! It means Education for Country Life."

The Country School of the future will not be a new kind of school however, simply because it has added a new subject to its list of studies. But in the teaching of this new subject it will find a new service in the community and a new meaning for education for country people.

It will be the local experimental farm in a simple, but effective way: it will introduce new varieties of field crops and test the new methods of cultivation through the children's school farm; it will be the local beauty spot with neat fences, well kept buildings, lawns and flower beds; it will be the local playground not only for the children, but for the grown-ups; it will be the local centre for social gatherings; its library will serve anyone with books, maps, zines, bulletins and reports that concern themselves with the farm work in home and field as well as with literary matters."

## Priceville Civic Holiday

This enterprising village has an ambitious program on hand for their second observance of Civic Holiday, on Monday, August 4th. Those who enjoyed their first one in 1912 will readily believe that 1913 will be a further success.

A splendid concert has been arranged for the evening. J. H. Cameron, Toronto, has a provincial reputation as a comedian, Miss Tait, Toronto, is a So prano singer of renown, and the Proton orchestra is a local organization of talent. ## A Bumper Wheat Crop.

Thousands of Men required. This Year's Harvest promises to be the largest in the History of Canada

According to present indications the wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan or Alberta, thus requiring the farm laborers of the East to assist in harvesting the world's greatest bread basket.

The Government of the respective Provinces state that many thousands men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor promptly. The Canadian Pacific, on which Company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from points in Ontario, to Manitoba, Saskatchewan and Alberta will be run and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days.
