A Brutal Husband
It has been reported that Thor. Mighton, who, over a week ago made such a harsh, cruel and sensational raid on his home here has been captured. The husband, whose brutal usage two years ago caused a separation from wife and three children and who escaped punishment by her pleading acquiescence, had come and live with him and on her refusal seemed to have lost his reason in his rage. He came to Durham in the night, knowing his wife and three children were living here, but not finding her traced her to his brother's place in Bentinck where he entered the home, and gave her murderous treatment leaving the marks of his brutality on her body. In his rage he got his children ready and drove off with them in a buggy and was traced to Dornoch, Chatsworth, and east by Meaford. The sympathy of the community goes out to the mother bereaved of her children by the man who promised to love and protect her and it is hoped that before long they may be restored to their natural guardian and their abductor suitably punished.

Promotion to Joseph Lindsay.
The following clipping from the Sioux City Journal refers to a brother of Dept. Reeve Lindsay of Glenelg Township. The item did not reach us in time for last week. We congratulate the old South Grey boy on the recognition he is receiving and which he no doubt deserves:
"Sioux City railroad men are of the opinion that Joe Lindsay formerly superintendent of the Sioux City division of the Great Northern railroad, who has been promoted to the superintendency of the Fergus Falls division, is in line for a high position in the operating department of the road."
Mr. Nicholson, Mr. Lindsay's predecessor, was appointed general superintendent of the Lake district by rank and file of Great Northern employees at Sioux City. He was considered the best superintendent the Sioux City division ever had.

WHEN THE SOUTH WEST DRY IN WALKERTON.—The number of drunks that were falling off the pavements because the sidewalks were too narrow for them proved so great on Thursday night, that people began to wonder what event was being commemorated. On reflection they recalled that it was the Station Hotel's last wet night under the license system, and that the sun which would sell off his stock and the last night of the allotted period found him with still enough of the nectar on hand to upset the municipal equilibrium and make half the voters' list dizzy. There was consequently a great spurt on the home-stretch and drunken on the Waikerton began to waver at the knees and slop over at the mouth during the last few hilarious moments of the last wet night of July 31st in that year of grace 1913. Some poured the tangle-foot into them as if they never expected to look upon a bottle label again. Male Walkerton was mostly out late that night and many a little Mabel with her face against the pane saw sights that made her blush behind the curtains. The South was going dry with a vengeance and being the last volley of corks was pulled there was many a man down and out and stretched half-shot on the green. The next day, it is said, the empty kegs were taken away and the last relics of the Southern debauch removed.—Walkerton Herald and Times

The Stumping Exhibition on the farm of Mr. Campbell Dunsmoor takes place on the afternoon of Monday, August 25th, the Monday following the Horse Fair which is on the 21st. Keep both dates in mind.
Mr. Hutchison an agent of the Bible Society gave an interesting address in Trinity church on Friday evening last on the aims and objects of the Society. It was illustrated with lime light views of the people, buildings and scenery of the various countries the missionaries worked in; Japan, Persia, India, Java etc.

Chesley ball team, whose failure to show up to the game here Civic Holiday, caused much dissatisfaction and unfavorable comment, will appear here in a few days and play the postponed game. Chesley Scay and team much regret the mistake on the part of the management and are anxious to make amends for disappointment they created here.

Many Successful Matriculants.
The Junior Matriculation results were announced last Saturday and in the list Durham school has again made a most creditable showing. Almost all writing have been successful either in whole or in part, and all candidates appearing in this list obtained their Normal Entrance standing as well, announced a couple of weeks ago.
Those obtaining full matric. by passing on all twelve papers are Ray F. Farquharson, Sarah Fulton, James Isaac, Susie A. Kelsey, Viola M. Renzie, Emma M. Ritchie, J. Morrison Smith. Those passing in at least nine subjects and obtaining the minimum required on the whole exam. are Nathan B. Grierson and Bert J. Marshall. Partial matriculation has been given those passing on at least eight papers, but failing to obtain the minimum on the whole exam, viz., Alex. Hildebrandt, Sadie F. McDonald, Florence M. Renwick.
We congratulate the students on the gratifying results of their year's study and Principal Allan and the staff as well on the good work done.

School Talk
The opening of the Model Schools takes place on the 19th inst. and Durham and vicinity supplies some twelve or thirteen students who will enter for the new Model School in Hanover. This we think is the largest number Durham has supplied in one year for some time and the loss of the home school is therefore particularly regrettable at this juncture.
For years Durham has been a leading educational centre and we hope will continue to be. This year 18 pupils passed from Durham for Entrance to Normal, while Hanover passed 6. However this pre-eminence in Scholastic lines can only be maintained by progressive measures in which there must unite staff, School Boards and town. The staff is all right, school boards and town are on trial.
The most urgent and progressive measure demanded at present is improved school accommodation and we are constrained to ask what is being done along this line as a result of the joint meeting of council and School Boards some weeks ago? Surely the insistent demand from Inspectors Provincial and local, who are in a position to compare our progress, or lack of progress, with other places should have weight at the present time and lead us from motives of self-respect, if for nothing else, to supply a much needed defect in our educational standing and that is a new modern School building equipped for the purposes of higher education.
The homes of the town are constantly improving, so are the churches, why should there be delay and apparent indifference in regard to the most vital interest of the community? If the indifference is allowed to prevail much longer there can be but one result a deterioration of the town from an educational standpoint with consequent loss both financial and intellectual.
