#### Forty Thousand Men Required.

Farm Laborers' Excursions—This year's Wheat Crop will be the Largest in the History of Canada.

The wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan and Alberta, this requiring the farm labor of this year's harvest. To recruit and assist in harvesting the World's greatest bread basket. The Governments of the respective Provinces state that forty thousand men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the west, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run, and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route.
