when ladies come to our 'ouse they "You will like her," he said. "She has always begins by asking those quesif you will call on her." rery few friends; and it will be very kind if you will call on her.

"I shall certainly do so," said Lady Ferndale. "How happy she looks!"

Gaunt followed her eyes, and nodded grimly. Decima was dancing with one of the handsomest young men, and one of the best dancers in the room; and there was a faint rose tint in her face and a happy light in her eyes.

He stifed a eigh. Well, why should she not be happy?

A moment or two later he rose, almost abruptly, and crossed the room to the literature of talk about them," he said, with a kind of desperate abruptness. "I don't take any interest in them or or any one else but myself and—and another person."

Decima turned her eyes upon him with faint surprise.

"What a strange speech!" she said, with a smile. "I don't in the least know what you mean."

"You don't?" he said, incredulously, and with a side glauce at her. "Don't you know that the only person I take any interest in is—you?" abruptly, and crossed the room to the interest in is-you?" buffet which the butler had extemporized. Decima neither blushed nor ctarted, and Some men were standing there, drinking champague. Among them was Mr. Mershon. He was leanly; against the table, his glass in his hand, his eyes fixed on Decima. His narrow face was pale, and his nostrils had a pinched look about them, and Gaunt, as he gianced at him, was struck by his expression.

Gaunt got himself some wins "Not dancing. Mr. Mershon?" he said.

Mershon started, and his eyes arapped the table, and his eyes arapped the said.

Mershon started, and his eyes arapped the said.

Mershon started, and his eyes arapped the said.

"Not altogother," he said. "Yes, I am

"I'm going to dance the next," he said in a strained voice, and moved away. When the waltz was over, he went to

Concrete is the best building material

BROAD statement-Yet literally true. The aim of man from the beginning has been to make his building materials as nearly like natural stone as possible. The great labor required to quarry stone led him to seek various manufactured substitutes. The only reason he ever used wood was that it was easiest to get and most convenient to use. Wood is no longer easy to get. Like most building material, its cost is increasing at an alarming rate. The cost of concrete is decreasing. So, from the standpoint of either ser-

vice or economy, Concrete is the best building material. Canada's farmers are using more concrete, in proportion to their numbers, than the farmers of any other country. Why? Because they are being supplied with

Canada Cement a cement of the highest possible quality, which in-

sures the success of their concrete work. The secret of concrete's popularity in Canada lies in the fact that while we have been advertising the use of concrete, we have also been producing, by scientific methods, a cement so uniformly high in quality that the concrete made with it gives the complete satisfaction our advertisements promised. Concrete would not have been in such universal use

today, had an inferior grade of cement been supplied. Insist upon getting Canada Cement. It is your best assurance of thoroughly estisfactory results from your concrete work. There is a Canada Cement dealer in your neighborhood.

Write for our Free 160-page book "What The Farmer Can Do With Concrete" -No farmer can afford to be without a copy.
