

News to most women!

Oven-tested flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven:

PURITY

A ten pound sample is taken from each shipment of wheat at the mill. This is ground into flour. The flour is baked into bread.

If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it. More bread and better bread from this flour is a certainty!

"More Bread and Better Bread" and "Better Pastry Too"

FIRE! FIRE! FIRE!

We were awakened from our slumbers on the morning of September 17th to see an immense stock of valuable hardware destroyed by fire. We are still awake and are filling up as rapidly as possible the large store on the opposite side of the street with a far superior stock of Silverware, Hardware, Enamelware and Tinware.

While all this is going on we are offering an immense stock of slightly damaged goods at half their value such as: Navy Wire, Stone Hammers, Spades and Shovels, Horse Haps, Crow Axes, Logging Chains, Trace Chains, Breast Strap Chains, Heavy and Light Hinges and other articles too numerous to mention.

We are well supplied with new and second hand stoves and ranges. Do not forget that we are still selling the celebrated Happy Thought Range.

W. BLACK

The Durham Review

DURHAM, OCTOBER 16, 1913

Special to the Durham Review.

Toronto, 13th Oct., 1913.—Not content with watching the Dominion bye-elections scheduled for decision in Ontario, the Whitney Government is going to stage one of its own in the Provincial field.

The opening of the Constituency of Peel is the 8th bye-election since the General elections in December, 1911. The majority secured by Samuel Charters, the Government member, who has resigned presumably to become Registrar of Peel County, was over 700. With a good candidate—and the Liberals are said to be bringing out a first-class man—this majority should be very greatly reduced, and in fact there is a chance of making a turn-over and electing the Liberal candidate. The Opposition goes into this contest with a noticeable supply of optimism and enthusiasm. The constituency as a whole is said to be strongly for temperance, and the indications are that the Abolish the Bar policy will not only secure the enthusiastic support of Liberals but will affect to a considerable degree the normal Tory vote. Peel looks to be better fighting ground for the Liberal than any of the other places in which bye-elections have been held.

The cumulative effect of Mr Rowell's advanced programme of social legislation to the advantage of the common people the general public of the Province is becoming manifest. Its real strength admittedly will not be exhibited until the general election, for bye-elections are regarded by many voters as academic rather than practical, but in this particular contest the Rowell programme should make a strong appeal.

Chateauguy Goes Conservative

The election on Saturday last resulted in the election of Morris, the Conservative, by 140 majority, the first Conservative elected there since Confederation. His opponent was the Hon. Sidney Fisher a man who gave of his best for 15 years as Minister of Agriculture, but whose work and personality didn't count in a fight engineered by the famous!! Robert Rogers of MacDonald, Manitoba fame. There is likely to be a protest for scandalous doings are alleged, which, if half are true should upset the election. It was difficult, it appears to get Mr Morris or his friends to discuss public issues, but verbal appeals and the cry of "stranger" carried the day.

Tuesday of next week East Middlesex contest comes off and on the 30th inst., that of South Bruce and in each of these ridings a strenuous fight is promised.

—Fire at Sea! Who cannot imagine its horrors! The greatest tragedy since the loss of the Titanic occurred on Friday last, when 136 lives at least were lost by fire or drowning. The steamship Volturo from Rotterdam to New York with over 700 people on board, mostly from central Europe, got on fire from an explosion several days before. Desperate efforts to fight it proved unavailing and her wireless signals draw around her ten other vessels, but so rough was the sea that the greatest difficulty was experienced in rescue work. Several times the launching of lifeboats proved fatal to the occupants and some heroic work was done by some of the rescuers and rescued.

Saskatoon--The City of Mushroom Growth

Only Ten Years old, but Metropolitan in Every Respect.

Dear Review Readers: Since last heard from we have hied ourselves away from the pretty valley where reposes the busy little town of Lumsden and spent a day or two in this, the youngest of the big cities of the west, Saskatoon. We don't realize how vast and roomy a country we have till we cross it and in traveling this 150 miles, dotted with a number of little towns, seeing field after field of wheat in stock, and many threshed, ranging in extent from 10 to 50 acres, scarcely a fence of any kind, we are made to feel how bountifully Canada has been blessed, and in this, one very important means by which she will in the near future attain a place as one of the world's foremost nations.

Saskatoon is in the heart of the premier grain province, and is a distributing centre for 45,000,000 acres of the best wheat land in Canada. But ten short years ago—in 1903 it contained 113 people, to-day there are estimated to be 30,000. In 1902 the first city lot, 50x140 feet, was sold for a Newfoundland dog. Eight years later this same lot was sold to the Union Bank of Canada for \$75,000.

In Regina or other western cities they tell you Saskatoon is flat this year; that real estate is dead, rents are away down, houses empty; it was boomed too much; the past few years, in fact, would lead one to infer that the place is almost going to the bows. No true Saskatoonian believes or if he did, would admit such to be the case. True, rents are down but they had climbed out of sight. Property prices has remained stationary, instead of climbing, but are yet exorbitant. There are a number of vacant houses, still the fine buildings being erected on the main street, and the opening of a big dept. store on Oct. 1, show that Saskatoonians have an unbounded faith in its future. The city has a live progressive council and Board of Trade, and couldn't keep pace with its development, being yet in the rear with paved streets and sewers, though being laid as quickly as possible.

With the money stringency a reaction was bound to set in. "We may be a little quiet this summer but watch us next year" is the general feeling.

The broad South Saskatchewan river passes almost through the heart of the city, separating the business section and the main portion from "Nutana" the better residential section, on the opposite shore. Unlike Regina, Saskatoon is more scattered, and after a splendid view from the Nutana shore, one would imagine Regina to be the smaller. There is abundance of wealth in Saskatoon. Within one hour the business men raised \$100,000 for a Y. M. C. A. building, and within four hours a fund of \$1,000,000 to assist manufacturers to establish new industries, the money to be loaned them on small interest. There are about 700 automobiles in the city.

We were kindly entertained at the home of an old Dromore boy, Mr. Jos. Snell, who has attained a high position in educational circles in his adopted province, being Principal of the Normal School here. Mr. and Mrs. Snell, an old couple, are highly respected in the city. We called to see Mr. and Mrs. Amos Chislett, but he was absent, while Mrs. C. we learned was with her son Chesley at his farm at Scott, Sask., during the busy season. A well-known Durhamic, ex-constable Carson, gave us a friendly welcome. He resides with his daughter Mrs. Cameron, is taking life easy, and intends giving Durham a longer visit next year than he did this summer. With him we called upon another daughter, Mrs. Hopkins, in their fine \$75,000 mansion on the shore of the Saskatchewan, who yet retains a warm interest in her old-time Durham schoolmates.

In the centre of the business section on 2nd ave., we stepped in on son of Rev. Mr. Little, who with a partner, Mr. Wyatt, is running a large retail shop business. Another old Holsteinite we met was Miss Kate McFayden, who came west to Saskatoon six years ago and is now stenographer for a large implement firm. On the west side of the city we met with Mrs. Lock Bowerman, who with her husband, who was absent when we called, left South Grey a number of years ago. She is a sister of Mrs. Jas. Eccles, of Holstein, and they enjoy the east Egremont old home news through the Review columns.

Since leaving Durham we have been impressed with the superiority of Eastern fruit. In apples and peaches especially, British Columbia and California, whence most of the fruit here comes from, are "not in it" with Ontario. The luscious flavor is lacking, though this may be partially accounted for by the frost being picked quite green to keep for shipping long distances. In Saskatoon a street vendor was crying "Ontario fruit—finest peaches" an evidence that the citizens give it the preference as well.

Only a day or two here however and we are now away, passing through the Goose Lake country bound for Flaxcombe. If you are not wise as to its location, we trust to give full enlightenment in next week's issue. —P. R.

Successful Fairs

Held at Flesherton and Dundalk last Wednesday and Friday

All roads led to the villages of Flesherton and Dundalk on their respective fair days, Wednesday and Friday of last week. Ideal weather plus energetic executive committees formed the basis for successful exhibitions, although in neither case were attendance records broken.

FLESHERTON The gate receipts were over \$300. The live stock exhibit was excellent, horses featuring. McRobb Bros. of Egremont had 17 entries in horses and carried off many red tickets. Considerable excitement was aroused on the grounds by a buggy being overturned burying the occupant with it. Luckily no one was injured.

The horse races were the leading features of the fair. The race chart:

Table with columns: HORSE, OWNER, HEATS, FREE FOR ALL, Trot or Pace. Lists race results for various horses and owners.

DUNDALK The following are some condensed statistics relating to the Dundalk fair. Estimated attendance 3,500. Gate Receipts over \$600. Total number of entries 400. Entries in horses alone 1900. Members of the Society 170.

Coupled with the fair, the Old Boys and Girls Re-union was held and the place was in gala attire for the week. On an ordinary day, Dundalk is a sensible, behaved village but iron girders could not have held it in bounds on this occasion. The visitors and residents simply let loose their emotions and the place roared with joy. Old boys were present from four provinces and pennant streamers stretched across the streets gave them the license to paint the town red, make eyes, hold hands, etc.

The Fair grounds was a mass of humanity and the midway shows did a thriving business. The only drawback was the befogged condition of the atmosphere, the air being saturated with clouds of the well-known Proton dust and added to by smoke from surrounding bush fires. Though the inside hall was 200 entries short of last year, the live

stock display was never better. Jas. Ferguson & Son of Proton had 45 entries in thoroughbred cattle while the names of Swanston, Muir, Fairbairn and Patton were prominent in the sheep and cattle. W. D. Connor of Durham won 17 firsts and 6 seconds in poultry. The array of horses could not have been surpassed this side of Toronto, there being 350 entries in the various classes.

The James Fax Fun Co. provided the laughs for the two concerts. Ex-bandmaster Joe Parks was engaged for \$100 to come east from Manitoba and lead the music again.

THE RACES The speed contests were fast and exciting. In the Free for all, Emily de Forest, owned by Jos. Shelton of Lucknow won first money in 3 fast heats. Comet was 2nd and Chimes Boy finished 3rd. Time—2:22

Joe Miller won the 2:30 (extra) trial in 3 straight flashes, with Darcy Brino, owned by McNeil of Lucknow, taking 2nd place; Billy C., from O. Sound and Lady Medium of Dundalk were in 3rd and 4th places.

The 3 minute contest: 1 Bud Kyle owned by Rutledge of Markdale, 2 Thornbury Girl, owned by Matthews of Shelburne, Hebrew, J. Pilgrims, horse was 3rd and Prince Albert owned by Palmer of Dundalk, last.

Rocky Saugeen

Mrs. Gun, Sr., of Durham, gave an able address at the W. F. M. S. banqueting meeting here last week. Mrs. Gun has many friends at the Rocky who hope she will be able to visit the Society soon again, as she always has a kind smile and words of encouragement.

Rev. N. Stevenson preached his farewell sermon last Sunday and Rev. Mr. McKinnon, of Chatsworth, will occupy the pulpit next Sunday.

The Adult Bible Class held a social in the church here last Thursday. After tea there was a good programme called off by the chairman, Mr. Neil Clark and a very enjoyable time was spent by all present.

Mr. and Mrs. John Morrison, of town and Mrs. G. Campbell attended the farewell services here last Sunday.

Mrs. J. Vassie and family, of town, spent the week end with friends here.

We were very sorry to hear of Mr. Joseph Townsend's death, which we read in the Guelph Mercury of Sept. 25th. We have been a reader of the Review ever since Mr. Townsend printed the first one and like it better every week.

Mrs. J. Vassie attended the Ladies' meeting at Dornoch on Monday last.

Mrs. E. Middleton left last week for Chicago, where she will spend the winter with her daughter, Mrs. Smith.

Mr. Malcolm McPhee, of Nenagh, visited with Mr. and Mrs. A. Morton last week.

SMALL PROFITS Large Sales
