### Swinton Park.

The weather has got some cooler this week and the showers of last week have moistened the ground so the farmers have an easier task ploughing. Threshing is almost a thing of the past, some of the outfits being laid away for the season.

The majority of our section here attended the Fair in Dundalk last Friday and report a monster crowd. The day was beautiful and warm and many from these parts carried off red tickets for live stock.

Mr Tom Milligan and Miss Bess Milligan were visitors with Mr and Mrs. D. McCormick and attended the Dundalk Fair.

The choir will furnish music, songs, anthems, choruses and duets. Hopeville quartette will also be there. An invitation is extended to all.

Mr Joe Stevenson is again able to resume work after being laid up for a month with a sore foot.

Mr Arthur Robinson visited under the parental roof on Sunday.

### What Protection Does.

Protection flies as when we purchase necessities of life, and makes food, clothing both scarce and dear. It decreases the value of a dollar bill and imposes a burden upon all workers. It increases the cost of production in every industry in Canada and retards the development of those industries for which this country is best suited by nature. Protection is the father of trusts and combines and the creator of one of the worst forms of special privilege. It enables a few to amass great fortunes at the expense of the many and leads unscrupulous men to use corrupt methods to obtain tariff favors from Parliament. Protection is a millstone around the neck of every Canadian farmer.—Grain Growers' Guide.

Up to the present time campaigns looking toward voting on Local Option on January 5th have been launched in forty eight municipalities. Of these places one is a city, thirteen are towns, fourteen are incorporated villages and the remainder are townships. There are eleven of the forty-eight which have not before voted upon the question of Local Option; there are ten in which majorities were polled against Local Option in former contests; there are twenty-six in which Local Option by-law was defeated by the three-fifths requirement; and there is one in which Local Option by-law was carried.

### A Great Sunday School Convention.

The programs have been issued for the Twin Conventions of the Ontario Sunday School Association at Ottawa and Owen Sound, the dates for the latter place being October 28, 29, 30.

Every Sunday School worker who possibly can should attend this convention. There will be without doubt an inspiring attendance and some of the ablest speakers in the Province and beyond it, will be present.

Just at present a contract challenge is adjustment of relations to a larger field. The Sunday School vision of to-day is not limited to any one hour on Sunday afternoon affair, but it is a "seven-day opportunity" a continuous process, taking account of every available means to influence clean living.

For at least fifteen years the statement that 85 per cent of all additions to church membership come from the Sunday School constituency has been generally accepted. Present day statistics abundantly prove it. The closing address is on this theme "Sunday School Evangelism," at Owen Sound, by Mr. H. Lawrence, gives the final address on "The Challenge of the Future." Truly the Sunday School of to-day with all its limitations and feebleness is larger in effort and outlook than last century.

### Obituary.

Mrs. JOHN WILSON

She was in her 75th year and was married to Mr. Wilson five or six years ago and was formerly Mrs. Joseph Camp whose husband figured prominently in saw mill work near Dromore some forty years ago. Later they moved to Bentuck near Dornoch where they engaged in gardening, he dying about 15 years ago at the age of 81.

Mrs. Wilson was a native of Waterloo, Ontario, and was a woman of great activity and of kindly hand and heart.
