THE POWER OF ALMIGHTY

DOLLAR

ABRAHAM FAIR AND SQUARE

WE always have and always will appreciate a good Credit Customer BUT WHY NOT SAVE MONEY AND PAY CASH?

If you are a Money saver this means you, ==

Banks pay 3 per cent per annum on your sayings. We pay you 5 per cent on all the cash you spend here.

Modern merchandising requires modern methods. The progressive merchant watches carefully the market on goods he sells and makes judicious selection, purchasing at the lowest possible prices and obtains a discount for cash paid. We believe the housewife or any person baying goods is looking for the best wares and lewest prices and is entitled to a discount for cash purposes.

We are going to pay you interest on the cash you spend in our store at larger interest than paid by Banks for your savings. The plan is simple

We have installed a mechanical cashier built to our order by the National Cash Register Company, which issues for each cash purchase a printed receipt which shows the amount, the date and initial of clerk waiting upon you. This receipt is valuable, protects you against overcharge and is to be returned in case of error. For the return of \$10 worth we will give you 50 cents in merchandise free

The Reason Why We are Following Out This Plan

We have made this change after careful and deliberate consideration and are satisfied it will result beneficially, both to our customers and ourselves. Under present conditions the customer who pays cash or pays his bill promptly has to make up for all who are slow to pay and those who never pay.

It also requires an elaborate system of bookkeeping which costs both time and money, frequent sending out of accounts using both stationery and stamp, and the tying up of a large sum of money which would enable us to carry a bigger and better stock of goods at lower prices.

We estimate we can save you 5 per cent on your purchases over present pricesmaybe more when we have the new system well tried out and know exactly what it

It will be our aim to give customers the best quality, the best service and the best prices possible, and we hope to receive the same kind of consideration from the public as has been extended to this store since its establishment.

We ask your co-operation in this plan to protect your interests as well as our own. to the extent of seeing that you " Get a Receipt" from the cash register on every purchase and in paying money on account.

How the Plan Benefits You:

1. prevents disputes. It prevents overcharging.

It prevents mistakes in change.

10. It is a receipt for money spent.

It stops mistakes in charge accounts. It insures a proper record for money paid on account.

It protects children by giving them a printed receipt to bring home to you.
It protects servants sent to the store. The receipt shows amount spent and where

It shows which clerk waited on you and, in case goods are exchanged or returned,

proves the price paid and date purchased. It tells you of special announcements we wish to make.

SALE OF

Handkerchiefs Sample
