

THE DURHAM REVIEW

Flour is essential but— it is not your work!

Flour varies from time to time in baking quality. This is because wheat continually varies according to soil conditions, etc.

Therefore, if baking results are to be constantly high, baking tests are essential. It is unreasonable to expect you to make these tests at your expense.

So from each shipment of wheat delivered at our mills we take a ten pound sample. This is ground into flour. Bread is baked from the flour. If this bread is high in quality and large in quantity, we use the shipment. Otherwise we sell it.

By simply asking for FLOUR bearing this name you can always be sure of more bread and better bread.

The Durham Review

DURHAM, OCTOBER 30, 1913

Four more municipalities are now added to the list in which Local Option contests are now on. They are the towns of Niagara-on-the-Lake and Paris, and the townships of Adela and Lancaster. This makes a total of fifty-two municipalities now preparing for voting on January 5th.

Getting Into Trouble

It is evident that the Whitney Government is in great difficulties owing to the Bilingual school question. Mr. Rowell, in a statement issued in reply to the Hon. Mr. Lucas claims that the root of the trouble is the Government's lack of any stable policy or conviction on the question and their wabbling attitude throughout. The Liberal Leader gave emphatic denial to Mr. Lucas' insinuation that he (Mr. Rowell) was behind the agitation being carried on by the Ottawa Separate School Board. "I have had no communication," he said, "direct, or indirect, with the Ottawa men."

Mr. Rowell pointed out in contrast to the Government's shifting attitude on the Bilingual question that the Liberal policy enunciated when he became leader in 1911 remains unchanged to-day. It is as follows: "To provide thorough adequate training schools a sufficient supply of competent teachers and thus insure under proper regulations that the pupils in every school in the Province shall receive a thorough English education."

"We believe this policy to be right," said Mr. Rowell, "and we stand by it. Mr. Lucas asks whether we will support the Government's. I ask, what is the Government's?"

In Sunny Alberta

Among Relatives and Friends in the Ranching Province.

Dear Review Readers:

From Western Saskatchewan we have taken a somewhat circuitous route northerly and westerly into Eastern Alberta and about 4 a. m. one dismal morning reached the home of an uncle Mr. F. K. Coleridge in Provost. This is a village of 500 or 600 population, situated in a comparatively recently developed portion of the province, where good crops were the rule this season. Mr. Coleridge is principal of the school here and with him and his family and another uncle ten miles further on at Cadogan, Mr. R. P. Legate and family, we spent a fortnight very enjoyably. Mr. Legate is a pioneer of Cadogan, is postmaster, real estate and insurance agent there, and is known far and wide. He has his sons James and Cecil who have an Ag. implement agency there, and his son-in-law Robt. Wright, all hold land sections in the vicinity. Mrs. Legate, Miss Muriel and Murray who have been with them the past two months are returning about the 24th to their home in Ceylon.

It was our privilege to spend a couple days hunting but unfavorable weather, absence of prairie chicken, and unapproachability of the wild ducks, were partial factors in making our hunts unprofitable from a game point of view. All we brought down was one bird, but anyway we had the fun, and enjoyed our rides through a rolling country, covered with small bush and scrub.

While in Provost we attended the fall fair, and incidentally deemed we might pick up a new idea or so for our local shows. None were forthcoming, as it was not on a par in our estimation with the South Grey Exhibitions. Mammoth cabbage, potatoes and an excellent grain exhibit attracted our eye, while otherwise we saw nothing unusual in the exhibits. The only attraction was a horse race that wasn't a race, and the music by Provost Band, a live volunteer organization of 28 members, though only half the number were on duty at fair. They could render the "Success" march as frequently in an afternoon as Durham Band was ever capable of without apparently any ill effects. On the whole we were not impressed.

While passing through Saskatoon on the return trip to Edmonton, we called on Jno. Wilkie, son of Dan, formerly of Glenelg and Mrs. Wilkie, and in their general company, pleasantly passed part of an evening. Going down 1st avenue, Saskatoon, same night we were hailed "Hello are you Mr. Ramozer?" It was one last fall's Durham Model boys, who boarded at Miss Laura McKeachie but came from Mt. Forest (we've forgotten the name). He was en route to teach near Calgary.

Next evening, while waiting on Warman platform, 13 miles north of Saskatoon for the Edmonton train, we were again somewhat similarly greeted, and were delighted to find Lewis Renwick of Drumore, now teller and account ant of the Bank of Commerce in Lanigan, Sask. He was on a month's holiday and was en route to spend two weeks over Thanksgiving with his sister Mrs. Lister in Battleford. Our ride this far passed all too quickly as we recounted experiences and discussed old friends.

On arising next morning we were approaching Edmonton and passing through a more thickly wooded country. Some 15 miles out we crossed the North Saskatchewan River and remain fairly close to its waters till we reach the city. Of our experiences here, we will refrain from referring to till next week, our story of Edmonton, one of Canada's busiest and most remarkable cities, will be related in full. —P. R.

The Union Sunday School closed on the 26th for this summer. Edith and Maggie Edge and Nora Williams. The Superintendent, W. J. Ritchie was present every Sunday, to whom too much praise cannot be given for his untiring efforts to make the Sunday School a success. After paying all expenses necessary to run a Sunday School viz; expenses of picnic, wood for Grange Hall, treat of candies at the closing of school etc, there is still \$20.87 on hand.

Last Saturday seemed a day of accidents on the Johnston farm here. Mr. Will Lawrence got a nasty kick on the knee from one of his horses while watering it and at noon while hitching his team to the water tank, Mr. James Wallace had his right leg broken above the knee. The steam blew off the engine scaring the team while James was hitching the last trace and trailed him about 30 yards when he fell under the oak, both wheels passing over his body. Kind hands picked James up, got a carriage and took him to his father's house across the road where a physician attended his injuries and at time of writing is progressing favorably. The team ran about 60 yards when the tongue ran into the ground holding them fast. We hope to see both Will Lawrence and Jas. Wallace going around without a limp before long.

Mr. Will Clark cut straw for Messrs. T. McNeice and Jas. Petty Monday and Tuesday.
