triste and dull. You really must come He had not dared to oppose her, for dark passageway. "Then he pointed to a wall, and said the tomb was just beyond. I wished to enter the prayer-room, from which the tomb itself might be seen, but the place was considered far too sacred for my profane feet. The few Christians who have been permitted to see the tomb may look only through a small window into a dark chamber, in which a cloth-

"MY STOMACH IS FINE Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why. "I was greatly troubled with my stomach", she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal-they'll make you feel like

Uses of Paper in the Kitchen.

It is not always the expensive utensil that makes kitchen efficiency possible, the commonest little article often being of greatest assistance; at the same time they are easy to use, necessitating but little cleaning and costing next to no-

Probably there is no single article of such use to the housewife as a piece of paper or a paper bag. From the humble newspaper to the fresh rolls of waxed paper in the shops, it is an indispensable adjunct to the dainty kitchen. Often the task of cleaning chicken or game is magnified by the thought of a messy molding board. If several folds of newspaper are laid upon it the cleaning may be quickly accomplished, the first layer with the entrails being quickly disposed of, while the second and third can be

rolled up and put out of sight as soon as soiled. When the cleaning has been done pieces of the paper may be rolled up, lighted and used to singe the bird. If rolled fairly tight one or two rolls will be sufficient to cover the whole fowl-a much more satisfactory method than the old one of singeing over the fire. After the singeing has been done the bird is usually washed and then drained. It may then be dried upon several folds of brown paper and the stuffing and trussing be done in the same place. In this way there can be no muss. Fish, also, may be cleaned on papers, and if boning is to be done there is no better working surface. Much of the dislike of cleaning fish hinges on the muss that is created, while if it can be quickly removed all distaste disappears. After meat or fish has been washed for the last time, however, newspaper should not be used next to it, because of the ink, a piece of manila paper be-

ing substituted instead.

Whereas, the paper wrapping of bundles may be used in many ways, they should never be used when they are to come in direct contact with food. In lining cake-pans, for instance, there is nothing so ac ceptable as a fresh piece of manila paper. It is an excellent plan to keep in the pantry a box of papers cut to fit the various pans. These may be kept together with clips or rubber bands. Then a lining is always ready, and it is never necessary to leave the cake at a critical moment to prepare one. It takes no more time to cut a dozen linings than it does one if the kitchen scis- | WINNIPEG sors are used. Another little help consists of small squares of paper cut for oiling tins. The pastry brush has a mission, but most wo- from dust and germs. The problem of oughness as to get from his daily teaspoonful cinnamon, three- the frying kettle and other greasy and monthly and yearly labor the dissolved in a little warm water; utensils makes dishwashing a hortwo eggs well beaten. Mix the ror to many women. If the utensils task well and the additional pleasure that comes from doing his are wiped out with a swab of paper, task well and the additional pleaa large part of the grease is ab- sure of so doing it that he performs sorbed and the dishwashing greatly a real service. To do anything simplified. It is an easy matter to wholly for the money it brings is wash the dishes, scale them and not to do it well enough. And leave them to drain dry if one has those men who contract the habit a special drainer and a sink large of working wholly for the money enough to hold it. In case one has are likely thereby to unfit themnot, thick folds of newspaper may selves for the enjoyment of a period tubs, and the dishes scalded and man makes agreeable companionpacked one by one upon the paper ships in his daily work, he finds to drain. A country housekeeper problems that call for all his brain owes her daily nap and recovered and character-for endurance, for health to this simple arrangement, fair judgment, for just dealing, for In cleaning milk or other bottles, doing as he would be done by; and bits of newspaper, with a good all these are the very warp and results. Again, the garbage can ing labor with the hope of really enjoying life is the man who has really enjoyed life during his period of hardest work. And you will deceive yourself if you imagine that in idleness you will develop virtues because they are improperly drain- or a capacity for sensible enjoyment ed. A generous piece of manila that you did not have during your

Prevents Sickness

Are you one of those thousands who, though apparently well, catch cold easily and often ? It's a dangerous condition to tolerate, and one which you can easily provent by taking two or three bottles of Na-Dru-Co Tasteless Preparation of Cod Liver Oil at once-this Fall.

This pleasant-tasting food-tonic gives tone and vigor to the whole system, and so strengthens lungs and bronchial tubes that they readily throwoff the colds which would otherwise take hold of you.

the very best remedies known for chronic coughs and colds, bronchitts, asthma and catarrh. It is also an excellent reconstructive tonic after fevers, and in diseases such as cerefula and rickets, which are due to constitutional weakness.
