

Flour is essential but— it is not your work!

Flour varies from time to time in baking quality. This is because wheat continually varies according to soil conditions, etc.

Therefore, if baking results are to be constantly high, baking tests are essential. It is unreasonable to expect you to make these tests at your expense.

So from each shipment of wheat delivered at our mills we take a ten pound sample. This is ground into flour. Bread is baked from the flour. If this bread is high in quality and large in quantity, we use the shipment. Otherwise we sell it.

By simply asking for **FLOUR** bearing this name you can always be sure of more bread and better bread.

The Durham Review

DURHAM, NOVEMBER 6, 1913

Truxa for South Bruce.

The election last week resulted in a decisive defeat for the government candidate, Mr. Cargill, by a majority of 124. It must have come as a great shock to Mr. Boardman and his ministry seeing the constituency was voluntarily opened by appointing the former member Mr. Donnelly to the Senate. Mr. Truxa had majorities in Enderby, Kinloss Paisley, Teeswater, Lucknow Walkerton, Oulross; Mr. Cargill in Greenock, Brent, Huron, Chesley, Carleton Place.

The change from 1911 when there was a Conservative majority of 103 following East Middlesex where a majority of between six and seven hundred in 1911 was almost cut in half—shows an influence at work in Ontario that is very significant. The government fought in each case with all its might, it sent its bill to parliament. It had the support of the government party, yet its candidate was beaten. Had South Bruce election come before East Middlesex, we believe the inspiration might have won the seat, also. A defeat all over Ontario similar to that in these two ridings would mean a reversal of the present standing.

The change of sentiment means that loyal Canadians have tired of the alliance between Mr. Borden and the anti-British Nationalists led by Mr. Bonar Law. It means that the majority of the people are in favor of giving \$25,000,000 to build warships in Britain rather than to do as Australia and New Zealand are doing, build a navy of our own in Canadian shipyards. It means that the majority of Canadians are in favor of the Canadian sailor. A navy that in the event of British need would rush to her assistance. When Britain is at war Canada is at war.

The change of sentiment means also that Canadians believe in Sir Wilfrid Laurier's courage to trust the people as expressed by King, not by the master of reciprocity, which is in strong contrast to Mr. Borden's mistrust of the people which makes him distrustful of the navy. The navy question in a similar way, even though in December 1912, he declared that he would appeal to the people if parliament rejected his plans.

It means that farmers see the benefits of reciprocity with the United States in the cattle trade and could the same benefits be secured in horses, which are now much higher across the line) and in other products, they would willingly trust the preservation of their loyalty, which two years ago was declared to be in danger if a widening of trade took place. The change of sentiment may be taken as a condemnation of Mr. Borden's expenditure of \$120,000,000 on the Militia in ten years and only \$100,000 in the same time in Agriculture; it means that they do not believe in the extravagantly reckless expenditure on public buildings which has risen from \$80,000 per annum in Laurier's time to \$2,500,000 per annum in Borden's time to \$2,811,000. Notice the proportion—and in only two years.

Some one may remind us of the turn-over in Chaboussay! In this the turn-over was only in what was in East Middlesex and South Bruce, but the end there is not yet. The pending protest trial will almost surely result in acquitting the present member, because Mr. Borden regretted he had misused seeing Messrs. Kelly and McIntyre of town while they were in Edmonton. The family are prospering in their adopted city, and could not be again induced to reside in Ontario. Also in South Edmonton we blew in on A. H. Preston who is manager of a branch of the Royal Bank recently opened here. Since leaving Durham over three years ago Mr. Preston has been in Stettler Alta., till last June, when he was placed here. He is looking well and apparently has the confidence of the bank officials as a business builder.

We could further relate facts or describe sights to Edmonton's advantage or perhaps say something to its disadvantage by referring to their rather inadequate street car service, but will not weary our readers. We have again taken flight—southwards for the first time and unexpectedly on the train we were first recognized by Duncan McKinnon of Crawford, who with his brother Hugh of Basswood, Man., and sister Miss Kate were en route to their brother's in Lechlerie. They were returning from Dan McCormack's of Castor, Alta. who with his sister, Miss Eliza left Bannass this spring. They reported Mr. McCormack is doing well, has fine buildings, 480 acres there, and a good crop. Miss McKinnon intends returning east in December. We enjoyed their company as far as Calgary, our next place of visit, and arriving here in balmy weather the result of the presence of a "chinook" wind, we draw the curtain this week. —P. R.

The Capital of the North

Edmonton—its remarkable development and possibilities.

Dear Review Readers: A couple of weeks ago we related the wonderful growth of Saskatoon, now we tell of a city which has grown even more rapidly. Saskatoon in ten years sprang from 100 to 30,000 people; Edmonton in 1901 claimed 3167; to-day the census gives it 70,000; in another decade it will probably reach 175,000 at least. For Edmonton has all the advantages and facilities to promote greatness; a country around it very rich in agricultural and other resources only partly developed; the great expanse of Peace River country to the north to which Edmonton is the gateway; coal beds containing 60,000,000,000 tons coal directly under the city; three great railroad systems centering in it; the centre of the provincial government; and a great number of factories and warehouses.

Inciting wide interest in Edmonton at present is the Peace River Valley and country to the north and west, into which four railways are building. This country contains 40,000,000 acres of land and boundless resources of minerals, timber, natural gas, water power and cattle ranges. Gravel, the chief town, 200 miles from Edmonton boasts a population of 2000 though yet 110 miles from railway connection, while Fort McMurray, Peace River Landing and Dunvegan are other coming towns. It is difficult to judge which of these as yet will in a decade be another Edmonton. This is the last rich undeveloped territory of our Dominion and Edmonton will reap the harvest from its fast flowing immigration.

In common with other western cities, Edmonton is quieter this year owing to the financial stringency, though 'tis said it was felt to a lesser degree here than in any other place. The city owns and operates its street cars, telephones, waterworks, power plant, street paving and sewer building dept. It contains 121 miles of sidewalks, 20 of paved streets and 800 acres of public parks. The city covers a wide expanse of territory, thickly wooded; in fact the land is cleared only when required for buildings or streets. In a broad ravine, winding through the city flows the North Saskatchewan river separating Edmonton from South Edmonton (formerly Strathcona). Spanning the river and ravine is one of the sights

of the city, the immense high level bridge recently completed and over half a mile in length. It was built by the C. P. R. to gain entrance to Edmonton, is over 200 feet high and with terminals cost the Co. \$2,500,000. Railroad and street car tracks fill the top deck, while a few feet below is another level for foot and wheeled traffic.

The largest Canadian hotel we have seen is the magnificent G. T. P. building the "MacDonald" now almost completed, costing \$3,000,000 and situated on the brink of the Saskatchewan, high above on the north shore. Further west on the same shore, next the high level bridge are the fine new Parliament Buildings erected at a cost of \$3,000,000. We took opportunity to inspect their rich and spacious interior, and had the privilege here of hearing the Alberta Parliament in session, through the courtesy of Hon. Duncan Marshall, minister of Agriculture, whom we met previous to opening, giving us tickets to the members' gallery. Hon. A. G. MacKay, we also noticed in the front row, and both of them are in the front rank in the debating power of the government.

Many old friends from South Grey are making good here. Wes Hunt, an old Durham boy, is now partner in a wholesale hardware firm, and in his cosy home in West Edmonton, we spent a pleasant Sunday afternoon; with him is his nephew Milton Mills of St. Catharines, also a Durham boy who recently came out. He accompanied us for a time in the city, and purposes remaining. Barrister Grant who went west from Durham a couple years ago, is a partner in a busy law practice, and Miss Kathleen Grant, who came to Edmonton in the summer is stenographer in the office and finds western city life agreeable. Another Durhamite we had the pleasure of meeting was Shirley McIntyre who occupies a good position in Marshall's Wholesale Hardware and kindly conducted us through the large warehouse. Mrs. McIntyre was out of the city during our stay, and they have recently had a few weeks visit from his parents who are now home.

We also enjoyed a visit to Mr. and Mrs. Jno. A. Wilson, formerly of Dromore, who two weeks previously returned from a four months visit to their old homes in Prince Edward Id. and at Dromore. In company with Mr. Wilson and his friend Mr. Angus we spent an enlightening afternoon in seeing and going through the Swift and P. Burns packing plants in the latter we saw the various steps taken from the time the animal is killed until it and its products is prepared in tempting shape for the market. In killing hogs they say nothing goes to waste except the squeal and the smell. As we didn't didn't hear the music, but deep down in our heart we wished they could have utilized the odor also.

On another evening we attended a lecture in the University of Alberta a beautiful structure on the south side. A short distance east of this is the residence of A. C. Beaton an old Glenelg citizen from whom and his family we received a most friendly welcome. Mr. Beaton regretted he had missed seeing Messrs. Kelly and McIntyre of town while they were in Edmonton. The family are prospering in their adopted city, and could not be again induced to reside in Ontario. Also in South Edmonton we blew in on A. H. Preston who is manager of a branch of the Royal Bank recently opened here. Since leaving Durham over three years ago Mr. Preston has been in Stettler Alta., till last June, when he was placed here. He is looking well and apparently has the confidence of the bank officials as a business builder.

We could further relate facts or describe sights to Edmonton's advantage or perhaps say something to its disadvantage by referring to their rather inadequate street car service, but will not weary our readers. We have again taken flight—southwards for the first time and unexpectedly on the train we were first recognized by Duncan McKinnon of Crawford, who with his brother Hugh of Basswood, Man., and sister Miss Kate were en route to their brother's in Lechlerie. They were returning from Dan McCormack's of Castor, Alta. who with his sister, Miss Eliza left Bannass this spring. They reported Mr. McCormack is doing well, has fine buildings, 480 acres there, and a good crop. Miss McKinnon intends returning east in December. We enjoyed their company as far as Calgary, our next place of visit, and arriving here in balmy weather the result of the presence of a "chinook" wind, we draw the curtain this week. —P. R.

North-East Normanby

Quite a number from around here attended the Orangemen's Service in Varney church last Sunday. Rev. Mr. Ward delivered a fine sermon. Mrs. C. Gadd is visiting relatives and friends around Knox Corners this week. Mrs. W. C. Caldwell had a very successful quilting bee last Wednesday although it was raining, twenty-two ladies were present. All report an excellent time. Mr. Will Wallace and a friend from Eboracle spent Sunday at the former's home here. Miss Janet Marshall of town spent over the week end with her aunt Mrs. John Backus. Mr. and Mrs. G. Sharp and Mr. and Mrs. J. Sharp, also Miss Ethel Fee spent Sunday afternoon and evening with Mr. and Mrs. Robt. Gadd.

The choir and a few of the young people from around here spent Hallowe'en night at the home of Mr. and Mrs. John Marshall. Mr. Thos. Wallace expects to start next week on the warpath gathering taxes. Mr. Albert Marshall purchased a couple of young cattle from Mr. E. Fee last week. Mr. C. P. Kinale of town accompanied by Elmer Fee spent last

Friday hunting in this vicinity. Don't forget the Sunday School entertainment in Knox on Nov. 12th.

Mr. and Mrs. Storey of Durham spent Sunday at the home of the latter's parents Mr. and Mrs. Wallace. Mr. William Wallace teacher from Eboracle, accompanied by Mr. Edwards spent over the week end at his home here.

Mr. James Hoy of Varney assisted Mr. Walter Ferguson with his root crop. (Two budgets have arrived from this vicinity and much of the news being duplicated we have deemed it wise to insert it under one heading—Ed)

Dornoch

Mr. Bruce Dargavel returned home on Thursday not feeling very well. Hope nothing serious will happen as the Drs. gave poor encouragement.

Glad to see Mrs. Park is recovering from her fall. Her arm is doing as well as can be expected.

Mr. and Mrs. Neil Wilson visited at Mr. Barfoot's one day this week.

The Thankoffering of the Dow Mission Band was held on Sat. last. Tea was served, also the dark lantern showing many pictures of the Missionaries in the mission fields.

A meeting of the W H M and F. M. society was held on Monday last in the basement of the church.

B. M. Smith spent a few days at Mr. Neil Wilson's.

Quite a number of our Dornoch men have the blues on account of the election not going their way but never mind the best side must win.

Edge Hill

Mrs. John Little of Proton visited with her mother Mrs. Robt. Ector a few days last week.

Mr. W. J. McFarlane lost a valuable spring coil last week from the effects of a kick from another horse.

Mr. John A. Black and daughter Miss Katie Bell visited at the McFayden's on the avenue and attended the funeral of his aunt Mrs. Turnbull.

Miss Frederica Staples returned home last week after visiting for some time with her grandmother Mrs. Jas. Staples of Markdale.

A number from this burg attended the Sunday School social in S. S. No. 9 on Friday afternoon and all report an enjoyable time.

Pleased to hear Miss Bella Firth is improving from her recent illness.

Miss Mary McFayden visited friends in Owen Sound lately.

Mr. John Moffat of Greenock attended the funeral of the late Mrs. Turnbull on Saturday last, and visited at his mother-in-law Mrs. Robt. Ector.

Mr. Wm. Ritchie Sr. returned home from the West on Saturday last where he visited his son Edgar and Mrs. A. Ector at Elbow, Sask.

Miss Emma Ritchie of Hanover spent from Saturday till Monday at her home here.

The majority of farmers in this neighborhood have their roots potatoes and corn in for the winter and are now busy plowing.
