We never know the present un- work and related an interesting inciless we know the past and especially dent of the first Library meeting he heurged we should keep the poets as life friends.

The "Instruction Hour" by Miss Spereman, of Toronto, was true to its title. She is the official cataloguer of the Education Department and more than any other one person comes ic touch with actual Library conditions of the province. Her address was an explanation of the duo-decimal system of classification which is being generally adopted in Ontario Libraries and which is certainly worth installing in such a Library as Darham. This was listened to with close attention and of value to all Libraries.

There are 456 libraries in Ontario and the Department at its own expense sends Miss Speremen when wanted to assist in recataloguing li-

braries by the delegates present, tem. amongst the points brought out being: Rural mail delivery by encouraging use of daily papers was hurting librar ies. Also the multiplication of school Libraries acted in the same direction. eligible for a grant. Brampton is the largest Library in gets a municipal grant of \$1100 and levy a small rate for libraries. the district with 835 members, but council had been present.

Where Libraries cannot purchase new books, the department will send adopt new system of classification. out circulating libraries to freshen up

Grand Valley has both a township

institution which has spent \$150 in

Hanover report by Mrs Lister was perhaps the most interesting of themall. Mrs Lister could tell of a municipal interest increasing yearly not only financially, but a personal interest that reacted to the benefit of the Library. She has instituted a " Story Hour " and with voluntary assistants talks are given to the children on Nature Study and these are to be foliowed by Biography. They have introduced Kindergarten tables and in other ways are catering to the young, They have printed lists of books suitable for the workmen and their families and asked Manufacturers to euclose them in the pay envelopes thus claim ing attention from many who otherwise might be indifferent. They have also a literary society, speaks with enthusiasm of the success of Sunday afternoon opening. This was undoubtedly the best report given and was

New Mantles Just Arrived

Comfort.

Elegance,

Economy

There is great comfort in a long coat with a far collar. There is so large a portion of the winter which is severe and blustry that the possession of a long coat with a fur collar is practically a necessity in every women's complete wardrobe. We have them and they are made especially for ourselves. They have superior cloth, also superior quality quilted lining and are a little longer than the ordinary fur collar coat.

Any one intending purchasing a good warm coat should see this line before selecting elsewhere. We have also passed into stock within this last week 36 Ladies new Coats ranging in price from \$6 to \$15

Our showing of Men's and Boys' Overcoats and Men's and Boys' Suits is an interesting feature of this store.
