A Satisfactory Outlook.

Whatever may be the results of the Ontario bye-elections it must be the general opinion of Liberals and indeed of many Conservatives, that Mr. Rowell is making a splendid and plucky fight. His speech at the Hamilton banquet was a fine exposition of progressive Liberalism and created immense enthusiasm in an audience largely composed of young men. While Liberalism has such leaders as Laurier and Rowell, there is not the least cause for discouragement. And all citizens of Ontario, to whatever party they may belong, must be glad that the party battles to-day are being fought over real issues.—Star.

One of Mr. Pinder's horses took a cold bath last week falling into a stream about six feet deep. Mr. Pinder not being home at the time, Orton Hoy with his wheel soon brought the men from the mill, where they were helping Mr. Swanton. They soon got the horse out none the worse for its bath.

The neighbors turned out with their teams and moved Mrs. Pust's household effects to Durham.

The extraordinarily mild weather we are having is the subject of much comment. November, with the exception of the deadly storm on the 9th, was mild above the average and early December days are almost like summer, neither snow nor frost. Ploughing and other farm work in full progress.

LOCAL AND PERSONAL

The Review would be pleased to get in touch with new persons at Varney, Yeovil, Hampden and other central points where we have no correspondent to act as writer from their district. Write or call at the Office in Durham for information and supplies.

Several new phones have recently been installed and the Bell system is rapidly spreading out its lines in our district. The phone may be a good thing to have, but we don't expect it will help out our bachelor friends, as there are too many listeners on the lines. Those who have had them installed this week are J. G. Brown on 20th, Nelson Maguire, Victor Adams and Major Eccles on the 16th, J. D. Drimmie on the 16th and Alex Ross on the 14th.

LOCAL AND PERSONAL

We know that even now monopolies are fattening on the necessities of the people; that we are paying tribute to all the organized and protected interests. With coal at \$12.50 per ton (\$14 in half ton lots) and a hard winter approaching, with the shameful hold-up in the prices of lumber necessary to house live stock, accompanied by the gratuitous advice to farmers to go into mixed farming, Canadian made farm implements selling at less money in Europe and Australia than to our own people, flour made from Canadian wheat in England selling for less money there than flour can be procured here and all the varied incongruities and injustices which the devices of men have brought about in their efforts to monopolize trade and wring exorbitant profits from the people so apparent, it is quite an easy matter to say "where the West is really at."

The fact that we remain "AT" in these respects is not our fault. We have used all the constitutional methods in our power. If the people of the Eastern provinces will persist in nurturing a protection that counts its wealth in millions they are only postponing the day of reckoning and rendering more difficult the adjustment which must come.
