**GEN. CARRANZA OF MEXICO BELIEVES IN DEAD ENEMIES.**

General Venustiano Carranza, the head of the so-called Constitutional forces in Mexico, who may succeed to the Presidency, is about as civilized a gentleman as the present dictator, who waded through the blood of the Maderos to the place of power. Here is a description of him by one who claims to know him:

"There is one particularly nice thing about Carranza. He can order a man shot in as delicately courteous manner as though he were begging the favor of the next dance."

"My dear old friend," he said to Jose Sanchez not long ago. "I am warm within me for the pleasure of seeing you."

Senor Sanchez had been a neighbor of General Carranza's in their State of Coahuila. But Sanchez took the other end of Mexican politics. In one way and another he had been an annoyance to the Carranza forces.

"I regret that we have been unavoidably separated for so great a period," said Senor Sanchez, politely.

"They talked for a time about their one-time neighbors. Neither mentioned politics. When Carranza rose to leave he shook hands warmly, and conveyed to Senor Sanchez assurances of his most distinguished regard.

**HOW TO TREAT ALL SKIN TROUBLE.**

Greasy Ointments No Use—Must Be Cured Through the Blood.

It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy ointments. In fact they couldn't do anything worse, because the grease clogs the pores of the skin, making the disease worse. When there is an irritating rash a soothing boracic wash may help allay the pain or itching, but of course it doesn't cure the trouble. Skin complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr. Williams' Pink Pills have cured many cases of eczema and skin diseases because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. The following proof is offered. Mrs. Fred Tremble, Gunter, Ont., says: "For more than a year I was steadily afflicted with salt rheum or eczema. My hands were so sore that I could not put them in water without the skin cracking open. I tried all sorts of ointments recommended for the trouble, but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble, and began taking them. I took the Pills steadily for six or eight weeks, and they completely cured the trouble. This was several years ago, and I have never been bothered with it since."

Dr. Williams' Pink Pills are sold by all medicine dealers by mail at 60 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**RELIGIONS OF THE PEOPLE.**

Changes in Their Standing in Ten Years.

To those interested in the study of figures, and after all who is not, the census returns of the religions of the Canadian people recently published will afford many hours of careful consideration. Of the total population of the Dominion of 7,206,643, as taken in 1911, our Roman Catholic friends number a little over one-third, the figures being 2,833,011. Of the Protestant denominations the curious fact is apparent that the Methodists, who numerically ranked second in 1901, are now third, having changed places with our Presbyterian friends. The Church of England in the ten years has, however, made the greatest strides, due possibly to the large immigration of English people in recent years, and at the next census it will not be surprising if the figures show that they are the strongest Protestant denomination.

1911.	1901.
Roman Catholics, 2,833,011	2,229,000
Presbyterians, 1,115,324	842,442
Methodists, 1,079,802	916,886
Anglicans, 1,043,017	681,494
Baptists, 382,966	318,005
Lutherans, 229,984	92,294
Greek Church, 88,507	16,630
Jews, 74,564	16,401
Mennonites, 44,611	31,797
Congregationalists, 34,054	28,293

Looking at the record by provinces it is observed that Quebec shows a total number of Roman Catholics of 1,724,683; Ontario, 481,997; and Nova Scotia and New Brunswick, each about 145,000. Of the Anglican community there are in the Province of Ontario 489,704; British Columbia furnishing the next highest figure, 104,972; Quebec being third with 102,684.—Ottawa Journal.

**Here Is a Sure Cure For All Throat Trouble.**

To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhoxone.

"No one ever contracted a more obstinate attack of nasal catarrh than I suffered a month ago," writes Mr. G. E. Root, a well-known resident of Bridgetown, W.I. "My head ached terrifically. I sneezed about every three minutes, but still my nostrils were entirely closed and I couldn't breathe through them. Ten minutes inhalation Catarrhoxone gave me a little relief, so I continued to use Catarrhoxone every hour, and before the day was out I had improved. Catarrhoxone quickly cured me. I am well ever since."

**EATEN BY THE DESERT.**

Sands Destroy Electric Lamps and Trolley Wires.

Extending from Cairo to the Pyramids of Gizeh is an electric trolley line which is used chiefly by tourists. The trunks of huge palm trees serve as trolley poles to support the overhead conductor, and the contrast between the modern hurrying motercars and the peaceful centuries-old tombs of the Pharaohs holds the interest of many a contemplative traveler. At one side of the trolley conductor on bell-shaped insulators are run the feeders, which, like the trolley wire are of bright, hard-drawn copper. After these wires had been installed, says the Electrical Worker, it was soon found that they invariably broke and fell within six or seven months, the cross-section being much reduced at the point of fracture. Investigation showed that the desert winds which sweep across the right of way whip sand

**WHOLE BODY A SOLID RASH.**

Thick, Fine and Red. Agony of Itching and Burning Frightful. One Cake of Cuticura Soap and Box of Cuticura Ointment Cured.

Lower Ossau, N. S.—"At first we thought my child's trouble was his teeth. The whole body was a solid rash and at the arms pits and elbows and thighs the skin came off as if he had been scalded. It was a very thick fine rash, red in color and intensely itchy and burning. The skin just wiped off leaving a raw sore with little specks of yellow matter in them. The rash on every finger split down on each side and looked like a ruffle. His toes broke out in little yellow pimples and the bottom of his feet did the same and he would not stand or walk, that there were pins sticking in his feet."

"The agony of itching and burning was something frightful. If he got a chance he would scratch the skin right off and make a sore, but to prevent that I made mittens for him out of cotton. Every night from twelve o'clock until three in the morning he would have to be taken up out of bed and rocked, his sufferings were so bad."

"With no permanent cure in sight I got the Cuticura Soap and Ointment. The first night the child slept the whole night through, the first night for four months. I am thankful to say the cure was complete and I just got one cake of Cuticura Soap and one box of Cuticura Ointment." (Signed) Mrs. Samuel Higgins, May 17, 1913.

Cuticura Soap and Ointment sold everywhere. For full particulars write to the manufacturers, 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

**First Maker of False Teeth.**

Until little more than a century ago humanity had to rab along without false teeth, of which nowadays one firm alone claims to sell over 12,000,000 a year. One of the first successful makers was Giuseppe-Fonzi, an Italian dentist, who began practice in Paris in 1798, and, thanks to his skillful treatment of Lucien Bonaparte, soon made his way. After years of experiment he discovered the substance from which artificial teeth are made, and received the gold medal of the French Academy of Science. One of the earliest persons fitted with false teeth was the Empress of Russia. After Waterloo Fonzi migrated to London, and then to Madrid, where Ferdinand VII. rewarded him with a yearly pension of a thousand ducats for a set of false teeth.

**Dr. Cassell's Food.**

Science tells us that a chemical substance called leucine is vitally important to the life of the nerve centres. It is the undue expenditure of this substance that causes brain-fog and general nervous collapse. Many nerve specialists prescribe leucine to their patients, the dose being fifteen grains a day in all. The yoke of an average sized egg contains sixteen grains of leucine, so that one egg eaten every day contains sufficient nerve tonic to enable the functions of the brain to keep at concert pitch.
