Opening of Legislature

February 10th has been fixed as the date for the opening of the Ontario Legislature. It is not thought likely that Sir James Whitney will be able to be in the House this Session and Hon. J. J. Fay, the senior member of the Council and acting Prime Minister will take his place as leader of the House.

Canada Temperance Act
Quite unusual interest has apparently been aroused throughout the province by the results of the voting on the Canada Temperance Act on Jan. 29. The chief cause for this keen interest is the unexpectedly large majority in the County of Huron in favor of the Act and against the liquor traffic. The majority was 2,568. The Act also was carried in both the other counties where the question was up for decision—Peel and Welland. In the latter county the majority was 80 and in Peel it was 56. There will doubtless be a re-count and litigation in Welland.

Two Important Movements

Two of the important developments of modern times—the labor movement and the woman movement—were dealt with by Mr N. W. Rowell in a recent speech at Victoria College. Mr Rowell paid a warm tribute to Allan Studholm, the only labor representative in the House and declared that he himself looked forward to the day when there would be a score or more labor members in the legislature.

In regard to the women Mr Rowell thought that whatever our own aims may be, the forces of this age were tending to the procuring for women their share in the management of the country's affairs. He thought particularly that married women, otherwise qualified, should be given the Municipal franchise. "A married woman," he said, "instead of being handicapped by her marriage should be honored by the State."

Favors and Abolition

Mr George Wilkie, a well-known Toronto lawyer, speaking at the Belleville Liberal Club, under the auspices of the Speakers' Bureau of the Liberal Club Federation, declared that although not a temperance man he was absolutely in favor of the Abolish the Bar policy of the Liberal party and thought that the introduction of such a reform would most decidedly be in the public interest. He also made a plea for radicalism in politics.

Signs of Retrenchment

In a recent letter to the Globe from Norman Lambert, their correspondent in the West, there occurs this paragraph picturing lucidly the depression existing in the west.

"The rotundas of the larger hotels are quiet and empty; the usually busy officials at the immigration hall are enjoying a moment of peace; the big stores are not visited by their accustomed crowds of customers; the trading on the grain and stock exchanges is light; the telegraph operator can tell you that they are not sending one message for every ten that were sent a year ago; and everywhere one can point to curtailment and signs of retrenchment."

All this, Mr Lambert says, is because the crop of 1913, successful though it was, has not restored the Western Provinces to their old-time prosperity. In fact, if the corn crop of the United States had not been greatly reduced through failure, prices for wheat would have been so low that the much feared crisis in Western Canada last Autumn would have been inevitable. As it was, the average price of wheat, Number 1 Northern, at Winnipeg during the first four months of the present crop season, was four cents per bushel less than that of the corresponding period last season.

Mr Norman Kerr's mill-yard, which was all nicely cleared off last fall, is again being filled with saw logs, shingle, lath timber, etc. This indicates another busy season for Norman, who has been a very busy man since coming to Varney.

a total of 36 inmates in the House this year, of which 7 are from Owen Sound, application from Wm. Humber for the position of High Constable, which is likely to become vacant, report of Inspector Huff of East Grey.

Mr McLeod, of Flesherton, addressed the council regarding the Government grant to Priceville School. In 1912 the school board had been ordered to get certain equipment in order to qualify for the grant. Although it had the same equipment as Flesherton school, which had received the grant amounting to \$200, the grant was not forthcoming. The board had received the grant for 1913, although the school had no more equipment than in 1912. They had laid the matter before Mr Huff the Inspector but so far had received no satisfactory explanation. Mr Huff, who was present, explained that he had taken the matter up with the department but could get no satisfactory reason why the grant was not forthcoming. The matter was referred to the Education Committee.

Mr Bunnie, Secretary of the Grey County Board of Agriculture, asked the council for a grant of \$300 to the School for the purpose of putting on an exhibit at the Toronto Fruit and Honey Show. Last year's exhibit was a splendid success, and the county won more prizes than any other county represented at the exhibition. The council adjourned until this afternoon.
