

# CANADIAN GETS NEW FACE

## A Remarkable Series of Operations Performed on Ross Allen at Baltimore

A despatch from Baltimore, Md., says: With a part of his forearm substituting for new lips, Ross Allen, a young Canadian at a hospital here, seems to be in a favorable way to have practically the whole of his face newly shaped. Allen entered the hospital about two months ago with his face disfigured from an accident in a saw-mill five years previously. His nose and lips were missing. A section of flesh shaped to the form of his lower lip was cut on his forearm in December, and a grafting operation was made with the lip base. The arm was bound about the head until the grafting was complete. This continued about two weeks, when sufficient adhesion having taken place, the lip section was severed from the arm and the lip shaped. The same procedure was followed in the upper lip treatment, a section of the

### Comment on Events

#### The Hog Harvest.

It is with good reason that we point to our harvest of hogs as the basis of winter prosperity. That there are harvests of winter as well as of summer. According to our present standards of living, less is hardly a necessity than a want of potatoes. It is essential to health and comfort. Without this conserving influence there would be enormous waste and a loss of the most valuable provision staples upon which we depend.

This season's crop is a bumper crop. All over the North it has formed in excellent quality and almost unlimited quantity. Moreover, the conditions have been unusually favorable for harvesting. There can be no doubt that the supply of hogs for the winter is clear and solid. The snow is but a slight obstruction to gathering and in many sections there is ample time to secure a year's supply before the snow comes. For the winter, the farmer's year's well-being and well-being and we may delight ourselves upon being unusually well provided for.

#### Another Grain of Wheat.

We are told that away back in the antiquity of Egypt, which first raised wheat, a stalk grew only two grains and that the grain was as large as a hazel nut. But since those days the heads and the stalks have become smaller and the grain is largely due to care and culture. One more grain to the head of wheat and the world would be a different place. It is a source of pride and glory of the country.

And it can be done and will some day when money, business, loss, their thrives in the hearts of men and peace and plenty take their proper places. The source is in the ground awaiting the magic touch by which every man, woman and child in the country will have a half-bushel more wheat than they now get.

#### The Panama Canal Toll.

President Wilson and the Senate foreign relations committee of the United States appear to have been discussing the question of the Panama Canal toll. It is asserted that President Wilson is in favor of the British contention that to exempt United States coastwise traffic from the toll would be a direct violation of the Hay-Pauncefote treaty. The British contention is that the canal shall be free and open to the vessels of commerce and of war of all nations on equal terms of tonnage, and that there shall be no discrimination against any such nation or its subjects in the matter of the conditions or charges of traffic or otherwise. Over this clause a heated controversy has been aroused by those in the United States who are anxious to twist the treaty in their favor. The British contention is that the canal shall be free and open to the vessels of commerce and of war of all nations on equal terms of tonnage, and that there shall be no discrimination against any such nation or its subjects in the matter of the conditions or charges of traffic or otherwise. Over this clause a heated controversy has been aroused by those in the United States who are anxious to twist the treaty in their favor.

#### A Nova Scotia Case of Interest to All Women

### Halifax Sends Out a Message of Help to Many People.

Halifax, N.S., Dec. 15.—When interviewed at her home at 154 Argyle St., Mrs. Haverstock was quite willing to talk of her peculiarly unfortunate case. "I was always 'blue' and depressed, and my physicians failed to help me for any work. My stomach was so disordered that I had no appetite. What I did eat disagreed. I suffered greatly from dizziness and sick headache, and feared a nervous breakdown. Upon my doctor's recommendation I used Dr. Hamilton's Pills.

"I felt better at once. Every day I improved. In six weeks I was a well woman, cured completely after different physicians had failed to help me. It is for this reason that I strongly urge sufferers with stomach or digestive troubles to use Dr. Hamilton's Pills. Dr. Hamilton's Pills strengthened the stomach, improved digestion, strengthened the nerves and restored debilitated systems to health. By cleaning the blood of long-standing impurities, by bringing the system to a high point of vigor, they effectually chase away weariness, depression and disease. Good for young or old, for men, for women, for children. All dealers sell Dr. Hamilton's Pills of Mandrake and Butternut.

#### THE WEST PASSED OVER.

### No Mention Made of It in Lord Strathcona's Will.

A despatch from Winnipeg says: Speaking editorially on Wednesday morning of Lord Strathcona's will, the Winnipeg Telegram says in part: "It will not escape notice that the Canadian West, which laid the foundation of Strathcona's fortunes and opened the way to the public career which made his name famous, is quite passed over. The omission will arouse no resentment in the West, but it may be permitted at a time when so much is being said of his services to the West—and they were undoubtedly valuable—that it was the West that made Strathcona and that gave him his great fortune which he bestows elsewhere with such a lavish hand."

# INSANE THROUGH DISTRESS

## Woman Used All Her Money to Get Home to France, But Got on Wrong Train

A despatch from North Bay says: Octavia Fournier, a Frenchwoman about 30 years of age, was taken from an express train at North Bay on Thursday on account of her condition, which indicated insanity. She is unable to speak English. She came to this country about three months ago with the hope of securing remunerative employment to support herself in comfort, as well as her widowed mother, whom she left behind in France. She did not succeed in getting work to her liking, and received a letter from her mother begging her to return

# THE NEWS IN A PARAGRAPH

## DIFFERENCES FROM ALL OTHER THE GLOBE IN A NUTSHELL.

### Canada, the Empire and the World in General Before Your Eyes.

Nova Scotia Legislature opens Feb. 19. St. Catharines has only 88 workless men. Arrests in Toronto last year approximated one for every ten persons. A movement for a winter fair in London was commenced at the annual meeting of the Western Fair Association. Wm. H. Ellis, manager for the Wm. Davies Company at Belleville, was found dead in his room, having been seized with heart failure. James Hever has resigned as tax collector of Guelph because the enforcement of payments makes too many enemies. Kimberley, an Englishman, who told the Toronto police he had helped to murder a woman in Kidderminster, now says he was only fooling. The Alert has been ordered out of commission and the preventive officer at North Sydney suspended for carrying "passengers and luggage" without permission. Magloire Bernard, a farmer of St. Dominique, Que., was caught on a spike in a barn doorway as his horse ran through, the nail penetrating his eye and his head.

### HONORS FOR CAPTAIN INCH.

## Recognition of His "Heroism and Staunch Allegiance to Duty."

A despatch from London says: Capt. Francis Inch, commander of the steamship Voltorno, which was hoisted in mid-Atlantic on Oct. 11, 1913, with a loss of 135 lives, was presented on Wednesday by the freedom of the City of London in a silver casket, and also with a gold medal, a gold watch and chain, a purse of gold and Lloyd's silver medal. The presentation was made by the Lord Mayor at the Mansion House. He told Capt. Inch that the tokens were in recognition of his "heroism and staunch allegiance to duty." At the same time a diamond and sapphire pendant and a silver tea service were presented to Mrs. Inch. The Lord Mayor and William Mazooni, the wireless inventor, delivered eulogistic speeches, in reply to which Capt. Inch modestly denied having done anything but his duty.

### A ROMANTIC STORY.

## An Army Airman's Attachment to a Young Girl.

A despatch from London says: A romantic attachment to a girl of fourteen years was disclosed by the will of the late Lieutenant Arthur, an army airman, aged twenty-nine, who was killed at Montrose last May. The will, which was proved in the Dublin courts, leaves the whole fortune of £12,500, Mrs. Winstone Constance Roper, daughter of the late Westport shipbuilder, and granddaughter of Sir Robert Roper. On the death body of the airman was found a miniature portrait of the girl, which he was in the habit of wearing on his breast.

### GUilty OF MURDER.

## Bogus Priest's Defence Was That of Insanity.

A despatch from New York says: On Thursday Hans Schmidt was found guilty of murder in the first degree for killing Anna Amuller, a young woman he had married through a self-performed ceremony while acting as a priest at St. Joseph's Church. The penalty of the crime is death in the electric chair. Schmidt's defence was insanity. This was his second trial. The jury on the first trial disagreed and was discharged.

### THE WAY OUT.

## From Weakness to Power by Food Route.

Getting the right start for the day's work often means the difference between doing things in wholesome comfort, or dragging along half dead all day. There's more in the use of proper food than many people ever dream of—more's the pity. "Three years ago I began working in a general store," writes a man, "and between frequent deliveries and more frequent customers, I was kept on my feet from morning till night. Indigestion had troubled me for some time, and in fact my slight breakfast was taken more from habit than appetite. At first this inefficient diet was not noticed much, but at work it made me weak and hungry long before noon. "Yet a breakfast of rolls, fried foods and coffee meant headache, nausea and kindred discomforts. Either way I was losing weight and strength, when one day a friend suggested that I try a Grape-Nuts breakfast. "So I began with some stewed fruit, Grape-Nuts and cream, a soft boiled egg, toast, and a cup of Postum. By noon I was hungry, but with a healthy, normal appetite. The weak, languid feeling was not there. "My head was clearer, nerves steadier, than for months. To-day my stomach is strong, my appetite normal, my bodily power splendid, and head always clear. Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellbeing," in pkgs. "There's a Reason."

### ANTARCTIC EXPEDITION.

## Members of the Staff Have Had Experience at the South Pole.

A despatch from London says: Lieut. Sir Ernest Shackleton has issued the names of the seven members of his staff who will go to the Antarctic. All except one have had experience in the region of the South Pole. It is understood that several of the scientific staff of Captain Scott's ill-fated expedition will join Sir Ernest, as well as some of the men who accompanied Dr. Mawson. Lieut. Shackleton has practically decided to buy the new Norwegian 600-ton ship Polar, which was especially built for ice work. She will be converted into an oil-burning vessel and renamed Endurance. She will operate in the Weddell Sea. She will be commanded by Captain Davis, who is now in charge of Dr. Mawson's ship, the Aurora.

### CAPTAIN OF THE NANTUCKET.

## Charged With Negligence and Misconduct.

A despatch from Norfolk, Virginia, says: Formal charges against Captain Berry, of the steamer Nantucket, which sunk the liner Montrose with a loss of 41 lives, were formulated here on Thursday and forwarded to steamboat inspection headquarters. It is said they charge Berry with negligence and misconduct. The board of steamboat inspectors at Philadelphia will try the accused captain.

# "Nerviline" Cures Cramps Ends Misery Instantly.

## NO REMEDY SO SPEEDY OR EFFICIENT.

A real cramp cure? Yes, a real one—in a twinkling the cramp is a dead one, and the last word is over, on the inside. This isn't mere talk—it's a solid, truthful fact. No other remedy—not a single one—will cure cramps so quickly and harmlessly as Nerviline. It hits the spot in a jiffy and saves a heap of misery. "Last Saturday night my stomach felt like an infernal machine," writes T. P. Granger from Hartford. "I was awakened from a sound sleep and found myself suffering the worst kind of torture. I was so doubled up I could hardly cross my room. I had used Nerviline before for the same thing and took a real good dose. Once I felt the warm, soothing sensation of Nerviline in my stomach I knew I was all right. I finished the cramps—just one single dose." Sickness at night is rendered a nightmare of the past if Nerviline is handy. It may be earache, toothache or cramps. Nerviline in every case will cure at once and save calling the doctor. Nerviline is a family physician in itself. The large six-ounce size bottle, of course, is the most economical. Small trial size costs a quarter. All dealers sell Nerviline.

# Our London Letter

### Says One Briton Equals Five Germans.

It takes ten Germans to do the work of two Englishmen, said Professor H. H. Armstrong in a speech at the public school in London. The professor, who is a member of the House of Commons, said that the superiority of the German in research work is all nonsense—all moonshine. He declared, adding that it was obvious that Britons stood on a level with if not higher than the Germans. The German man can get only one pot to boil at a time, he said. "We have only to consider the red water conditions which exist in Alsace to realize that a country which can stand that kind of a strain of thought, and is not a country where originality and individuality have developed."

### Would Admit Women to Bar.

A bill will be introduced in the house of commons next session which aims at giving English women the right to practice as lawyers. It is a question whether it will receive the support of the government, without which it stands little chance of success.

### Lord Mount Stephen.

A remarkable old man and multimillionaire associate of Strathcona in many enterprises. He will be 85 on June 9th next.

### DROWNED IN SPEED RIVER.

## Ice Gave Way and One Little Girl Went Under.

A despatch from Preston says: A little four-year-old girl of the Burrell family was drowned on Thursday afternoon in the Speed River. A crowd of children were sliding on the ice when three of them, all little girls, got on a thin piece of ice and went through. Help was soon on the scene, and two of the children were rescued, but the third was carried under the ice.

### Queen Uses No Powder Puff.

Queen Mary perhaps be described as "the last of the great queens" as she has an old-fashioned objection to wearing about her face, appearance never makes them herself and she dislikes them even if made by her brothers.

### Pioneer of Wireless Dead.

Three passed away last week at Kingston-on-Thames, aged 86, the last surviving pioneer of the telegraph of the world, John Walker Williams, who was credited with having built the first telegraph line in the world.

### CHARGE AGAINST STRIKERS.

## Had Many Tons of Weapons Stored in Native Compounds.

A despatch from Cape Town says: General Jan Smuts, the Minister of Defence, spoke for two hours on Thursday in continuation of his speech on the bill indemnifying the Government for any possible losses growing out of the operation of martial law. He continued his indictment of the labor leaders, and declared that many tons of weapons were stored in native compounds and many bands of dynamites had been organized.

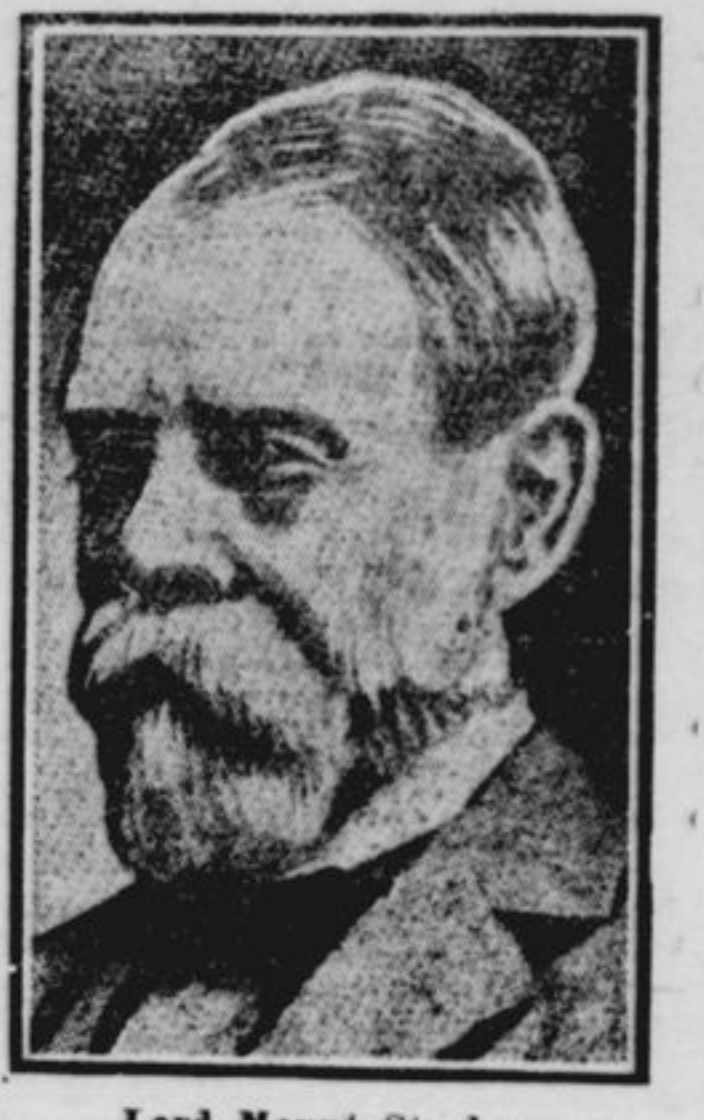

### MAY AID IMMIGRATION.

## Cut in Ocean Rates May Lead to Large Increase.

A despatch from Montreal says: The shipping rate war, in the opinion of local agents, is likely to lead to a large increase in the immigration of Europeans of the laboring class, providing ample material for railway and other construction work. This may result in lower wages being paid to laborers in Canada. Further reductions in third-class steamship passage are anticipated.

### Kidneys Cured or Money Back

Dr. Taylor, of Cobak, has formed a syndicate of \$26,000 to do some work on two gold claims in Munro township, east of Matheson, from which some remarkable surface specimens have been taken.

Lord Mount Stephen, a remarkable old man and multimillionaire associate of Strathcona in many enterprises. He will be 85 on June 9th next.

# NEW YORK JUSTICE.

### Democratic Politicians Receive Staff Sentences.

A despatch from New York says: Joseph Cassidy, former Democratic boss of Queen's County, and William Willett, a former Congressman, were sentenced on Wednesday to serve not more than a year or less than six months in Sing Sing Prison and to pay a \$1,000 fine. Louis T. Walker, a politician, was sentenced to three months and fined \$1,000. Willett was convicted of paying a bribe to Cassidy for Supreme Court nomination. Walker was the go-between.

### Sir Ernest Shackleton will take only men between 30 and 40 on his Antarctic trip.
