A curious custom is still to be witnessed in Cornwall. Two pieces of straw, about an inch long, are crossed and the pin run through them. This cross is then dropped into the water and the rising bubbles carefully counted, inasmuch as they are held to mark the years or months or days that will pass before the happening of the event which is of concern to the

In the old days auguries were drawn from these crosses in other ways. They were made so as hardly to float. Then, as the cross swam, the thrower was to outlive the year; if it sank he was to die within that period. Other matters were to be learned from the position the cross took as it floated on the surface.

A Single Thought.

John, a rather backward lover sat at one end of the sofa, and his sweetheart at the other. Both minds were too full to carry on conversation, but at last the lady spoke: "John, what are you thinking about ?"

John, awakened from his dreams, answered with a drawl, "Oh, just Cleanse the System the same as you are," and was surprised to get the retort: ISSUE 6-'14. "If you do I'll box your ears."

THE VALUE OF COURAGE. Timidity Prevents Some Men Fron

A great deal of talent is lost in the Every day sends to their graves a number of obscure men who have only remained in obscurity because their timidity has prevnted them from making a first effort; and who, if they could have been induced to begin, would in all probability have gone great lengths in the career of fame. The fact is that, to do anything in this world worth doing, we must not stand back shivering and thinking of the cold and danger, but jump in and scramble through as well as we can. It will not do to be perpetually calculating risks and adjusting nice chances; it did very well before the Flood, when a man could consult his friends upon an intended publication for 150 years, and then live to see his success afterwards; but at present a man waits and doubts, and consults his brother and his friends, till one fine day he finds that he is sixty years of age; that he has lost so much time in consulting his first-cousins and particular friends that he has no more time to follow their advice.-Sidney
