

SPEECH FROM THE THRONE

Opening of the Third Session of the Thirteenth Legislature of Ontario

The speech from the Throne at the opening of the Ontario Legislature at Toronto on Wednesday is as follows:—
Mr. Speaker and Gentlemen of the Legislative Assembly:

It affords me pleasure to welcome you to the discharge of your duties as this the third session of the thirteenth Legislature of this Province.
Our thanks are due to an over-riding Providence for the abundant harvest with which Ontario was blessed during the past year, which has had a steady effect on industrial and agricultural conditions generally.

In common with our fellow-citizens elsewhere throughout Canada, the people of Ontario have experienced great satisfaction from the return of His Royal Highness the Governor-General to this country, accompanied by Her Royal Highness the Duchess of Cornwall, whose restoration to health has been a matter of general thankfulness.

My Government was represented at the Interprovincial Conference held last fall in the city of Ottawa, in which every Province in the Dominion participated. The proceedings of the conference relating to several important subjects of public interest will be laid before you for your consideration.

In accordance with the announcement made at the last meeting of the Legislature, a Commission on Roads and Highways has been appointed, and has begun its preliminary work for a series of road improvement throughout the Province. Public hearings were held at various places by means of which the views of municipal authorities and various organizations were elicited. The Commission thus obtained will be embodied in the report of the Commission.

An agreement was recently reached with the Government of Canada for carrying out in this Province the provisions of the agricultural legislation passed by the Dominion Parliament to cover a period of ten years. Ontario's first installment, amounting to \$100,000, has been received and is being spent along the lines of instruction and demonstration.

It is gratifying to observe the increased interest on the part of the farmers of the Province in approved agricultural methods. An indication of this is found in the fact that the attendance at the Ontario Agricultural College is about double what it was ten years ago. There has been a marked increase in the number of students registered at the opening of the present term shows a marked advance over those of the previous year. To meet these conditions an enlarged equipment has been provided, and plans for further extensions are now being considered.

The number of District Representatives of the Ontario Department of Agriculture has been increased and the work of individual Representatives has been made more effective. One marked feature has been the holding of rural school fairs with a view to interesting the children in better agriculture—activity of these fairs having been held during the past season with marked success. It is gratifying to observe the increased interest on the part of the farmers of the Province in approved agricultural methods.

Just One More Woman Rises
TO TELL HER SISTERS THEY CAN FIND RELIEF IN DODD'S KIDNEY PILLS.

Mrs. John Cabot, After Six Years' Suffering, Tried Dodd's Kidney Pills and Found New Life and Energy.

White Head Pelee, Que., Feb. 23. (Special).—One more woman has risen to tell her suffering sisters they can find relief in Dodd's Kidney Pills. That woman is Mrs. John Cabot, well known and highly respected here, and she expresses her enthusiasm in these words: "I certainly recommend Dodd's Kidney Pills. There is nothing better."

Asked to give her experience, Mrs. Cabot continued: "My trouble started in a cold, and I suffered for six years. Rheumatism, neuralgia, stiffness of the joints, cramps in the muscles and heart fluttering were among my symptoms, and finally Bright's Disease developed. It was then I started to use Dodd's Kidney Pills, and they helped me almost from the start. After taking four boxes I feel like a new woman."

Dodd's Kidney Pills cure the kidneys. Healthy kidneys strain all the impurities and poisons—all the seeds of disease—out of the blood. Dodd's Kidney Pills not only cure the disease but by ensuring good blood give new life and energy to every part of the body.

MAN WAS BADLY HURT.

The Prince of Wales Conveyed Him to a Physician.

A despatch from Oxford says: The Prince of Wales gave prompt aid to the driver of a carriage who was injured by being thrown out of the vehicle when the horse was frightened by the tooting of the horns of the automobile in which the Prince was going to a fox hunt on Wednesday. The horse tried to jump a hedge when the horn was sounded, and the driver was thrown out and his leg was broken. The Prince took the man into his automobile and sped to the nearest village. Not finding a surgeon he took the sufferer to another village, and left him in charge of a physician. The Prince then continued on his way to the hunt.

Railway lines in P.E.I. are blocked by snow, some drifts being fifteen feet high.

The King attended the smoking concert of the Royal Amateur Orchestral Society of London, taking a large party from Buckingham Palace. He applauded several performers, smoked cigarettes, shook hands with leading members of the society, and engaged in animated conversation on the programme.

10 POWERFUL LOCOMOTIVES.

English Railway Importing Them From Germany.

A despatch from London says: The South-eastern Railway has placed a contract for 10 powerful locomotives with a German firm at Tegel, near Berlin. The placing of this contract is of more than ordinary importance, for, although some years ago the Great Central, the Great Northern and the Midland Companies introduced a number of freight locomotives which had been built in America, and the Great Western has introduced French locomotives into its Paddington and Plymouth express service, no German-built locomotives have ever been imported into Great Britain, with the exception of some small, narrow-gauge engines for contractors' purposes.

ROBBED OF FIFTY DOLLARS.

An Old Blind Man Held Up in the North Country.

A despatch from Cobalt says: One of the meanest thefts ever perpetrated in the North Country, was brought to the attention of the Cobalt police on Thursday when Adolphus Meloche, a blind man considerably over middle age and totally unable to defend himself against attack, reported to Chief Burke that an unknown person had lured him out to a lonely spot beyond the Hudson Bay camp and there held him up and robbed him of \$50, leaving him to get back to town as best he could. The thief asked the blind man to buy a watch, but the latter refused, saying he had no money. The thief then told him to hand over \$50 or he would beat him up, and Meloche did so.

THE EARL OF SCARBOROUGH.

Will Run an Up-to-date Restaurant at Skeggness-on-Sea.

A despatch from London says: Like many another member of the old British nobility, the Earl of Scarborough has decided to go into trade. Before the seaside season begins he will, if the justices grant him a license, be retailing tea rolls and butter, not at a charity bazaar, but every day in the week, at an up-to-date restaurant at Skeggness-on-Sea. In short, the Earl has decided to relinquish his investments in real estate and to go into business as a caterer and restaurant keeper.

ADMIRALTY WILL ECONOMIZE

Save \$2,500,000 By Abandoning Naval Manoeuvres.

A despatch from London says: The Daily Mail says the British naval manoeuvres for 1914 have been abandoned, ostensibly on the ground that there is nothing more to be learned from naval manoeuvres, all that was necessary having been ascertained in 1913. The paper adds that the real reason is a desire for economy in the Admiralty, to save the \$2,500,000, which the manoeuvres would cost. It is recalled that the manoeuvres of 1907 were abandoned for the sake of economy.

FEMALE DOMESTICS WANTED.

Marriageable Women Are Also Wanted in Australia.

A despatch from Ottawa says: Australia's necessity for immigration, especially of female domestics, is set out in the first report of the Dominion Royal Commission, tabled in the House on Wednesday by Hon. George Foster. A demand for marriageable women is also emphasized, there being a difference of 226,000 between the male and female population. The commission, of which Mr. Foster is a member, visited Australia and New Zealand last summer.

AFRAID TO EAT

Girl Starving on Poorly Selected Food.

"Several years ago I was actually starving," writes a girl, "yet dared not eat for fear of the consequences."
"I had suffered indigestion from overwork, irregular meals and improper food, until at last my stomach became so weak I could eat scarcely any food without great distress."
"Many kinds of food were tried, all with the same discouraging effects. I steadily lost health and strength until I was but a wreck of my former self."
"Having heard of Grape-Nuts and its great merits, I purchased a package, but with little hope, as it would help me—I was so discouraged."
"I found it not only appetizing but that it satisfied the craving for food without causing distress, and if I may use the expression, 'it filled the bill.'"
"For months Grape-Nuts was my principal article of diet. I felt from the very first that it had found the right way to health and happiness, and my anticipations were fully realized."
"With its continued use I regained my usual health and strength. To-day I am well and can eat anything I like, yet Grape-Nuts food forms a part of my bill of fare."

Miss Elsie Mackenzie.

quired American slang, that now Mrs. Morgan was 5 cents to the good. Ten minutes later she was standing in Mrs. Belmont's more or less awful presence.
"You not only took more than a nickel's worth of cocoa in a 5-cent pot," said Mrs. Belmont, "but you insulted Mrs. Morgan. You must apologize."
So Miss Mackenzie is going back to London and window-breaking and war and hunger-striking. She says she likes peace.

The Truth About Early Rising.

Gibbs—I believe in early rising, don't you?
Dibbs—Well, there's no abstract excellence in early rising; it all depends on what you do after you rise. It would be better for the world if some people never got up.

The Marquis of Salisbury addressing the Herefordshire Chamber of Commerce declared that if land-owners are deprived of existing authority they will spend no more money on land, but will sell and quit.

A 41-YEAR-OLD HORSE.
Had Been Used By Five Generations of One Family.
A despatch from Trenton says: Probably the oldest horse in Ontario, an Indian Arabian pony, died recently at the farm of Mr. W. B. Scott, Prince Edward County. The pony had been used by five generations of the family and was 41 years of age. Mrs. Scott's children and grandchildren drove her and rode her up to the past year, when old age began to make its appearance and the pony's teeth failed. She was then fed on grain. She had the Western brand of AB on her shoulder.
