night. As far as our experience goes are filled in by this time. ing. Wood and good heavy blankets tends to be for their general good. were two necessary articles during Our churches were slimly attended February. The heat of summer when it's 90 in the shade is hard to bear, so are the frosts of winter when the mercury runs down to 30 or 40 below. Some state they prefer the frost, but the majority say they prefer the heat for in general all classes of the people are not prepared for the bitter cold weather, such as we have experienced lately.

In the early history of this part, the inhabitants, in their early bush settlements were thankful to have a shack

### For Baking Success -This Oven Tost

Success on some baking days can be expected no matter what flour you use. But constant success is rarer. It can be assured in only one way. The miller must select his wheat by oven test.

So from each shipment of wheat we take ten pounds as a sample. We grind this into flour. Bread is baked from

If this bread is high in quality, the flour. large in quantity, we use the shipment from which it came.

Otherwise we sell it. Constant baking success comes as a matter of course from flour bearing this name

"More Bread and Better Bread" and "Better Pastry Too"
