Cured by Toning the Blood and Strengthening the Nerves

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the paratively short time one or more tamiliar spring weakness and weari. human beings will have travelled ness from which most people suffer from America to Europe, or the reas the result of indoor life, in poor- verse, through the air? Whether ly ventilated and often overheated this journey is finally to be made in buildings. Official records prove a machine which is lighter or heathat in April and May neuralgia, vier than air through which St. Vitus dance, epilepsy and other moves, does not yet appear, and it forms of nerve troubles are at their seems as if this point depends more worst, and that then, more than upon the man than upon the maany other time, a blood-making, chine, says the Scientific American. nerve-restoring tonic is needed.
