EVENTUALLY

Every window and every door where ever made of wood will be equipped with

All-Metal Weather Strip

The specially designed and up-to-date method now generally adopted for effectually preventing entry of all draught, snow, sleet, rain or dust of any kind, thereby insuring an even temperature throughout the building.

Why Not Now

Why deny yourself the maximum of comfort at the minimum of expense. All metal-weather strip costs less, is far more effective than storm sash and is a permanent institution, requiring no removal. Most public buildings in large cities are equipped with it. Architects specify it, the Government demands it.

Saves its cost in Fuel in a short Time

Estimates cheerfully given. Work guaranteed. Write, Phone or Call. Manufactured and installed by

Use PURITY FLOUR and do justice to your baking ability

Your bread, pies, cakes and pastry can be no better than the flour you use. For the sake of your family's health and your reputation as a cook you should always use PURITY FLOUR.

Tell your grocer that you want a sack of PURITY FLOUR. Give it a fair trial—an actual baking test—and if it does not

PURITY FLOUR

prove to be the best flour you have ever used your money will be returned. What more evidence do you require of the superior baking qualities of PURITY FLOUR? Doesn't it stand to reason that PURITY must be the best and purest flour milled? Otherwise we could never afford to guarantee it so liberally.
