NOTES AND COMMENTS |

Votes for women are certainly coming. But some of the feminist writers are worrying about something which, alas, cannot be so easily remedied. Mrs. Charlotte Gilman is doing her best to raise another hue and cry-names for women! A woman, she says, gets her father's family name and keeps it until she is married. After wedlock she takes her husband's name "She has none of her own to keep and pass down to her children."

There are those who think that a woman who has nothing more serious to worry about in life should the cap and a twist of ribbon is ple" was at first applied only to esteem herself most fortunate.
