#### All-Metal Weather Strip

The specially designed and up-to-date method now generally adopted for effectually preventing entry of all draught, snow, sleet, rais or dust of any kind, thereby insuring an even temperature throughout the building.

#### Why Not Now

Why deny yourself the maximum of comfort at the minimum of expense. All metal-weather strip costs less, is far more effective than storm sash and is a permanent institution, requiring no removal. Most public buildings in large cities are equipped with it. Architects specify it, the Government demands it.
