Anyone requiring tile will do well to call or

J. W. HUNT, Holstein

# Concentration

It is better to advertise intensively than extensively when the sum to be devoted to advertising is small. This means the regular use of the DURHAM REVIEW-52 messages a year addressed to the same constituency of readers.

Intermittent or divided effort is not likely to be resultful. One full-powered blow is better than two half blows.

Concentration of appeal will do a work of conviction and persuasion that will surprise you when the year's returns are totalled up.

### A NOTE TO THE PUBLIC

There's advice for you in this little homily to alvertisers; it is: Reward with a full not divided custom the merchant who steadfastly The more you Directs your good-will strengthen the hands of the man who serves you, the better will be the service returned.

Shop where you are invited to Shop
