Buy Farm Property Now

It is bound to increase in value. Men in a position to judge say that no farmer living today will ever again see cheap beef. This certainly means an active increase in the selling price of farm lands. I have for sale:

100 acres near Dromore, convenient to school. Splendidly improved, only \$1000 down, balance at 5 percent. Price \$2500.

100 acres on 18 Egrement, well prepared \$2000 or with another 50 acres, \$3000.

100 acres Egrement, near Mt. Forest. Good farm, worth more than offered \$4000 or trade under for quick sale.

200 acres Egrement, near Folsheim. One of the very best farms in the Township. Will soon be picked up at very low price quoted.

100 acres Bentinck—the John Clark farm, con. 3 W. G. R. Cheaper than ever offered before.

100 acres, B-antick the "Coutts" farm. Lot 30, con. 10. Offered very cheap and on very easy terms.

100 acres B-antick, lot 51 con. 2, W. G. R., near Durham. Good farm, cheap.

You cannot afford to BUY or SELL to BORROW or LEND without first seeing

DURHAM, — ONTARIO Next Alderson's Store, Priceville

PRICEVILLE VILLAGE

The weather's all right, ain't it boys only Jes' little mite squally, but them there high south east winds comin' as they do from outen Swinton Parkway, are liable to blow up a thunderstorm or mebbe a cyclone. Some of our citizens that they heard thunder last Friday but later they heard it was the Priceville hockey boys swearin' 'bout somethin'.

We are pleased to be able to say that most of our sick people are on the mend again.

We are glad to welcome our new shoe repairer, Mr Grundy, and hope that he will make his business a success here. We also extend a welcome to the new barber, Mr Arnett.

Mrs J. Black had a very successful quilting bee last week.

Miss Effie Black visited last week with her brother Joe.

A very pleasant time was spent at the Young People's ball on Friday night which was given in honor of the soldier boys who are visiting for a few days at Mr D McMillan's, S. L.

The regular monthly meeting of the Womens Institute was held at the home of Mrs. Aldern when a large number of ladies were present.

A splendid paper was given by Mrs. Matheson on "Tuberculosis, its cause and prevention"; also was given a very inspiring paper by Miss Edith James on "Great Canadian Women." Then Mrs H. R. McLean introduced a new marching song for the Institute which she composed and touching it with very expressive words. The Institute women with the help of the surrounding community have knit 35 pair of socks for the soldiers since last meeting. The women are realizing more and more that "they can also serve who have to stand aside and wait" and are living up to the standard of their motto "For Home and Country."

Notwithstanding the disagreeable weather a large turnout attended the preparatory service on Friday afternoon conducted by Mr Leese and Mr. Matheson, showing that we are not forgetting the honor due to our heroes only in the stress of showing our loyalty to an earthly king.

A nice friendly game of hockey was played on our open rink on Saturday afternoon between Ceylon and Priceville, the score being 3 to 6 in favor of Priceville. Priceville boys count it an honor to play with a team like Ceylon who like our own boys can not always expect to be winners but who come prepared to accept defeat in the same friendly way that they would take victory like men and gentlemen.

We noticed an item in the Swinton Park budget of last week to the effect that a mixed team from Priceville Ceylon and Flesherston opposed their team. Now we beg to inform that correspondent that five of the seven who played in said game live right here in the village, the other two a mile or so out in the country.

One of which, not being able to be here himself, got one of the Ceylon boys to play in his place. Everyone knows also that it was our very best man who was absent, a much better player than the one who filled his place. Then why such wind from S. P.?

If we had our own full team we expect that instead of being 3 to 6 as it was it would have been 10 to 10 in favor of Priceville and if ours was a mixed team how shall we term the S. P.'s? A mixed team would hardly be putting it strong enough. Two of the S. P.'s live somewhere near S. P., two more of them from the neighborhood of Dundalk, one from Proton team and one a visitor from the west who we were told belonged to some crack tennis houses should not throw stones or they may bounce back and break their own windows. We are sorry that any unpleasantness has arisen between these teams, being determined to play the game square, even to the extent of the giving up of one goal on account of a ruse of one of the S. P.'s, a trick we are told which he had played to account before in football. The visiting team was taken to the hotel and given their supper to eat there. Now we would advise our boys that if they are determined to play, that they insist on playing with men only who will play fair and who are not given to misrepresentation.

Our Swinton Park friends penned a little item in your paper last week with regard to our hockey match and we, the Priceville hockey team, have challenged them to play the return game in Flesherston. (But no) we believe they can't play a good game of marbles. THE HOCKEY TEAM.

SOUTH LINE

Intended for last week Miss Jessie MacDonald spent a few days with her friend, Miss Mabel Burnett.

Miss Maud MacDonald returned home after spending a week or so with Mr and Mrs Jos. Ferris.

A very enjoyable evening was spent at Mr J. Burnett's last Wednesday evening.

New Shoe Repair Shop in Priceville

Next Monday, March 8th, I will open up for business in repairing boots and shoes and would solicit a liberal share of your patronage. Terms, cash. Give up a call.

W. GRUNDY

EDGE HILL

Mr. Geddes of Dromore visited last week with Mr. T. Greenwood. Miss Mortley spent the week's end with friends in Dromore.

The gasoline sawing outfit of Mr. H. Hunt, Vickers, is making quick work of the woodpiles of several people in this vicinity.

Mr. and Mrs. W. Pinder of Orchard, visited friends around Edge Hill last week.

Mr. T. Binnie of New Westminster, B. C., is visiting with his sister, Mrs. D. Edge and renewing old friendships with others.

This beautiful spring like weather has persuaded some to tap their maples and they report the sap running well.

Seed Grain

Banner Oats, improved by hand selection for 13 years and are from the field that took a \$15 prize in the field crop competition in 1914. Also Golden Vine Peas. Price 3 cts. per lb. Wm. L. Dixon, Lot 15, Con. 22 Egrement R. R. 1, Varnoy.

Credit Auction Sale

Grey and Bruce

A pamphlet prepared by the Department of Agriculture gave the following interesting notes on the counties of Grey and Bruce.

Grey—General farming. In 1914 had largest acreage in oats of any county, being 153,883. Live stock in dairy important. On hand 1914: Horses, 34,245; milk cows, 34,642; other cattle, 84,400; sheep, 67,524; largest of any county in the Province; swine, 62,574. Total poultry raised, 517,446. Hay and clover, 162,688 acres; peas, 11,474 acres, second largest acreage in the province; turnips, 5,613 acres; pasture 167,173 acres. Some good fruit locations in county: acres of orchard, 12,673.

Bruce—Chiefly grain growing and live stock. In 1914: oats, 144,220 acres, yield 4,370,946. Acreage of fall wheat, 27,821; barley 21,307; peas, 16,241. Largest acreage in province: corn grown chiefly for silo. Considerable roots grown for feeding stock. Acres in hay, clover and alfalfa, 138,408. Live stock, horses, 30,081; milk cows, 27,657; other cattle, 72,914; swine, 49,910; sheep, 40,320.

NOTHING BETTER FOR WEAK WOMEN

"I Never Spent Any Money That Did Me So Much Good as That I Spent for Vinol."

Bellefontaine, Ohio.—"I wish every tired, weak, nervous woman could have Vinol for I never spent any money in my life that did me so much good as that I spent for Vinol. My nerves were in a very bad condition, making me very weak, tired, and worn out and often drowsy headaches. I had tried cod liver oil, doctor's medicines, and other preparations without benefit.

One day a friend asked me to try Vinol. I did and soon my appetite increased, I slept better and now I am strong, vigorous and well and can do my housework with pleasure."—Mrs. J. P. LAMBORN, Bellefontaine, Ohio.

Nervous, weak, tired, worn-out women should take Mrs. Lamborn's advice and try Vinol for there are literally thousands of men and women who were formerly run-down, weak and nervous, who owe their good health to Vinol. It is the medicinal, tissue building elements of the cod's livers, aided by the blood making, strengthening influence of tonic iron, contained in Vinol, which makes it so efficient in all such cases.

Macfarlane & Co., Druggists, Durham, Ont.

The Need of Greater Production

Great Britain has invested more money in this country than in any other country in the world, outside of the United States. The sum total is no less than \$2,800,000,000, being equal to \$400 for every man, woman and child.

This money has gone largely to provide railway and other facilities for carrying on our business. It is loaned money, and bears one hundred and twenty millions of dollars interest annually. That interest must be met. It can be met only by exporting surplus products. There is a ready market for all the farm products we can produce over and above our own requirements. A twenty per cent increase in farm production will cover our interest payments and maintain the country's credit.

This is one answer to the question. Why is it necessary that Canada at this particular time should increase the output of the farm?

It is neither asked nor expected that the farmer should bear the whole burden. The railways and other organizations engaged in the transportation of products must bear their share. The financial institutions of the country must be asked to see us in financing the farmer's business as well as the manufacturer's. The farmers of almost every country in Europe enjoy the advantages of rural credits. Similar facilities are urgently needed here.

That production may to some extent be increased without a corresponding increase in labor is clearly indicated. The best strains of seed will give larger yields than inferior kinds. A strain suited to the soil and climate and sown at the right time will give better returns than seed that is not. Pure seed, plump seed, seed of strong vitality, will increase the yield. These and other important principles are not as widely applied as they might be.

There is an appalling and almost universal waste in the handling of liquid and solid manure in this country. Recycle this and restore to the soil the elements of fertility now lost through lack of care, and production may be increased without any appreciable increase in labor.
