Cry of "The Cossacks Are Coming."

A despatch from Petrograd says Most of Northern Poland is now clear of Germans, and their outposts among the villages are frequently demoralized, for the cry of "The Cossacks are coming" sufficient to make them vanish Many German guns recently taken in the north of Poland date from the early seventies. They are moving the best artillery into Western

The cessation of von Hindenburg's entire northern plan, which was arrested by defeats at Przasnysz, Orlitz, and in Suwalki is undoubtedly largely due to the failare of the projected campaign in Eastern Galicia. This scheme is believed to have been really the central purpose of his strategy since the New Year and dictated by Hungary's political designs.

ZEPPELINS OFTEN SMASHED.

Difficult to Handle.

Ever since the commencement of the war, the possibility of a Zeppelin raid on Great Britain has caused \$5.90 to \$6.10, seaboard, and at \$6.15 to spread as much as possible dread pheasants and wild ducks from His of such an attack.

In aeronautical circles, however little alarm is felt, for those who know the real capabilities of the fence, said that while there was a ada, No. 2, at 70 1-2c, and No. 3 at 68 1-2c. the German-inspired scare is about as empty as the gas-filled aircraft

Take, for instance, the much vaunted automatic guns which are said to be carried on a specially built platform situated on the sausage-shaped envelope of the Zeppelin. It is extremely doubtful whether a singe one of the Kaiser's airships is armed in this fashion, for Count Zeppelin was taught a drastic lesson in this connection at the end of last year.

On a new Zeppelin airship a tunnel was constructed through the gas envelope, which enabled the crew to pass between the passenger gondolas and a gun platform on the top of the machine. The craft climbed to a height of

a thousand feet with a full comple-Potatoes Ontario, 65 to 70c per bag, out ment of crew, and a number crawl- sary to meet altered conditions, situated above the envelope.
