## Concentration

It is better to advertise intensively than extensively when the sum to be devoted to advertising is small. This means the regular use of the DURHAM REVIEW -52 messages a year addressed to the same constituency of readers.

Intermittent or divided effort is not likely to be resultful. One full-powered blow is better than two half blows.

Concentration of appeal will do a work of conviction and persuasicn that will surpise you was the year's returns are totalled up.

### A NOTE TO THE PUBLIC

There's advice for you in this little homily to advertisers; it is: Reward with a full-not divided custom the merchant who steadfastly solicits your good-will. The more you strengthen the hands of the man who serves you the better will be the service returned.
