TOWN TOPICS

Take a Kodak with you, \$1 up, at Macfarlane's Drug Store.

A movement is on foot to have a trunk macadam road constructed between Owen Sound and Collingwood. Remember the united Memorial Service at 7 p. m. Sunday in Presbyterian Church. No service in the other churches.

SERVANT GIRL WANTED.—One who can live at own home over nights preferred. Apply to J. C. Knickerbocker, Durham.

South Bruce Conservatives have nominated Mr. John Purvis, auctioneer of Holyrood, as their candidate to oppose R. E. Trux, M. P., in the impending Dominion election.

The city biologist of Detroit says that the prevailing color in women's hose this year will attract mosquitoes. Now that's too bad as it's such an awkward place to scratch a mosquito bite.

Over \$2000 was paid out by our cattlemen on Tuesday last for 40 cattle and some 65 hogs. This is a substantial turn over for only one day. Not a record either for it has been exceeded.

Since the first of May arrived, local piscatorial artists have been busy and some large catches are reported. Eddie McQueen pulled out one of the big ones above McGowan's dam, which weighed 13 lbs and measured 13 inches.

BAND CONCERT.—The members of the Band purpose holding a Concert in the Town Hall on Thursday evening, May 6th. A good program consisting of instrumental and vocal selections will be given. Admission, silver collection at the door. Proceeds in aid of a new uniform.

North Bruce License Commissioners have granted a license to the village of Hepworth. At the election last January, local option failed to carry by only 45 of a vote, the poll standing for 22 against 85. In view of its closeness, an effort was made to have the license cancelled, but the vote ignored the protest.

PLANT LIFE OF JAPAN.—Rev. Mr. Prudham at the request of the Horticultural Society will give an address on the Plant Life of Japan, on Monday evening, 19th May, in Public Library building. This will be an interesting lecture and the public are cordially invited. Begins at 8 p. m.

Fishing tackle and sporting goods at Macfarlane's.

The Zion branch of the Women's Institute will hold their business meeting at the home of Mrs. Wm. Timmons, Thursday, May 13th, at 2 p. m. After the election of officers and other business, the members will rehearse their programme for the concert they propose holding in the Township Hall, May 28th, where the autograph quilt which was made for war purposes, will be auctioned off. Ladies are all cordially invited to attend.

WILL HAVE NEW HYMNAL.—The new Methodist hymn book may be ready for public sale about mid-summer of 1916 or at all events by the end of that year. It will number approximately 650 or 660 hymns and 600 tunes. The book at present in use has 936 hymns and 338 tunes. The aim has been to produce a book that will contain a minimum of little-used poetry and that will be much richer musically. Those interested in the problems of church union will be pleased to learn that about 350 hymns will be common to both the Methodist and Presbyterian hymnals.

WELL RECEIVED IN MARKDALE.—The operetta "A Nautical Knot" was presented in Markdale last Friday night by the Durham Choral Society and won most favorable comment. It was held in the fine, spacious Armories, under the auspices of the Daughters of the Empire, where they were active in anticipating the welfare of their guests, and after the concert the ladies entertained the choral members and other visiting friends to a dainty lunch in the tea room of the Armories. An informal dance, participated in by the hosts and guests followed the lunch. The proceeds were \$70. Eight local cars conveyed the 33 members of the Society while a number of other young people drove, a total of over fifty Durhamites present.

Grey County Casualties

Ever closer is the war approaching to us when the casualty list published Wednesday of the terrible battle near Ypres, appear the names of several from Grey County. In the 15th battalion (in which are the Greys boys) Lance Corp. James S. Wilson, son of Reeve J. S. Wilson of Hanover, is wounded; also E. Guy Wickham of Waiters Falls, son of a nephew of Mrs. C. Ransage.

Lance Corp. Thomas A. Jamieson, of Flushing, is dangerously ill from gas poisoning, and Pte. Cecil Best, an Owen Sound boy, was killed. Two Chesley boys were wounded, Ptes Geo. Green and L. Davidson.

That New High School

When the Town Council turned down the request of the High School Trustees for an additional sum to complete the building according to the splendid plans in their possession, they had only one recourse left: to instruct their architects to prepare plans of a building that could be constructed for \$13,000 or less. This was done, the plans were received and it required no expert to perceive how inferior these were to the first plans and how unworthy of a town with the standing of Durham.

The sanction of the Department has to be secured and on Tuesday of this week along comes the information that the new plans are very unsatisfactory, and that "on many points" the school could never in its career be graded No. 1. Besides this was lacking in architectural appearance. The architects say a satisfactory No. 1 school cannot be built for the money. What does the town think of it? To save perhaps 2 cts yearly for a number of years on every \$100 assessment or have an up-to-date school, a building grading A-1, commanding our own self-respect, and enhancing the value of Durham as a place to live in!

The town never made a greater mistake than to allow the best institution in its midst to be cramped and skimmed for the sake of the paltry extra financial cost. The trustees can do no more, the council by a majority refused to consider a by-law, seventeen ratepayers at a public meeting took the same view.

Lots of Lacrosse

In the final grouping of the Intermediate O. A. L. A. groups, Durham is included in District No. 1, along with Hanover, Owen Sound, Dundalk, Shelburne and Orangeville. R. Booth of Orangeville is convener and the schedule will be drawn up in Dundalk some day next week. With a six club district it will mean a 30 game schedule and five home league games for Durham. The team winning out this district ought to finish pretty close to the finals.

The locals have commenced practice and intend placing on the field the strongest line up in years. With the keen competition of such good lacrosse towns as Hanover, Owen Sound and Orangeville, there will surely be something doing this summer.

Tuberculosis Being Mastered

This was the most striking and hopeful note in the splendid lecture given in the Town Hall on Sunday evening last by Mr. J. B. Watson, Field Secretary of the National Sanitarium Association. Mr. Watson is a forceful, intensive speaker, filled with his subject and his lectures, aided by the fine views, must prove exceedingly beneficial to the province, and he no small factor in reducing the ravages from the dread disease, consumption.

The limelight pictures show the lungs healthy and in various stages of the disease. He explained the Latin name of the deadly germ first discovered by the German doctor Koch: "Tubercle Bacillus," Tuberc. because it grows and works under the surface of the lung, and bacillus from its rod-like shape. It is of course exceedingly small but its effects are soon seen when it gets a lodgment in some subject whose health is not good.

He claims that the theory "runs in the family" is all wrong. Some condition of the family or surroundings may cause consumption to recur again and again, but if proper care is taken of cleanliness, ventilation, &c., the danger may be avoided. Keeping windows of bedrooms closed day and night was specially dangerous.

From the coughing and expectoration of those affected, the greatest danger arises. As the disease progresses the lung cells get into a "cheesy" state, later this gets watery and in expectorating along with the liquid there are hundreds of the bacilli, which when dry are easily wafted about unseen and may get into any system. Nature has made provision for protection against just such enemies; these are hairs in the nostrils, secretions in the nostrils, hair-like bodies in the bronchial tubes and a quality in the blood itself.

It is of the utmost importance that all persons even suspected of consumption should avoid spitting other than into handkerchiefs or cloths that can be burned. There are three ways germs reach us: inhalation through mouth or nostrils, with our food, having been deposited there by flies it may be, through cuts or sores on the skin.

He dwelt much on the value of Sanitariums, especially the Muskoka Free Hospital for Consumptives. Where any are able to pay they may do so, but when 174 out of 212 actually pay nothing for food and treatment it can easily be seen what a great work is being done. In 7 out of every 10 cases the patient is restored to usefulness.

That Label?

This hand points to the yellow Label as a reminder to a Number of our Subscribers who Have allowed it to get behind And implies an earnest request From the Publishers to Put it in advance at once and so Balance up for delay. Fair?

We thank those who have responded to the accounts sent out last week, but a large number have yet to respond. Will our friends give this their attention as early as possible, obliging THE PUBLISHERS

PERSONAL MENTION

Mr. Lynn Grant left on Monday for Sudbury, where he has taken a position in a dental office for the summer.

Mr. Robt. Laidlaw returned home last week, after completing his final year at the S. P. S., Toronto, in Mining Engineering.

Mrs. Thos. Brown, of 20th Con., Egremont, visited her sister, Mrs. Wm. Clark last week.

Rev. D. L. Campbell, of Dover Centre, near Chatham, called on Mr. R. Isaac Monday en route to visit his father-in-law, Mr. Brander, of Pricville. Mr. Campbell has recently accepted a call to a Bradford church.

Mr. J. Levine is in Toronto this week on business.

Mr. John Snell spent Wednesday in Mt. Forest.

Mr. Howard Whitmore, of Winnipeg, visited his brother Robt. this week and will spend a few weeks at his old home in Glenelg.

Mr. Will Lavelle, of St. Mary's, is in town for a few days fishing. Will apply for reinstatement as an amateur that he might play with St. Mary's lacrosse club this summer, but the committee decided that once a professional, having received money for his services, his request could not be granted.

Mrs. Henghan, of Hanover, is spending a few days with her son Wm. here, owing to his illness with mumps. Mrs. McCurdy, who has spent the last six months with her sister, Mrs. R. MacFarlane, returned Tuesday to her home in New Glasgow, Nova Scotia.

Mrs. F. J. Craddock of Toronto, visited her sister, Mrs. John McKechnie for a few days.

Dr. D. B. Jamieson is in Toronto for a month supplying for one of the house surgeons in the hospital, where he will acquire valuable experience.

Mrs. Gilbert McKechnie has been quite ill this week and last.

Mrs. Don. Graham, Pricville, was a guest for a few days of Mr. and Mrs. John A. Graham.

Mr. Jas. Isaac came home Saturday last from University. Mr. Will Campbell is receiving the congratulations of his friends these days over his success in his recent years exams at Queen's, Kingston. He came clear on all exams in the special mathematical course he is taking up and took first class honors in History as well.

Obituary.

MABEL GRASBY

Sunday afternoon last, Mabel, a bright young daughter of Mr. and Mrs. Wm. Grasby, passed away at the parental home in Glenelg, near Durham. An attack of pneumonia was the cause. Besides her parents four sisters and three brothers will mourn the loss of one of the lights of the home, for she was a lovely girl growing into young womanhood, being 17 years, 3 mos. old. Much sympathy is felt for the family in their severe loss. Interment is taking place to-day, Wednesday at Maplewood cemetery, Rev's Morris and Whaley officiating.

MRS. THOS. FORBES

The home of Mr. and Mrs. Arch. McCormick, Bentinck, was plunged into sudden grief this week by the announcement that Mrs. Thos. Forbes, Rochester, U. S., a daughter, had died suddenly and that the remains would be home Monday night. Only the Friday previous a letter from her spoke of no trouble, on Saturday a telegram came that she was ill and Sunday she died. Deceased was married only last July and was about 35 years of age.

Besides her sorrowing husband and aged parents, she leaves four brothers, Donald, Angus, Hugh and Neil, five sisters, Mrs. McEchern and Mrs. McPhail, near Pricville; Teenie, Toronto; Sarah and — at home.

Interment took place to Rocky Sa-

geen cemetery on Wednesday. No other particulars at time of writing.

MEMORIAL SERVICE

FOR GALLANT CANADIAN DEAD

On Monday, May 3rd, Mrs. A. J. Graham, formerly of Toronto, passed away from pneumonia at the home of her son Johnston here, aged 60 years, 3 mos. She had intended making Durham her home and was here only a week. She was a member of Trinity church and the funeral will take place to that cemetery Thursday. A large family survives, her son Johnston being well known here as G. T. R. brakesman.

The Ladies' Guild of Trinity church at their home made baking and white-wear sale on Saturday last, made the handsome amount of \$85.

New Books at Macfarlane's—Polly Anna Grows Up, Billy Sunday and his message, Polly of the Hospital Staff and Pep. See our fine list of \$125 books for 50c.

Town Council

Met in regular monthly meeting on Monday, 3rd May. All present but Councillors Lenahan and Wolfe. Accounts were passed as follows: Durham Furniture Co. wood supplied Mrs. Sharp, \$200; John Whittaker, teams to fire at Davidson's, 7.00; J. P. Telford, account for legal services to date, 100.00; Clerk, salary &c., 35.38; G. Arrowsmith, sal. for April cap, signs and repairs, 4.30; H. McDonald, firing at Fire Hall, 7.50; 206.18

Librarian Elvidge presented a request on behalf of the Board for one third of the amount contributed to Library by the town. After discussion the council decided that they would pay the amount twice a year only.

A more serious discussion took place over the signing of the agreement between Council and Mr. McIntyre re the purchase or release price of the present plant, or at least the portion of it. A committee of council some weeks ago came to an agreement to give Mr. McIntyre \$300 more than the \$3000 voted on and carried by the town. This agreement came before council on Monday but it has not been ratified, the Council dividing as follows, Messrs Calder, Saunders, Cochrane and the Mayor against. This equality of course negated the proposition.

The objection to ratifying the agreement as we understand it was that certain clauses are incorporated in it which might involve the town. Mr. McIntyre offers to turn the plant over to the town at 1st July but will run it still until such time as the Hydro is established, he to have the revenues as usual, but the town to take responsibility. That is if any transformer say should be burned out by lightning, the town would have to make good.

The objectors fear also that there may be unexpected contracts which they would have to make good. We know nothing of this but think it is highly unfortunate that the transfer could not be made with the best of good will. The resources of good sense and loyalty to the town should make it possible for both parties to reach a satisfactory solution.

MULOCK

Rev. Mr. Cameron, of Toronto, spoke in the interests of Home Mission work in the Baptist church Sunday evening. Mr. Wallace spoke on Temperance the Sunday before.

Mr. and Mrs. Will Ahrens and family of Hanover, accompanied by Mrs. George and Miss Sadie Brunt, were guests of Mr. and Mrs. Wm. Brown one evening last week.

Mr. Thos. Redford is seriously ill with erysipelas. Dr. Gun and Nurse Derby are in attendance.

Mrs. R. Barelly spent a few days with friends in O. Sound and Annan.

Mr. and Mrs. Wylie, of Durham, were guests of Mr. and Mrs. Fulton Thursday of last week.

Mr. and Mrs. Will Clark and Mr. and Mrs. McKelvie, of Hanover, attended here Sunday to visit their father, Mr. Thos. Redford.
