War Notes

War news from day to day is exasperatingly indecisive. French warfare at the Dardanelles makes progress slow and costly on the Flanders front little or nothing is doing, further inland, France has made some important though small gains, while Italy is bringing severe pressure upon Austria but has as yet made no notable victory.

The chief interest centres in the German drive of the Russian armies, which continues, but is by no means a rout. Warsaw and other cities have been evacuated and occupied, scarcely captured, the attempt to encircle masses of Russians has failed, and seems likely to fail, but the progress of the German is having a bad effect on the Balkan nations, who are fearing rather than favoring a German victory.

Bulgaria holds the whiphand and seems inclined to demand more than she will get. The diplomats of the Allies are urging Serbia and Greece to yield some areas that Bulgaria had taken from her at the last war. Serbia seems more pliable than Greece and the outcome is uncertain.

Peter Porter's Power Plan

We had sent us last week copies of the "Niagara Falls Journal" with marked articles under the above alliterative heading. The articles refer to one of the biggest engineering enterprises ever undertaken in the world.

The plan is to dam the Niagara river just above Lewiston and Queenston with a structure 90 feet high, which will back up the Niagara river between that point and the Falls, which would eliminate the Devil's Mill rapids and would not interfere with the present Falls nor with the power development plants on either side.

This 90 foot dam would give a kind of second Niagara and would furnish it is estimated about 2,000,000 electrical horsepower, which would be divided between Canada and the United States. The sanction of both governments will, of course, have to be obtained and the cost is roughly estimated at \$100,000,000, part of this to pay damages to the present Gorge Route, which would be destroyed, but no other spectacular features would be injured.

"Not only do we propose the greatest power development in the world," declared Mr. Porter, but we have a plan to place Niagara Falls on the map as a lake port and to bring to a realization the dream of a ship canal from lake to lake around Niagara Falls.

The scheme, as explained by Mr. Porter, is to place a lift lock at the foot of the proposed ninety-foot dam which would carry lake vessels up to the highest level and permit them to steam right up to this city, making their wharves where the Maid of the Mist docks are now situated. At the foot of the falls would be two great lift-locks, one on the American and one on the Canadian side of the cataract. The American lock would lift vessels up to the high bank, where they would find passage in a short ship canal to the upper reaches of the river and thence on to Buffalo and the upper stretches of the great lakes. On the Canadian side the lock would lift the vessels to the top of the first bluff; a second lock would carry them to the higher level and thence by canal to the Welland canal.

"And thus by one great work," exclaimed Mr. Porter, "we have the most marvellous power development in the world—a lake port at Niagara Falls, New York and Niagara Falls, Ont., and a ship canal around the falls on the American side, something that has been dreamed of for more than a century."

Advance Temperance Legislation Wanted

The Globe and other prominent journals are advocating action in the line of drink restriction in Ontario, beyond any of the present methods.

A despatch to the Review from Toronto says that Mr. Rowell's proposal on the liquor question after his return from the west where he saw the marked development in temperance feeling and legislation, has aroused keen interest and is sure to re-open the definite question of what to do with the liquor traffic in Ontario.

Mr. Rowell's proposals are as follows:

1. Let the Ontario government close all drinking places by legislative action, for example as the Government of Saskatchewan has done.
2. Failing this let the Government at least give the people of Ontario the opportunity to say themselves whether or not they do want the liquor traffic abolished as the people of Alberta have done.
3. Let the Government act quickly. For instance the people could vote on the question at the same time as the next municipal elections. The Government could call the House to sit in November and the necessary legislation could be passed at that time.

We are now prepared for school opening and seek your esteemed patronage in this line as we carry a complete stock of public school requisites.

- A. H. Jackson. 1 50 Jas. Eden. 25c
- G. Bovingdon. 25c —\$15.00

This is the seventh remittance sent by Mr. A. H. Jackson, making a total of over \$155.00. Several letters and cards have been received in town by parties, thanking them for the tobacco sent, and they are very much valued by those who received them. Two follow as a sample:

The following was received by Mr. Robt. McMicken of town:

France, July 26, 1915

Dear Friend: It is with great pleasure I sit down and acknowledge your kindness shown to me by receiving the gift of cigarettes which you sent. There was not much information in the box, but nevertheless I thought it my place to acknowledge your kindness. They could not have arrived at a better time, I was practically down to my last one. They are very hard to get out here, as we are dependent on our issue, which is only once a week. So you see your gift was doubly welcome. You have no idea how we appreciate these gifts from kind people like yourself out here. It is very encouraging to think we are remembered by our folks in Canada. I belong to the eastern part of Canada myself, but I am one of the boys of the 10th Battery, which no doubt you know well. Well, friends, I must bring my letter to a close, again thanking you kindly for your gift, I remain, yours sincerely, Ganner Geo. Morris, 85910.

Mr. Henry Simpson received a post card from France from Pte. E. B. Smith, No. 81817, 1st company, 2nd Batt., 1st Infantry Brigade, Canadian Expeditionary Force, which says: "Just a card to thank you for the cigarettes you sent through the Toronto News. We got them in the trenches just when every one was running short so they were more than enjoyed. It would do your heart good to see the boys enjoy them."

Many Thousand Men Required for the Harvest in Western Canada

Thousands of Men will be required from Ontario to help in the great work of harvesting the Western crop, and practically the entire task of transporting this great army of Harvesters to the West will fall to the lot of the Canadian Pacific Railway.

Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run, and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers.

"Going Trip West," \$12.00 to Winnipeg. "Return Trip East," \$18.00 from Winnipeg.

Consult C. P. R. Agents regarding particulars in connection with transportation east of Winnipeg.
