EVENING SESSION

At 8 o'clock a well filled hall of both sexes with Warden Calder in the chair showed the interest the locality have in this body.

Mrs. (Rev.) Marsh, Holstein, was called on to give her impressions of her trip to Bermuda in winter which she, with her husband had last winter. Before leaving for Bermuda they toured New York and its wonderful skyline of buildings would repay any one to see. The call to Bermuda is one of two days and two nights and the most unpleasant feature of the trip was the difficulty they had in landing. Owing to war conditions, they had a three hour wait for inspection of passports. She gave an interesting account of the origin of the island when Joan de Mudas landed, with the date of landing still on stone. The island now comprises a population of 6,901 whites and 12,000 blacks. A farm comprises 11 acres there and half troubles them about once in twenty years while some have never seen ice. The island in length is three miles. They have neither wells nor cisterns, but the soft water is in constant use and leaves nothing to be desired for drinking water.

As usual in a tourist resort, many drivers are there soliciting patronage. One interesting point—the Devil's Hole, 6 ft. across, 40 feet deep and contains 985 different species of fish. The crystal cave is another beauty spot, which is a mile underneath the earth's surface. There are swing bridges across the channels of water and the water is so clear that it is possible to look through it 80 ft. The caves are hung overhead with beautiful stalactites all manner of shapes and hues, forming one of the most beautiful sight imaginable.

The agricultural gardens controlled by Govt. are a surprising revelation—every kind of vegetable grown is on the island. Bananas are grown in great abundance for home consumption, every farmer growing his own. Tennis and golf have strong enthusiasts on the island and are played a great deal.

Mrs. Hunter again spoke, this time on a patriotic topic—"Homemakers and Patriots" and before starting had many kind words to say for the enthusiasm of the afternoon meeting. She reviewed developments of Canada in the past 25 years, to its betterment. People say Canadians are degenerating and to show they were not, cited case after case of Canadians in France, where bravery was of the bravest brand. The nation was made up of the individual and it became all to do our part in the rebuilding of the nation. Service is the keyword, and hereafter more than ever, for conditions will never be the same again as heretofore. Englishmen, Belgians, Frenchmen will hereafter be better received and only right that they should.

At intervals during afternoon and evening, Mrs. (Rev.) Hibbett and Mrs. L. B. Nicholson of Holstein gave pleasing instrumental solos. In the evening Mrs. Hibbett gave a violin number as well, which showed her versatility. Miss Ida Wilson gave a well rendered solo, as well as a duet with Mr. J. H. Harding, "Down the Vale." Miss Merman, of Ayrton, also contributed a solo.

The election of officers for the ensuing year was conducted by the Vice President, Mrs. J. Pearce of Chatsworth and much merriment ensued. The ballots for President came out a tie for Mr. Easton of Ayrton and Mrs. W. H. Rogers of Holstein. Both resigned in favor of each other, and the vote was cast again, Mrs. Easton having two votes to the majority, to Mr. Rogers' great satisfaction. Mrs. Pearce was re-elected Vice-President, Mrs. Gardner, Owen Sound, Secretary Treasurer.

The Durham Branch of the Institute provided wholesome and attractive meals in the assembly of the Presbyterian church, which were appreciated to the full extent by the visiting ladies. About 80 delegates were present and only one branch in South Grey failed to send a delegate, that being Elmwood.

At the close of the evening session a vote of thanks was passed to the Durham branch for the kindness and hospitality they had extended in the 1915 convention.

Friends here will be pleased to learn of the prospective return of Mrs. Adam Doupe from the West this week end and she intends to take up her residence in Holstein again in the house she formerly occupied.

Mr. and Mrs. Alpheus Smith are visiting in the village.

On Friday last an operation for appendicitis was performed on Miss Stella Harris, of Toronto, who has been staying at the home of Mr. George Dyce. Dr. Graves was in charge. The young lady's father was up ever Saturday to see his daughter. Satisfactory progress is being made.

Though James W. Marsh is known personally heretofore, his progress as an athlete is not. At the Sports Day in Cochrane, he was successful in winning the mile, half-mile foot races, against competitors from many northern Ontario towns and also succeeded in lowering the mile track record in that district. He was also a member of the team that won the relay race on that day.

Miss Jennie Adams and Mrs. G. Hosteler will arrive home from Detroit this week end. The latter has been very ill and is afflicted with knee trouble.

School re-opened this Wednesday morning with a large attendance. Miss De Guerre, of Mt. Albert, is the teacher in charge of the senior room, while Miss Atkinson resumes in the lower department.

Mrs. Wm. Freeman, of Teeswater, visited her parents, Mr. and Mrs. Edwin Johnston, recently.

The Epworth League held a very successful and enjoyable social evening at the parsonage on Tuesday evening, Aug. 31st. A very helpful and interesting talk was given on lessons from the flowers by Mrs. L. B. Nicholson. Music, readings, etc were enjoyed by all after which a dainty luncheon was served by the young lady members.

Mr. and Mrs. Findlay, of Bromore, left on Tuesday afternoon for a holiday trip to the city.

The young ladies of Holstein have organized a patriotic society and every Saturday evening flowers are sold at 5 cents per bunch, proceeds to go to buy cheese cloth to make pads. The young ladies are doing their "bit."

Delegates from all over the Mount Forest district of the Methodist church will meet in Holstein on Tuesday and Wednesday of next week in annual convention. Morning and evening sessions will be held in conjunction with this meeting the Epworth League also meet in convention. Everybody welcome.

Dr. Marsh will resume his duties on Sunday next and will occupy the pulpit both morning and evening. The evening service will be of special interest, when the pastor will complete his series of sermons on "The Pilgrim's Progress." The latter will be profusely illustrated by limelight views and visiting and local soloists will contribute to the service of praise.

What might have been a mere serious accident occurred in the south end of the village on Sunday evening, when a trio of citizens returning from evening service in Mt. Forest, were run into by township youths, who were driving their horse recklessly and on the wrong side of the road. Buggies were locked and jarred and the occupants were severely shaken up. It is time reckless driving ceased on the streets, or if that can't be done, there should be work ahead for the constable.

OFFICIAL FRUIT BULLETIN

Fruit Brand—Dept. of Agriculture. Peaches and Plums are both so good this year that there is every inducement for the housewife to put down a liberal supply. The Canadian Clubs and Red Cross Societies are asking for contributions of canned or preserved—not jammed fruit, for our soldiers in France. People who wish to "do their bit" should communicate with the nearest Canadian Club or Red Cross branch. Much fruit is being put down without sugar, by sterilizing process. The best plums for the purpose are Bradshaws, Gages and Lombards, and for peaches, the St. Johns, Crawford and Elbertas. Orders placed in advance with your grocer means better fruit for you.

Hydro By-Law Carries

The Hydro by-laws carried on Friday last by a vote of 39 to 8, and some day in the near future the modern boon of hydro electric power will be used to advantage by the citizens and farmers in surrounding district.

The carrying of the by-law calls for an expenditure of \$3000 in debentures spread over 20 years.

Election day was an epoch day in the village. Excitement reigned and though the outcome was never in doubt for a moment, supporters of the movement were not satisfied until the vote was settled. A meeting held two evenings before and addressed by Mr. James, a hydro engineer, achieved satisfactory results in convincing certain wavering voters and converting others in favor, who had formerly opposed the by-law.

A total of 68 votes were possible but owing to the fact that many property owners lived at a distance while others were away, left only 47 polled.

That the Hydro is going to benefit Holstein is conceded by nearly all. Farmers in the vicinity also see where they will benefit and will like to arrange to get power for farm work. It is said also that Mr. R. Renwick will likely contract for 40 h. p. over a high tension wire to the Bromore mill.

After the result was announced feelings of joy among the villagers could not be restrained. A torch-light procession of men, women and children was formed and "Broadway" was soon illuminated by the light of 50 torches and echoed to the sound of beating pans and cheering voices. When the parade passed the Presbyterian church, Choirmaster Marsh suspended choir practice and his choristers were given an intermission to join the procession and to change their tune. "From Greenland's Icy Mountains" to the popular melody "O what a Difference since the Hydro came." The crowd, in a good-hearted way, serenaded the homes of certain residents opposed to the by-law but citizens regret the action of some boys who allowed personal animosities to enter their sport. It is doubtful whether Holstein will spend such another day of jubilation until the allies bring the war to a successful close, and in the meantime events will be recorded and dated from last Friday.
