Recent Fighting in the Dardanelles Has Been of a Severe Character.

A despatch from London says: Further gains for the allied forces on the Gallipoli Peninsula are chronicled in an official report received from General Sir Ian Hamilton, commander-inchief of the British forces operating against the Turks. The report says: "Further fighting on the northern capture of an important tactical point

commanding the Buvuk Anafarta valley to the east and north and an appreciable gain of the ground occupied by the Australians and New Zealand "The fighting was almost entirely

hand-to-hand and of a severe character. Very heavy losses were inflicted on the Turks, and three of their machine guns, three trench mortars, 300 rifles, 500 bombs and a large quantity of small arms ammunition were captured by us."
