GETS V.C. AT AGE OF 18.

Against Germans.

The youngest soldier of the British army to receive the Victoria Cross is Lance-Corporal Dwyer, who is only 19 years old. He won the V.C. for holding, single-handed, a trench against the Germans during the fighting around the famous Hill No. 60. He is now back in London on a short leave from the front and is devoting this time, which has been granted to him for a rest, to recruiting work. He appeared the other day in Trafalgar Square and delivered a stirring appeal for more recruits, which was loudly applauded.

Acting Corporal Issy Smith of the Manchester Regiment is the first soldier of Jewish faith to receive the Victoria Cross, His reward was given him for having assisted a wounded comrade over 250 yards of ground under heavy shell fire at Ypres.

A Physician on Food.

A Western physician has views about food. He says:

"I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health especially by hygienic and dietetic laws.

"With such a feeling as to my duty I take great pleasure in saying. that, in my ow xperience and also from personal observation, I have found no food to equal Grape-Nuts and that I find there is almost no limit to the great benefit this food will bring when used in all cases of Mackensen, whose father was a counsickness and convalescence.

SHORTAGE OF CLEVER HUNS. Not Enough Autocrats to Run the

German Army.

The East Prussian and Pomeranian families have by no means a monopoly of high posts in the German army. In that army there is a point in the advancement of an officer known as "die Majors Ecke"-the major's corner-the doubling of which is purely a matter of merit and efficiency. The finest blood and most refined arrogance that ever came out of Prussia will not carry the incompetent officer round it, and, perhaps, considering the size of the German

staff, there are not enough clever Prussians to go round. FOR HEADACHES, BILIOUSNESS CONSTIPATION,

Nearly all our minor ailments, and many of the serious ones, too, are traceable to some disorder of the stomach, liver, and bowels. If you wish to avoid the miseries of indigestion, acidity, heartburn, flatulence, headaches, constipation, and a host of other distressing ailments, you must see to it that your stomach, liver

and bowels are equal to the work they have to do. It is a simple matter to take 30 drops of Mother Seigel's Syrup daily, after meals, yet thousands of former sufferers have banished indigestion, biljourness, constrpation, and all their distressing consequences in just this simple way. Profit by their experience. As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is unsurpassed.
