Routine of Camp Life in England

Living is dear in this part of Engand. Shop keepers have come to

know that the millionaire Canadians Mr and Mrs Wm. Lunney, Tuesday are around and prices have soared to I the level of those in Canada and sometimes a 50 per cent increase.
The boys not infrequently find it agreeable—to say the least—to supplement the meals by a light lunch of Rey. and Mrs F, Ashton visited some sort. It is "eats" that make the money go. Cousin Fred in London warns me not to go shopping till get there, as he is aware of exorbitant rates in this county.

Don't worry about me : I am not in the danger zone yet. I am feeling as if I had nine lives and that no mishap can occur to me. If some stray bullet picks me off there will be sod enough in Europe to keep the atmosphere from my bones, or if I should lose a limb I will be able to start a shoe-shine parlor near Massey Hall, for I am getting an expert in that line owing to climatic conditions and military rules. We are enjoying our training great-

Once a week we have a "Field Day," not a day of sport, but a time when we are taken to the country and shown in a practical manuer the conditions that may meet us on the battlefield. This means the placing of billets for troops, the proper location of dressing stations stepe towards camp sanitation, and the many medical lines, which the A. M. C. follows in active warfare. We appreciate this very much.

To-day was a failure however. At 9 a. m. 16 officer doctors and 60 men Shorncliffe Camp the transport con taining our dinner and field supplies heavy roads, the transport broke down. Volunteers were called for to go back and help the cook and I was one of five selected and of course the incident furnished us amusing experience and besides we had the best that was going. After dinner the rest of the day was given us as a holiday.

-The Toronto News is at present running a contemptible campaign the purpose of which is to blacken Sir Wilfrid Laurier's character by making it appear that he is respon-sible for the bi lingual agitation! First he was to bring in a resolution himselt into the Commons, now when a member sitting on the government side is bringing it in, there is charges of deception with an underhand pur-pose and so on. The attempt to con-nect Laurier with the disloyalty of the Nationalists will utterly fail and we are glad to see that some Conser-vative papers have no sympathy with the dastardly campaign of the News. Can its purpose be to dis-tract attention from the unsavory shell contracts?

# Will Brown of Loverea, Sask., whose marriage has just been appropriate.

TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE. MAKE LABOUR EFFICIENT. SAVE MATERIALS FROM WASTE. SPEND MONEY WISELY.

LET US PRODUCE AND SAVE-

The war is now turning on a contest of all forces and resources-men, munitions, food, money. The enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR-

business of all Canadians. Efficiency in labour is as | Bend. important as efficiency in fighting.

Begin at home. The larger portion of salaries

LET US NOT WASTE MATERIALS-

and wages is spent on the home-food, fuel, light, call to all is to produce more and more. It may be clothing. Are any of these things being wasted necessary to work harder. The place of those who \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debi of \$500,000,000.

LET US SPEND OUR MONEY WISELY-

Are you spending your money to the best advantage? What do you think of extravagance in war In this war-time all labour should be directly pro- time? Tens of thousands of Canadians are daily ductive or should be assisting in production. Make it | risking their lives for us at home. Is it not our duty as efficient as possible.
