He died of over-excitement Scarborough shook his head, say- or over-exertion. How do we know that it was not the excitement of his interview with her which killed him "No," said Elsa. "Mother seemed to If the diamonds can be found, I mean be afraid of him. I don't know why?" that she shall have them; but that "I think I can see why," said Scar- does not mean that I believe for a "She had a document on moment what she says."

"Will you tell me what it does

"Merely, as I told you before, that since I cannot prove that my father was innocent, I will do all that I can to atone for his guilt, by giving back where I can. I used to take pride in the thought that one day I should help him to clear his name from every stain. I cannot do that now,-but though I loved him-perhaps because I loved him-I shall take pride in trying to reverse the evil that he did."

She said this with an earnestness which was almost fierce in its intensity, and Scarborough recognized that she meant every word of it. Her determination to restore her property to the girl whom her father had robbed was due to a simple pride in doing the thing which she thought to be right. Presently she asked:

"Has Margaret Ryan ever explained hat the mysterious business was which kept her from performing in the circus the night my father died? It must have been something more important than a simple bicycle ride

Has she said what it was?" "She refuses to do so." "Well. then?" said Elsa.

Scarborough shook his head. "You are wrong," he said. "Will you come with me to see her? I am off duty for the rest of the day. Will you ride to Ponta Delgada with me now?"

want to know."

"Very well. I will come."

The widespread demand for a general reconstruction of Ontario's forest protection plan is finding sympathetic consideration by the Minister of Lands and Forests, who during the past year has been exceedingly busy with other special duties. The present forest Week's Time In Many Instances guarding system of the province has been retained for a great many years practically without alteration. It is complained that the rangers, while numerically sufficient, are left to Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, allowed bladdings of many description and get abottle of many description and get abottle of many description of artisans in a factory, cannot and do not perform their fair duty in the absence of strict discipline and a guarantee of permanent employment. Forderful free prescription.
