It is gratifying to note, after a perthe far-reaching benefits that are being derived by the membership in the various directions in which this Since 1879, about eleven millions of dollars have been paid out in benefits by this society, and, in fact, the whole record of the Order is well worth the perusal of those who perhaps have been skeptical regarding the permanency and stability of fra-

affairs, and reflect credit on its administration. A point of general interest, as indicating proper selection of risks, is the death rate. This for 1915 was 6.50 in the thousand, but if we deduct the war claims paid, it would have been 6.20, and the average death rate since the inception of the Order, over a period of nearly 37
