Automobile prices are being raised—but the Ford price has been reduced \$120 since the war began

The immense Ford cash purchasing power has made it possible to overcome in many ways the serious obstacles met with by other car makers because of the scarcity and advance in prices of raw materials. The high Ford quality is strictly maintained—and the most exacting government tests have shown that Ford constructive material even excels that used in most high grade cars This year the Ford car—always the most economical car to buy and to operate—beats all records for economy.

PRICEVILLE AND LIMITS

The summer is passing by. The rains apparently are in this part, Dundalk and Hopeville a week ago. Arch. McDonold is busy shingling the old house built by his grandfather 62 years ago on lot 41, con. 1. N. D. R., Glenelg. This is the 3rd roof put on in that time. Angus Kennedy is improving his house at the town line by patting on fresh concrete.

BEAVER CREEK

The picnic on Friday last was very well attended. It was a splendid day and there was a large turnout. Mr. Arch. McCuaig was chairman and addresses were delivered by Messrs. John A. Graham, Durham, George John, Bunesaan, and Dr. Laue, Pricville, Messrs T. H. Binnie and Wm. Kattin gave vocal numbers. There were races for boys, girls, men and putting the 16 lb shot, hop, step and jump, standing broad jump. After supper was served, the tug-of-war took place, favoring "Glenelg" boys. They received a rousing cheer; it was followed and the picnic closed with a dance. Both gate and booth made good money.

remembered by giving them in part good roads to travel on. Hugo Muensterberg Trying to Show What Hun Means by Kultur

Prof. Hugo Muensterberg is still trying to explain that "Kultur" business. Prof. Hugo, who is professor of psychology at Harvard, is not so readily listened to, now that the "Kultur" sheep dog has proven a wolf in the fold, but he is still intensely active in the United States, writing and speaking, and, above all, explaining. This is what he has to say regarding "Kultur": "Kultur is certainly not culture. To translate kultur as culture is entirely misleading. Culture is a quality that results from a man's education so far as it does not relate to the technical performances of life. The word kultur has a large number of meanings. There is first that interpretation of kultur which we find in the word kulturgeschichte, the history of all that mankind has produced, whether in camping and warning the scout masters not thoroughly versed in methods of having camps sanitary against taking the boys into camps of more than two or three days. The illustration shows a couple of New York Boy Scouts enjoying a feast of watermelon beside their tent.

Prof. Muensterberg. It is the agriculture of a nation or its art. The opposite of kultur, in this sense, is nature and all that develops through the mechanical powers of nature. "Another conception of kultur is as a title of honor for those functions of life which have a mental character as against a material existence. "Germany kultur and civilization are contrasted. There is a certain familiar way of saying that certain nations have splendid civilization—that is, splendid electric lights, splendid economics and other technical features, but no kultur, because their art, religion, and education are only an imitation of the other nations. "They have yet no art and science, they have not yet developed what the Germans call kultur, as against civilization.

French Women Not Mourning. "Eighteen months ago France wanted peace. To-day she wants war more energetically, and to that end will use all her resources," said Gen. Gallieni, the Minister of War, in asking the Senate to approve the action of the Chamber of Deputies in giving him the 1917 class of recruits for January 5. General Gallieni's remarks were greeted with prolonged applause. "Whoever says a word of peace in the streets is considered a bad citizen," continued the Minister of War. "Others are not mourning for lost sons; they want them to be avenged. The 1917 class will leave with the assent of the nation. It demands that those charged with the duty receive and instruct these young men and prepare them for the great contest, which will not end before France, in accord with her allies, says: 'I stop! I have obtained what I wanted; I resume my work of peace.' Redoubled applause. Interspersed with shouts of "Excellent!" came from the entire Senate, which arose as a mark of honor. Returning to the Ministerial seat, Gen. Gallieni received the congratulations of his colleagues.

For the Children

Boy Scouts Enjoying a Melon Feast in Camp. Reports to national headquarters show that thousands of the Boy Scouts of America now are in camp in various parts of the country. The encampments vary from a troop of twenty-four to a thousand boys. The leaders of the Boy Scouts of America appreciate the danger of large encampments and for that reason announced some months ago that they would have a national encampment. They pointed out that it is much wiser for the boys to get their first experience in camping in small groups. They also have sent out bulletins to the scout masters of the extreme necessity of using all sanitary precautions in camping and warning the scout masters not thoroughly versed in methods of having camps sanitary against taking the boys into camps of more than two or three days. The illustration shows a couple of New York Boy Scouts enjoying a feast of watermelon beside their tent.
