What one values far more than the gift itself is the kindly thought prompting the giving and with this in mind we ask you to accept these slight tokens of our esteem. They are of little value in themselves but rich in good wishes for happiness and prosperity in your new home. This ring while reminding you of the fact that you are a worthy member of the Masonic order, will yet help bring kindly men and women who are not so privileged. If Mrs. Ferguson has as much pleasure in dispensing good things from this glassware as we have in proffering it to her she will indeed be a happy woman. Their knives to the boys will we hope sever their association with their many friends here who will watch their future with interest. May He who keeps all things keep you and make you the same blessing to our new associates you have been to us. Signed in behalf of your many friends D. B. Marsh F. Allingham F. McClocklin Mrs. A. B. Good Bye to Dr & Mrs Ferguson. Dr Ferguson and family left Holstein on Saturday by the 4 p. m. train to St. Marys for Sunday but immediately after went to Hamilton to make their new home. Holstein and vicinity will miss them as they were forward in every good thing. On Thursday evening while they were having tea at Mrs. John Brown's, a large number of the townspeople gathered to show their good will and presented Dr Ferguson with a beautiful Masonic ring and Mrs. Ferguson with a set of cut glass ware and the two sons with knives. Rev. Dr. Marsh read the presentation address and Mr. F. Allingham presented the gifts. Dr Ferguson made a suitable speech in splendidly chosen words after which Mrs. Ferguson cleverly expressed her gratitude for kindness shown her and her children. Following is the address: Dear Dr. Ferguson,— It was with deep regret that we learned of your proposed departure from our midst, for we shall miss you, Mrs. Ferguson, and your boys from amongst us. You as a physician have given ample evidence of your skill and as a citizen have been always ready to take your part in every thing that was for the social good and for the good of the community. Mrs. Ferguson has been ready to help in every good work and will be long remembered for her gracious and kindly hospitality. What one values far more than the gift itself is the kindly thought prompting the giving and with this in mind we ask you to accept these slight tokens of our esteem. They are of little value in themselves but rich in good wishes for happiness and prosperity in your new home. Dear Mother. As usual have just come from Church parade and ere grub time will write to home. They held service at a respectable hour this morning (9.45) instead of 7.45 as previously so we were all good Presbyterians and went. The Chaplain's face seemed familiar to both Alex and I, but couldn't find out his name. Will likely see him again. After service which was held in the large Y.M.C.A. but which holds 3000 we had a short Communion service. Next Sunday the noted Rev. John McNeill is to take the parade service so there will likely be a large turnout. Since moving into these huts Alex and I have had to dissolve partnerships as bed mates. He and Ed (Renwick) are in the same one and I had a little Irishman who came over the same time as we did. The latter had some "body companions" while in the tents in Sh. melle, but I don't think he had any. They gave him such a disinfecting, clothes and all that he hardly survived himself, let alone the bugs. It is as good as picnic to hear him relate it. When leaving Ilford last Sunday Aunt Barbara handed me a parcel which was not to be opened till 7th (my birthday) when opened it was a big fancy birthday cake. It was good to eat and of course all the boys who partook of it want to go to London with me next time. It was a surprise to hear of Jack Weir's death. Your letter and the Review was the first we had heard of it. Such news is a daily occurrence among the boys but it makes me think when it comes to personal friends. Jack saw a good bit of the war all right and had sure done his duty. The 4 pioneers moved into his camp recently and I've not from one night and hunted by Jim Todd. He looks the same and isn't, particularly in love with soldiering. There are some Durham boys in the same bunch I think. We are having a real taste of English fall weather now. It rains, rains and then some more. If it were not for the natives remind us that it is just the ordinary we would be inclined to think that a return of the Biblical flood was at hand. We have just had two whole days dry during the past three weeks I think, so are getting quite hardened to it now. Haddow Meikle is on draft now and expected to leave any time soon. He was a dispatch rider but transferred to the driver—Two much barones to clean at that job for me. I just get a taste of it now while on cable work getting my horse and saddle shined up. We must have every bit of brass and steel shiving also all the leather parts. Had an inspection parade yesterday and everybody had to be clean and shining. I kept the cable men busy I tell you to get everything in tip top shape but we made up for our troubles when the route march came after inspection and of course we rode on our horses while the other fellows had to walk. The grub is coming now so most quit. Four men are appointed daily for each bit to go to the cook-house at meal time and bring in and distribute to us. It is much better than having to line up with the whole Co. and wait for your turn. Your loving son Murray

On Thursday evening while they were having tea at Mrs. John Brown's, a large number of the townspeople gathered to show their good will and presented Dr Ferguson with a beautiful Masonic ring and Mrs. Ferguson with a set of cut glass ware and the two sons with knives. Rev. Dr. Marsh read the presentation address and Mr. F. Allingham presented the gifts. Dr Ferguson made a suitable speech in splendidly chosen words after which Mrs. Ferguson cleverly expressed her gratitude for kindness shown her and her children. Following is the address: Dear Dr. Ferguson,— It was with deep regret that we learned of your proposed departure from our midst, for we shall miss you, Mrs. Ferguson, and your boys from amongst us. You as a physician have given ample evidence of your skill and as a citizen have been always ready to take your part in every thing that was for the social good and for the good of the community. Mrs. Ferguson has been ready to help in every good work and will be long remembered for her gracious and kindly hospitality. What one values far more than the gift itself is the kindly thought prompting the giving and with this in mind we ask you to accept these slight tokens of our esteem. They are of little value in themselves but rich in good wishes for happiness and prosperity in your new home. This ring while reminding you of the fact that you are a worthy member of the Masonic order, will yet help bring kindly men and women who are not so privileged. If Mrs. Ferguson has as much pleasure in dispensing good things from this glassware as we have in proffering it to her she will indeed be a happy woman. Their knives to the boys will we hope sever their association with their many friends here who will watch their future with interest. May He who keeps all things keep you and make you the same blessing to our new associates you have been to us. Signed in behalf of your many friends D. B. Marsh F. Allingham F. McClocklin Mrs. A. B. Dear Mother. As usual have just come from Church parade and ere grub time will write to home. They held service at a respectable hour this morning (9.45) instead of 7.45 as previously so we were all good Presbyterians and went. The Chaplain's face seemed familiar to both Alex and I, but couldn't find out his name. Will likely see him again. After service which was held in the large Y.M.C.A. but which holds 3000 we had a short Communion service. Next Sunday the noted Rev. John McNeill is to take the parade service so there will likely be a large turnout. Since moving into these huts Alex and I have had to dissolve partnerships as bed mates. He and Ed (Renwick) are in the same one and I had a little Irishman who came over the same time as we did. The latter had some "body companions" while in the tents in Sh. melle, but I don't think he had any. They gave him such a disinfecting, clothes and all that he hardly survived himself, let alone the bugs. It is as good as picnic to hear him relate it. When leaving Ilford last Sunday Aunt Barbara handed me a parcel which was not to be opened till 7th (my birthday) when opened it was a big fancy birthday cake. It was good to eat and of course all the boys who partook of it want to go to London with me next time. It was a surprise to hear of Jack Weir's death. Your letter and the Review was the first we had heard of it. Such news is a daily occurrence among the boys but it makes me think when it comes to personal friends. Jack saw a good bit of the war all right and had sure done his duty. The 4 pioneers moved into his camp recently and I've not from one night and hunted by Jim Todd. He looks the same and isn't, particularly in love with soldiering. There are some Durham boys in the same bunch I think. We are having a real taste of English fall weather now. It rains, rains and then some more. If it were not for the natives remind us that it is just the ordinary we would be inclined to think that a return of the Biblical flood was at hand. We have just had two whole days dry during the past three weeks I think, so are getting quite hardened to it now. Haddow Meikle is on draft now and expected to leave any time soon. He was a dispatch rider but transferred to the driver—Two much barones to clean at that job for me. I just get a taste of it now while on cable work getting my horse and saddle shined up. We must have every bit of brass and steel shiving also all the leather parts. Had an inspection parade yesterday and everybody had to be clean and shining. I kept the cable men busy I tell you to get everything in tip top shape but we made up for our troubles when the route march came after inspection and of course we rode on our horses while the other fellows had to walk. The grub is coming now so most quit. Four men are appointed daily for each bit to go to the cook-house at meal time and bring in and distribute to us. It is much better than having to line up with the whole Co. and wait for your turn. Your loving son Murray

Good Bye to Dr & Mrs Ferguson. Dr Ferguson and family left Holstein on Saturday by the 4 p. m. train to St. Marys for Sunday but immediately after went to Hamilton to make their new home. Holstein and vicinity will miss them as they were forward in every good thing.
