PRICEVILLE AND LIMITS

In reviewing the year that is now fast drawing to a close there are many remembrances to be drawn therefrom and its a matter of fact that cannot be enumerated, all the difficulties and adversities and prosperities that we associated with its career since it came in I2 mos ago. At the beginning of 1916 many gaye a look as with a spying glass to the end of the year expecting that they would enjoy the Xmas of 1916 as well as Xmas of a year ago. But how many a home has been blighted since that time. The clouds of disappointment over-shadowed many a comfortable home and this Xmas morning finds thousands of homes with gloom cast over them on account of so many of our brave young boys who so faithfully stood and faced the battles which are raging at the present time till they fell and died a hero's death.

The closing of the year brings to the memory of the aged pilgrim the many Christmasses and New Years he saw since he came to this cold world and now as he is drawing tast to the close of his earthly journey he will be apt to give expression to the true words that he was once young and now old but never forsaken and now as he stands trembling with aches and pains he wonders what a change Miss Margaret McKinnon daughter one year made on his activity. Now ago he could walk with ease but now h s bed to his chair.

C.bers beme over the holiday in- Xmas its running from one place to Miss Jessie McDonald. DOING GREAT WORK.

Varsity Base Unit Will Become a Hut Hospital.

Surgeon-General Roberts, officer commanding the University of Toronto Base Hospital, has written the following letter to Dr. C. K. Clarke, Dean of the Varsity Medical Faculty:

"There is one bright aspect to the present conditions and that is this this a hut hospital. The Engineering Department has surveyed the grounds for the huts and are sending two days ago, that he could have all month after the arrival of the parts, but I think that this is a promise him to realize if I can judge from the speed with which a good many of their other enterprises are carried out. However, if they will put up eccording to our direction, we can worry along then without holding them to the time limit of a month This state of affairs will be a great

worth living, especially for my nurs-

"As soon as I knew that I could general to send them along. teen of them arrived about ten days ago, and the remainder on Tuesday last. They are in excellent health, with the exception of one or two who are bad sailors, and show the effects of a rough passage which they had from Malta. They at once went on duty in the wards, and, believe me, it was a joy to have them. The men are all right in their place, but I am not in the wards looking after sick PLANING men. No one can do that like the nurses. We have them housed in walls, each of which accommodates | ng country, that he has his Planing four very nicely, and they all seem | Mill and factory fully equipped and is to be very comfortable and contented. | Orepared to take orders for Everyone is pitching into the work as though their lives depended upon it, SASH, DOORS, and all kinds and they are certainly looking after all the men who come in in a way that I am sure would compare favorably with your standard in the T. G. H. At any rate we are doing everyeveryone who comes in, and trying to send them out better if possible, and, if not happy, contented and sat-
