regular port of call by the vessels of the fleet plying between Japan and the British Columbia coast.

OUTRAGES IN WARSAW.

Innocent Persons Shot in Poland and Thousands Deported Daily.

Under the heading "German Rule in Warsaw; Coercing the Poles by Terrorism to Slavery," the London Times published recently a narrative describing outrages almost rivalling some of those committed in Belgium, as told by an educated Pole belonging to the Government of Warsaw who has just arrived in Holland. The Amsterdam Telegraaf publishes this statement of conditions of life in Warsaw under German military domination:

"The Germans," he said, "have installed themselves in the great Polish city as if it had been their home for

some time past. "All materials of industry have been confiscated-copper, factory machinery, dynamos, motor parts, cotton, wool, etc., even clothing and carpets. Provisions are becoming constantly scarcer. The poorest part of the pop ulation in Wola has begun to kill dogs

for food.

"Courts of blood perform their work without cessation and firing parties are always busy. In the neighborhood of Pitwa absolutely innocent persons have been shot. Search is continually being made of private houses to discover a trace of connection with the allies. A month's imprisonment was inflicted on a man who pretended to stop his ears during the passing of German fifers, and a similar sentence was imposed for not saluting the flag.

"Before my departure I saw how the Germans proceed to the sweeping away of men. At night cordons of troops surrounded the working-class quarters in Warsaw with loaded rifles. 'Alles, heraus' (Fall out) ordered a sergeant. Then occurred a tragic scene. Soldiers chose here and there those men and women whom they thought suitable. They separated brothers from sisters and mothers from children, and compelled those whom they declared to be good for slavery to leave immediately. Thus more than 100,000 men and women were removed from the part of the country under the government of Warsaw. Young women and girls were torn from families and collected in groups pell-mell with women of evil life. The most beautiful women were reserved for the officers.

"The deportation trains leave the

One day after the brakeman had been explaining the scenery, one of the passengers whispered to the conductor, that brakeman lost his finger? He seems to be a nice fellow."

"That's just it, ma'am. He is so obliging that he just wore his finger off pointing out the scenery along the
