dancing and social chat.

grown seed is usually satisfactory in this respect. Our country demands the hardiest seed and this can only be obtained in the North. When you get the genuine Northern Seed, the crop has far greater chances of maintaining its stand during the changeable weather of early spring. This fact is so well known that we have a big demand from the South for our Northern seed. It does best everywhere. This is the seed we offer you. Southern seed is lower priced and a good deal is sold on that account but our seed is better value because it is harder and surer.

We have selected the Hardest, Purest, Cleanest, Strongest and best value on the market in Red Clover, Alsike Clover, Alfalfa Clover, Sweet Clover, Mammoth Clover, Timothy, Orchard Grass, Rape Seed,
