any since 1st May one year ago. How many a poor mother buries to the mail box to see if there is a letter from the dear boy.
How many a dutiful sister will go also but are disappointed at finding no letters from son or brother. They hear and read in the casualty list of brave boys wounded and some killed in action and they give place to the thought that their boys have shared the same fate also.
How many a brave boy was allowed a few weeks one year ago from their place of training to assist the aged father to put in the crop. They did their duty faithfully and returned to their camp of training again. But alas! their harvest time came to maturity earlier, for many of them were cut down before time to harvest, the labor of their hands in sowing the seed in spring.
Last Saturday evening we saw a large flock of wild geese flying south east and were we good at the gun it would not be hard to take some of them down as they were flying tired and it would be too cruel to stop their progress by killing the leader, for it would be more cruel to kill the harmless flock than to kill the old Kaiser, the leader of the Germans.
Last Sunday a gentleman whose business it is to be lecturing on Temperance, gave an address in the Presbyterian church here when both Methodist and Presbyterians attended and though drunkenness is a thing of the past in our locality, the address was a good one and told that assistance was needed yet to help some other part of the world where the effects are felt more than in this fair part of the country.
Next Sunday, 6th May, Gaelic will be preached in the Pres. Ch. here by the pastor, Rev Mr Matheson at 11 a. m. and there will be lots of room for all those who wish to hear the old language.

WIFE FINDS RELIEF, TOO!
Lachna Sims, P. Q.
"I was troubled for many years with kidney disease, and a friend told me to take GIN PILLS. After taking a few boxes I was greatly relieved, and after finishing the fourth box the pain completely left me. My wife is now using GIN PILLS and says that she has been greatly relieved of the pain over her kidneys. I can safely recommend my own suffering from kidney trouble to give a fair trial to GIN PILLS."

The Ford is Economical

THE average man can easily afford a Ford car. It is the most inexpensive car to drive.

20 to 25 miles on a gallon of gasoline is an every-day occurrence. 33 miles is frequently reported by Ford owners. Yearly repair expenses of less than one dollar are not unusual. The car is light in weight, and tires give more mileage on a Ford than on any other car.

You can buy a Ford for yourself and one for your wife for the price of one car at \$1000. You can run both Fords at about the same expense as for one larger, heavier car.

You can always sell a "used" Ford at a good price. You have to accept a big reduction for a "used" larger car.

Go and take a ride in the 1917 model. See how comfortable it is. And stylish, too—stream line effect, tapered hood, crown fenders, beautiful finish. You need one for business. Your wife and children need one for pleasure and health.

PRICEVILLE AND LIMITS
The seasons are passing by, the winter is over and now we are stepping into the first month of summer, May. In the school readers of older times, those of us who are getting old now, delighted to sing the old May song, "It is May, it is May, and all Earth is gay," etc; But to give a look at the fields and the cool feeling of the atmosphere, it makes us think that to-morrow is not May day. But sure enough it is. We hear the feeble voices of the old Canadian band, the frogs, but their voices and throats seem to be affected with a bad cold.
In all directions we hear the complaint of the lateness of Spring but there is no use of fretting. Seed time and harvest will be as long as human beings are in existence. How many a home is saddened on this May morning for bereavement and disappointment have been the lot of a large number of the human family since the 1st May, 1916. All cases have differed from there in respect to different classes more than another. How many a brave boy has been cut down by the cruel weapon of the en-

NORTH EGREMENT
With the two full reports of the Patriotic banquet at Dromore right from the spot, you were quite justified in omitting my writup. Enough is as good as a feast.
The Messrs Lothian have we hear, purchased a car, a Ford we presume. This will add further to the list of solid steady drivers, who we are sure will not add to the danger of passing vehicles, by tooting their horn needlessly.
The cry of greater production, urgent enough has induced one man at least to increase his acreage of Spring wheat by 115 per cent.
