ROGERS GOES AT LAST.

Hon Robt Rogers has resigned as Minister of Public Works and is now plain Mr Rogers, member for Winnipeg. His resignation is a testimony to public opinion which exerted steady pressure in spite of the white-washing McLeod-Tellier report, the congratulations of the premier and commendation of 71 of his fellows. A healthy public opinion is a national asset.

The ostensible reason is that he and the Premier differed on Union government. "Bob" favoring no alliance with the grits, Guesses a's being made as to what "fist it will have on his party. More will be learned when the premier issues an official statement to-day.

The star of Rogers has gone down and rightly so. Another star, that of the millionaire Sir Clifford Sifton is in the ascendant, and his name is not without sinister associations. He is evidently closely in touch with the premier, trying to form a union government. Let us hope they will suc-

ceed in doing something. Meanwhile there is no conscription yet and three months gone by.

Owen Sound-Hamilton Highway is Proposed

Deputations from Mount Forest and Fergus were present at the noon luncheon of Guelph Board of Trade on Thursday to talk over the question of a county-Provincial highway between Owen Sound and Hamilton. The people of the former town are behind the project, wishing to get better connections with Guelph and Hamilton, and promote trade along the line. The scheme was fully explained by the deputations from Mount Forest, though no figures were given. The route proposed is really what used to be the old Indian trail for teaming between Owen Sound and Hamilton, when Guelph was the chief stopping place. After hearing the deputations a committee was appointed from the Guelph board to join with Durham, Arthur, Fergus, and other places in a meeting at Mount Forest to consider the question and prepare facts and figures for submission to the Ontario Government. The committee is composed of G. B. Ryan, Chairman; J. M. Taylor, J. W. Lyon, G. Powell, Hamilton; George W. Walker, D. M. Swanson, W. H. Burgess, S. D. Parleyde, and Engineer McArthur.

"The Canadians in France."

A Great War Map.

Canadian homes will no longer have difficulty in following the Canadian troops in France. There has just been issued a map of the European War area that clearly shows every point of interest that has been mentioned in despatches since the Canadian forces first landed in France. It has been made specially for the great Canadian Weekly, The Family Herald and Weekly Star, of Montreal and is a credit indeed to Canadian enterprise. It is a marvel of detail and yet not crowded. It is in four colors and about 2 1/3 x 3 1/4 feet and folded into a very neat cover, about 5 x 10 inches. The map is surrounded by a border of the regimental badges and coat of arms of nearly every battalion that left Canada, from Halifax to Vancouver. Every important point can be recognized at once. That portion of the map covering France is in a soft color with names of towns and battle scenes in black, easily recognizable. The map is endorsed by returned military experts as most complete and accurate in detail. The Map could not be produced, except in such large quantities as The Family Herald will use, at less than two dollars a copy, yet it can be had absolutely free with the Family Herald.

and in addition, the Railway will continue their last year's innovation of keeping a special car for the accommodation of single women and families, and of placing it in the train where the occupants will be separated from the other passengers.

The territory served by the Canadian Northern Lines offers the widest choice of employment with high wages, but regardless of where you may locate, remember we give you the best service to Winnipeg, where you will re-purchase to final destination, no matter on what Line it may be.

For leaflet showing special train service with dates, number of men required at various points and other information, apply to A. H. Jackson, Town Agent or General Passenger Department, Canadian Northern Railway, Toronto.

Poultry Feed

With wheat soaring in price and besides all needed for human food, its use for poultry food is condemned and a substitute must be looked for. Mill feeds such as shorts and bran are easier to get and cheaper than the grain feeds, and the grain part of the ration may be oats, barley, buckwheat, &c, when procurable at reasonable price.

All this and much more is set out at great length by the authorities and anyone interested in cheaper food for Poultry should write "Director, Dominion Experiment Farm, Ottawa," for bulletins on the subject.

Student (to professor): "How is your new theory concerning the connection between Attila and the Hohenzollern family progressing, sir?" Professor: "Excellently; thanks; and, in addition to that, I have also succeeded in tracing the origin of the German race back to the first murderer. My authority is to be found in Genesis, where it says: 'Cain was Attila of the ground.'"

An amateur editor, doing emergency duty on a farm paper, is credited with some amusing answers to correspondents. For example: "Please tell me how hash is made?" "Hash is not made; it accumulates." "Is it all right to feed hogs corn in the ear?" "No. Put the corn in the trough and let them help themselves." "My hair is beginning to fall out. What can I get to keep it in?" "A paper bag." "Our old bull is chasing me around a forty acre field. What shall I do?" "I don't know. But hang on. The editor will be back in a week."
