A Canadian Captive

Far off in a German dungeon A young British soldier lay Slowly dying from the torture He had begged to send a message But that kindness was denied So he called his comrade to him Told his story e'er he died

When Buitain gains the victory And the Germans cease to reign here's a loved one in old Cnaada I shall never see again,

You will find her for me comrade Tell her you were by my side While I bade you take this message To a soldier's promised bride.

Tis the same old story comrade Love oft weeps when duty's done England's fighting for her country I was ordered to the gun. Now I am a captive dying

Soon the battle will be o'er Tell her comrade I shall meet her Where the soldiers fight no more. Ack her if she remembers When we heard the bugle blow

For the soldiers to assemble How she begged me not to go. While we knelt beside each other All our hopes and tears were vain Praying when the war is over That we both should meet again.

When Britain gains the victory And the German's cease to reign You will sail for dear old Canada I shall never see again. Nearer my God to Thee

Nearer to Thee His last words whispered soft and low In the land beyond the sea

Income Tax Forms Are now available

Returns must be filed on or before 31st March

HE Dominion Income War Tax Act requires you to fill in one or more of the five special Forms provided before 31st March, 1918. In order to assist the public to understand just what is required of them, information on each Form is given below. Read carefully, then get three copies of the form that fits your case and fill them in. Answer all questions fully and accurately. For making false statements, a penalty of \$10,000 or six months' imprisonment, or both, is provided.

Individuals.—All persons unmarried, and all widows or widowers without dependent children; whose income is \$1500 a year or more, must fill in Form T1. All other persons whose income is \$3000 or more, use the same Form. Where any income is derived from dividends, list amounts received from Canadian and Foreign securities separarely. Fill in pages 1, 2 and 3 only. Do not mark on page 4. Partnerships, as such need not file returns, but the individuals forming the part-

Corporations and Joint Stock Companies, no matter how created or organized, shall pay the normal tax on income exceeding \$3000. Use Form T2—giving particulars of income. Also attach a financial statement. Under Deductions, show in detail amounts paid to Patriotic Fund and Canadian Red Cross or other approved War Funds.

Trustees, Executors, Administrators of Estates and Assignees use Form T3. Full particulars of the distribution of income from all estates handled must be shown as well as details of amounts distributed. A separate Form must be filled in for each estate.

Employers must use Form T4 to give names and amounts of salaries, bonuses, commissions and other remuneration paid to all employees during 1917 where such remuneration amounted in the aggregate to \$1000 or over.

Corporation Lists of Shareholders.-On Form T5 corporations shall give a statement of all bonuses, and dividends paid to Shareholders residing in Canada during 1917 stating to whom paid, and the amounts.

Figures in every case are to cover 1917 income—all Forms must be filed by 31st March. For neglect, a fine of \$100 for each day of default may be imposed. In the case of Forms T1 and T2, keep one copy of the filled in Form and file the other two with

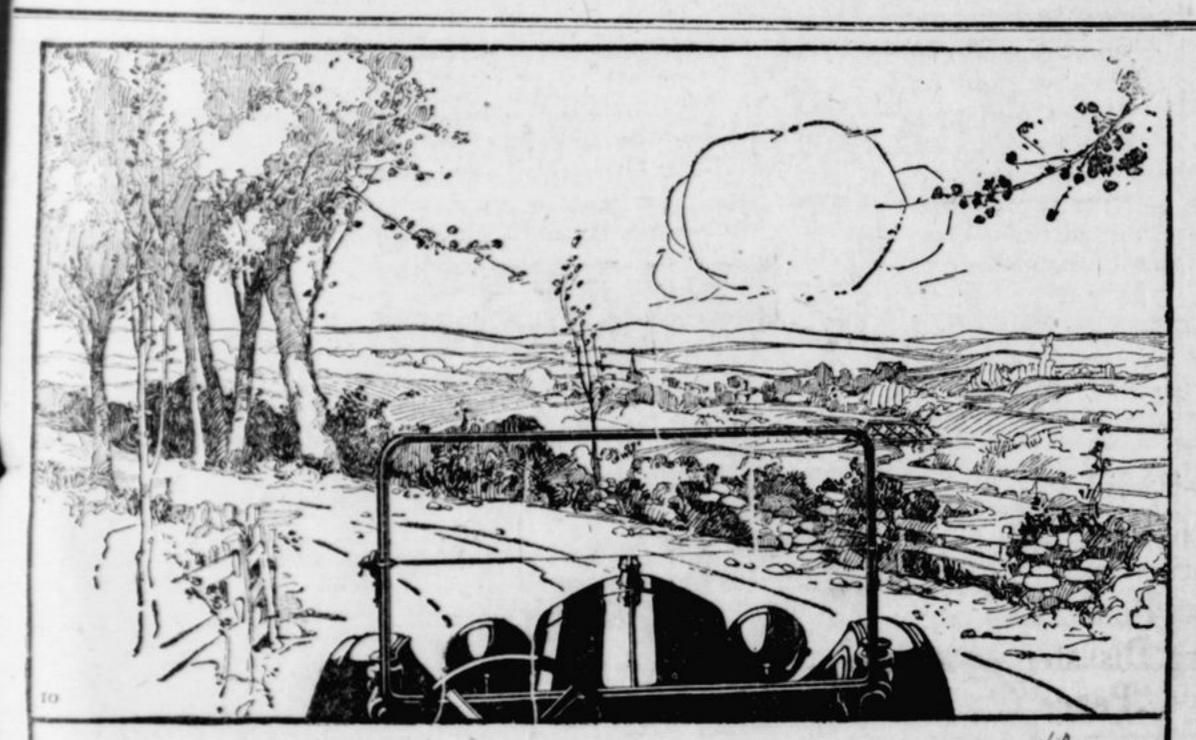

the Inspector of Taxation for your District. In the case of T3, T4 and T5, keep one copy and file the other two, with the Commissioner of Taxation, Dept. of Finance, Ottawa. Forms may be obtained from the District Inspectors of Taxation and from the Postmasters at all leading centres.

Postage must be paid on all letters and documents forwarded by mail to Inspector of Taxation.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in stere for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

Money in Orchards When Properly Planted and Cared For.

BACKYARD GARDENING PAYS

Hints By an Expert In the Feeding and Care of the Mare and Foal. (Contributed by Ontario Department of Agriculture, Toronto.)

HE PLANTING of commercial apple orchards in the Province of Ontario is highly desirable for several rea- ents. sons:-

1. Ontario is not producing enough "The Food Controller Says" good apples for home supply, but imports annually from Nova Scotia, British Columbia, Washington, Oregon and California.

to fall off still more because no com-

3. Of the thousands of young trees set in the bloom years of 1905 to the commercial production of the fu-ture, and certainly not more than 40 p.c. of them are alive and receiving there. attention to-day.

4. The home orchard will never again be an important factor in commercial apple production in this proscab control is difficult or when prices are down because of a heavy crop, the return from the small orchards is not large enough to justify the exditions are unfavorable the small or- overseas. chard passes quickly into a state of neglect; this is why apple growing in Ontario is at such low ebb at

5. Fruit is an essential part of diet. While it is true that in case of necessity people can live without it, it is also true that health suffers and nutritional complaints become much more general in the absence from the sugar and syrup they produce. dietary of fresh fruits and vegetables. The apple is the most important and most useful fruit of the temperate. zone and, from the standpoint of pub- Compared with final victory ?" lie health its culture should not be neglected .- Prof. J. W. Crow, Ontario Agricultural College, Guelph.

Care of Pregnant Mares.

fed, and given regular exercise or should be of first-class quality. She should te given more grain than the non-pregnant mare, as she has her foetus to support. All possible care derangements; hence everything consumed should be of good quarity, eas ily digested, fed in proportion to the amount of work performed and at regular intervals. In addition to hay and oats, she should be given a few raw roots daily, and a feed of bran least twice weekly.

avoided, so also should plunging through deep snow, slipping, etc. All buds. nervous excitement should be avoided, so also should sights which frighten her, also offensive odors and operations.

The use of drugs should not be the end of pregnancy still greater care should be observed, and, while daily exercise up to the very last is advisable, it should be given more carefully and less of it when she becomes somewhat clumsy on account of size and weight.

While it is better to allow her ; box stall when in the stable at all least coal and most ashes. times, it is practically necessary after about the tenth month of gestation, as the period of gestation is in the ash cans, both are now used as far irregular and the foal may be born, possible. The janitors were instructed to without any well-marked premonetary symptoms, any time after ten

After the foal is born the mare to run idle until weaning time, it will be all the better for both herself and foal .- J.H.R., Ontario Agricultural paste. College, Guelph.

Vacant Lot Gardening.

The majority of the horticultural societies in this province have accomplished great things with their vacant lot propaganda. In the cities of Toronto and Ottawa alone many acres have been cultivated. Ottawa reports over 100 acres from which 50,000 bushels of valuable garden products high as 70 per cent, have been garnered in first-class condition. Those interested in horticulture in Toronto through the Vacant Lot Gardening Association have also done a splendid work and in a large

The report issued by the superintendent, Mr. Geo. Baldwin, states: Number of lots under cultivation dur-Package of seeds provided 725, of which 607 were paid for. Several legs, another by a man with only one hand. The condition of both these lots would shame those who are not thus seriously handicapped. All gardens are inspected once a week and reminders sent to those who neglect their plots. The crops produced have a value of \$40,000 at a moderate estimate.-J. Lockie Wilson, Ontario Department of Agricuture, Toronto.

DORNOCH

Mr Bert Ledingham entertained a number of his young friends on Friday eve.

Mrs R. Dargavel and daughter Ivy attended the funeral of their cousin the late Arthur Hunt of Allan Park on Friday.

Miss Rath Lowe spent Sunday with her triend, Miss Annie McGillivary. Mr Wilfred Vasey returned home after spending the winter months near Chesley.

Sorry to hear Mrs Malone is quite ill at present.

Mr and Mrs Asket Allen and son spent Sunday with the latter's par-

According to a recent statement made by Mr R. E. Prothero, President 2. Production in Ontario is likely of the Board of Agriculture, there were only enough oats available in mercial planting is being done. Very Britain to feed working horses on refew commercial apple orchards have duced rations after making allowance been set out in this province since for milling stocks. There was no concentrated food for cattle feeding and this shortage would continue for at 1911 a large proportion have already least a year, he declared. He was passed out of existence. Probably not afraid that all carriage horses which more than 20 p.c. of the trees plant- had not been sent out to grass would ed during those years will figure in have to be killed, while hunters would

RED CROSS MUST SAVE

The executive of the Red Cross Society of Regina has asked that the vince, because it is not large enough advice of the Food Controller be careto be worth while. In seasons when fully observed at any gatherings in the interests of the Red Cross and that if the hostess really wishes to serve food she should at least be careful not to pense and risk involved. When con- use the commodities most needed

MAPLE SUGAR WANTED

Every pound of maple sugar produced this spring adds to the food stock of the country at a time when every pound of food-stuffs is needed. Maple sugar makers are sure of a market for every pound of pure maple

'In God's name, what are eggs and

GET OUT YOUR SAP BUCKETS

Farmers and others who have maple sugar outfits, eyen if they have not been in use for years, should put them The pregnant mare should be wel! to work this year. There is a sugar shortage, and Canadian maple trees light work. All food and water given should be made to produce to the maxmum. So even if you haven't the most up to-date equipment, tap all the trees you can and make the most should be observed to avoid digestive of the facilities you have on hand There'll be a good market for all the maple sugar and syrup produced.

SAP RUNNING BEGINS SOON The first run of Canadian maple sap begins down in Essex County, Onwith a cupful of linseed meal, at tario, generally about March 20 Gradually the warm weather works Work that requires excessive mus- north east and the season ends up in cular or respiratory effort should be Quebec when the leaves break the

Burn Your Ashes

with fires made from ashes, and saving \$50,000 a year by it, according to a report made by Patrick James, superintendent of school supplies. Some coal, but very little is used, and the janitors are engaged in a contest to see which can use the

Instead of putting waste coal and ashes mix the solution as follows:-

Hot water must be used in dissolving the acid and rock salt. To every gallon should be given at least two weeks of water necessary add two ounces of oxidleness, and if she can be allowed alic acid and one pound of rock salt. This of water necessary add two ounces of oxis mixed to form the ashes into a thick

The ashes may be treated and shovelled back into the furnace. Where pea coal is used it can be used with the ashes in the proportion of two parts of ashes to one of coal. The ashes may be re-used by moistening again.

The committee estimates the saving should not be less than 25 and may be as
