

Advantages of the Chevrolet

VALVE-IN-HEAD MOTOR

Considering the number of unusual features possessed by the Valve-in-head motor, it is not any wonder that this type is earning for itself a high place in the minds of a great many motor car owners, and is becoming more popular every day. To begin with, it uses gasoline miserly, and what is used is not wasted in the least, so it is easy to see how this type of power plant would be much in demand to-day. To understand the advantages and workings of the Valve in Head Motor, it is not necessary to have any technical knowledge, for the plan is simple and it is understandable by anyone. In the common method of gasoline engine construction the gasoline vapor is usually introduced into a side chamber—a sort of waiting room. There it explodes with a force that travels in a round-about way until it strikes the piston.

In the Valve in Head motor, it is different. In this type, the gasoline vapor is introduced directly into the cylinder head, and the explosion occurs directly over the piston head, and the cylinder, being without corners to collect gases, the fullest benefit is secured by the explosion. All the gasoline vapor explodes and all its force goes to the flywheel. It is for this reason that the Valve in Head is powerful and dependable. All Chevrolet models are equipped with this type of motor.

More than two hundred thousand Chevrolet cars are in use to-day. This, in itself, is ample evidence that the followers of this type of motor are increasing each day.

THE PEOPLE'S MILLS

Feeling the Pinch

Germany, Austria and Turkey may follow Bulgaria

There have been thrills since last issue. We told last week of Bulgaria's desertion of Germany and we remarked "events may move fast." They have. Sunday last news from Toronto travelled far and fast that the war was over, that the three remaining Entente nations had quit. It was somewhat vague but there was enough to cause a thrill of joy and it led many communities to ring their bells, have epical meals, and in a few cases have band led processions. Most churches Sunday evening made special reference to the news coupled with thanksgiving.

What has happened is this: Germany has asked for an armistice, will accept Prer. Wilson's 14 conditions of peace, on a finality notice but as "a basis for negotiation and discussion." These conditions were presented to Germany last January but were scorned.

She is anxious to avoid bloodshed! (save the mark) and would like all fighting on land, sea and air to cease while discussions were in progress! How very humane! and considerate! No word of this last spring. For is she is driven to the wall, she seeks defeat, final and complete looking up, clouds black with righteous indignation are gathering over her and what is wanted is not requests for an armistice but unconditional surrender even as Bulgaria has done.

Austria-Hungary and Turkey are taking the same step, none of them will be heeded judging from the decided defiant tone of the press of Britain, France and the United States as well as of other overseas dominions. The U. S. Senate in a strong resolution has already given the plea a hot and Pres Wilson, to whom Germany appealed, is sure to follow in the same way.

What were the bloody butchers doing the day the appeal was made? Setting fire to hundreds of French villages and towns they could no longer hold, with special endeavor to wreck and ruin all churches and cathedrals. But before applying the torch there were wild scrambles for booty in the shape of art treasures and everything valuable and trainloads of this loot taken to Germany.

Germany is not repentant and until she is, and makes full restitution, repatriation and indemnity to Belgium and France, no nation will listen to her, and none in the meantime will hold back a blow to destroy the armies of this pirate nation.

Death of Mrs. Neil Wilson

We regret to learn that Mrs. Neil Wilson, late of Hawarden, Sask., who removed with her family some two years ago from Dornoch, has passed away after a long illness. The funeral was attended by a large crowd of friends. Mrs. Wilson was a great worker for church and Red Cross and doubtless her death was hastened by her unselfish activity for the good of others. The memorial service was held in the Methodist Church, Hawarden and was crowded. Rev. J. S. Haggert, Pres. minister, gave a very impressive address.

MULOCK

Announcement has been made for Anniversary services in the Baptist church here on the third Sunday in October, 20th inst. Rev. Mr. Burns, a former pastor, has been secured for the occasion and will no doubt be greeted by large congregations. On the following Monday evening at 8.30 p. m. the ladies are having a missionary meeting. Rev. Mr. Burns will speak; also Rev's Graham and Remington from Elmwood are expected and a bright program will be given. Everybody come out and bring your friends. A silver collection will be taken up in aid of missions.
