SOUTH BEND

NEW YEAR'S DAY, 1919

Another year has passed away, with its many hopes and fears; Its scenes of gladness, and of woe, - Its laughter and its tears.

For some the joyous wedding bells Rang out upon the air: For some the solemn church bells tolled As they bore a loved one there.

For joy and sorrow are mingled here, No unmix'd joy is given, To teach us that perfect happiness Can be found alone in heaven.

Let us learn wisdom from the heathen Of the first month of the year: (name Look back and correct our many faults Through the rest of our journey here.

What this year has in store for us Our God alone can tell: Let us do our duty and trust in Him, And then all will be well.

Mr Gilbert Durant of Toronto, made a short visit to his parents during the holidays. Gilbert recently passed his examination and received his diploma as an electrician. Congratulations.

Our former teacher, Mr John Bell, now discharged from military service, has been re-engaged here for the coming term, at a handsome increase in salary.

That strange disease, the flu, is very prevalent here now. Our seat of learning was closed a week before the holidays, the teacher and many of the pupils being sick.

We wish the editors and staff and the many readers of the Review a Happy and Prosperous New Year.

All honor to Canadian soldiers who so nobly fought for the motherland: Canada is one of the brightest gems That decks the British crown; (great And is proud to be part of that empire On which the sun never goes down.

But alas! Thousands are sleeping the last long sleep While the wintry wind over their graves And tears are falling in many lands For the unmarked soldiers' graves.

Comfort of Body

Many children and adults are constant sufferers from cold hands and feet and are acutely susceptible to every chill and sudden climatic change. There is definite help in

SCOTT'S EMULSION

which furnishes fuel to warm the body, helps make pure, red blood and maintain the system in a state of robustness, so that the buffeting winds or the sudden chill of evening are enjoyed rather than feared. For comfort of body and buoyant health, take Scott's Emulsion.

Egremont Nominations

Reeve and deputy are in by acclamation The deputy reeve, Nichol McDougall was accorded the honor on Nomination Day, and is the only one of the old council to continue in office, the others having retired. Mr Geo. Lothian is the new Reeve a worthy occupant with experience of council work. For a while it looked as if Mr C. McInnes would contest the seat, but he withdrew. He would have been an opponent, worthy of Lothian's steel. We congratulate the township on having two worthy officials.

The would be councillors in the order of the ballot are:

Allan, Alex
Hooper, Matthew
McEachern, Gilbert
Robb, Erwin
Swanston, George

No trouble to pick three good men from this list.

Death of John Whitmore

One of the best-known residents of North Egremont passed away on Monday last and was buried on Wednesday in Trinity Church cemetery amid many tokens of respect. He had reached the venerable age of 85 years, 8 months, and is survived by his wife, (a sister of John and Thomas McFadden of town.) five sons and one daughter, Mrs Sproule, of Owen Sound. The sons are James on the home farm, Thomas and John at Rainy River, Will and Sam in the West.

The deceased was one of a large family of brothers, who did worthy pioneer work in the early days. All were strong well-set up men of whom Mr Geo. Whitmore of Durham is the sole survivor. John has been over 50 years in the township and as an old neighbor the writer can testify to his upright character and his worth as a citizen. He was an Anglican in religion but no pastor of his church being at hand Rev. Mr Whaley conducted appreciated services.

Durham Nominations

difficult work to do, especially with the Hydro, the finances of which were in a tangled condition. It was now in good order as the town was.

He justified the high rate of 37 mills owing to the increased county rate, grants to patriotic purposes, &c, but the taking over by the government of the Patriotic Fund would tend to reduce it, saving when back to normal about 6 mills. Another 6 mills was necessary for High School rate and he still thought a Continuation School should have been retained, but the people had thought otherwise, and the mistake was made of not forming a High School district. He announced his retirement.

Mr McKechnie and being present, Mr Irwin was called and said it had not been his ambition to occupy the position of mayor this year, and it would be presumptuous for him to oppose a member of former councils. He was glad to see young men placed in nomination. Mr Laidlaw had retired and thought it was time and applied the same remark to Mr Calder without a thought of disrespect to either. He would not think of opposing such men as Dr. Grant and Geo. McKechnie and retired.

Dr. Grant while listening to Mr Irwin picturing the danger of losing reputation in public life, was inclined to apply it to himself, and business considerations forced him to retire in the meantime from both the positions of Mayor and Councillor, but believed the position of Mayor would be honored by the appointment of Mr McKechnie.

Mr Calder went into town finance at some length pointing out that it should be remembered that much of the big balance on hand was needed to retire debentures, and not available for general purposes. While the assets looked good he pointed out that the liabilities of 1918 were greater than 1917.

He insisted strongly that the Hydro debentures should be charged, not to the town but to the Hydro account, and the town, should look for a check to reimburse them.

It was gratifying to know that the earliest sidewalk debentures had been retired sooner than expected, and some others would follow.

He had no hope of the rate being reduced by 10 or 12 mills as Mr Laidlaw seemed to think possible, though he admitted there would be a partial lightening of payments for patriotic purposes. The rate jumping up and down was most undesirable. It was right to make reductions but they should be gradual.

He pointed out as an anomaly the fact that the uncollected taxes were larger in amount this year than last, even with a higher penalty. He advocated as a measure of relief to about a score of poor but worthy citizens the extending of the time for payment to 15th January without penalty.

He went exhaustively into County matters, justified the county taking up the patriotic tax as the fairest measure, and also the grant to the Y. M. C. A. which their research had proved worthy.

He dealt with the new County Road appropriations and purposes and thought it likely \$200,000.00 would be spent this year on County Roads.

CHRISTMAS, 1918

At the close of one of the world's most eventful years, we take the opportunity of wishing our many friends and customers a joyous and bountiful Christmas and a New Year whose blessings will more than counteract the strain and suffering of those which are happily passed.

We look to the new era with confidence. We believe in the future of Canada, in the humanity of our nation, which makes this a good country to live in.

Notice is hereby given pursuant to R. S. O. 1914 Cap. 121 Sec. 56, that all persons having claims against the estate of the said Edward Walsh, who died on or about the 11th day of December A. D. 1918, are required to send by post, prepaid, or otherwise deliver to J. P. Telford of the Town of Durham, Solicitor for the Executors, on or before the

24th day of January, 1919, their names, addresses and descriptions, and a full statement of the particulars of their claim and the nature of the security (if any) held by them duly certified, and that after the said day, the Executors will proceed to distribute the assets of the estate among the parties entitled thereto, having regard only to the claims of which they shall then have notice.

Dated the 20th day of December A. D. 1918

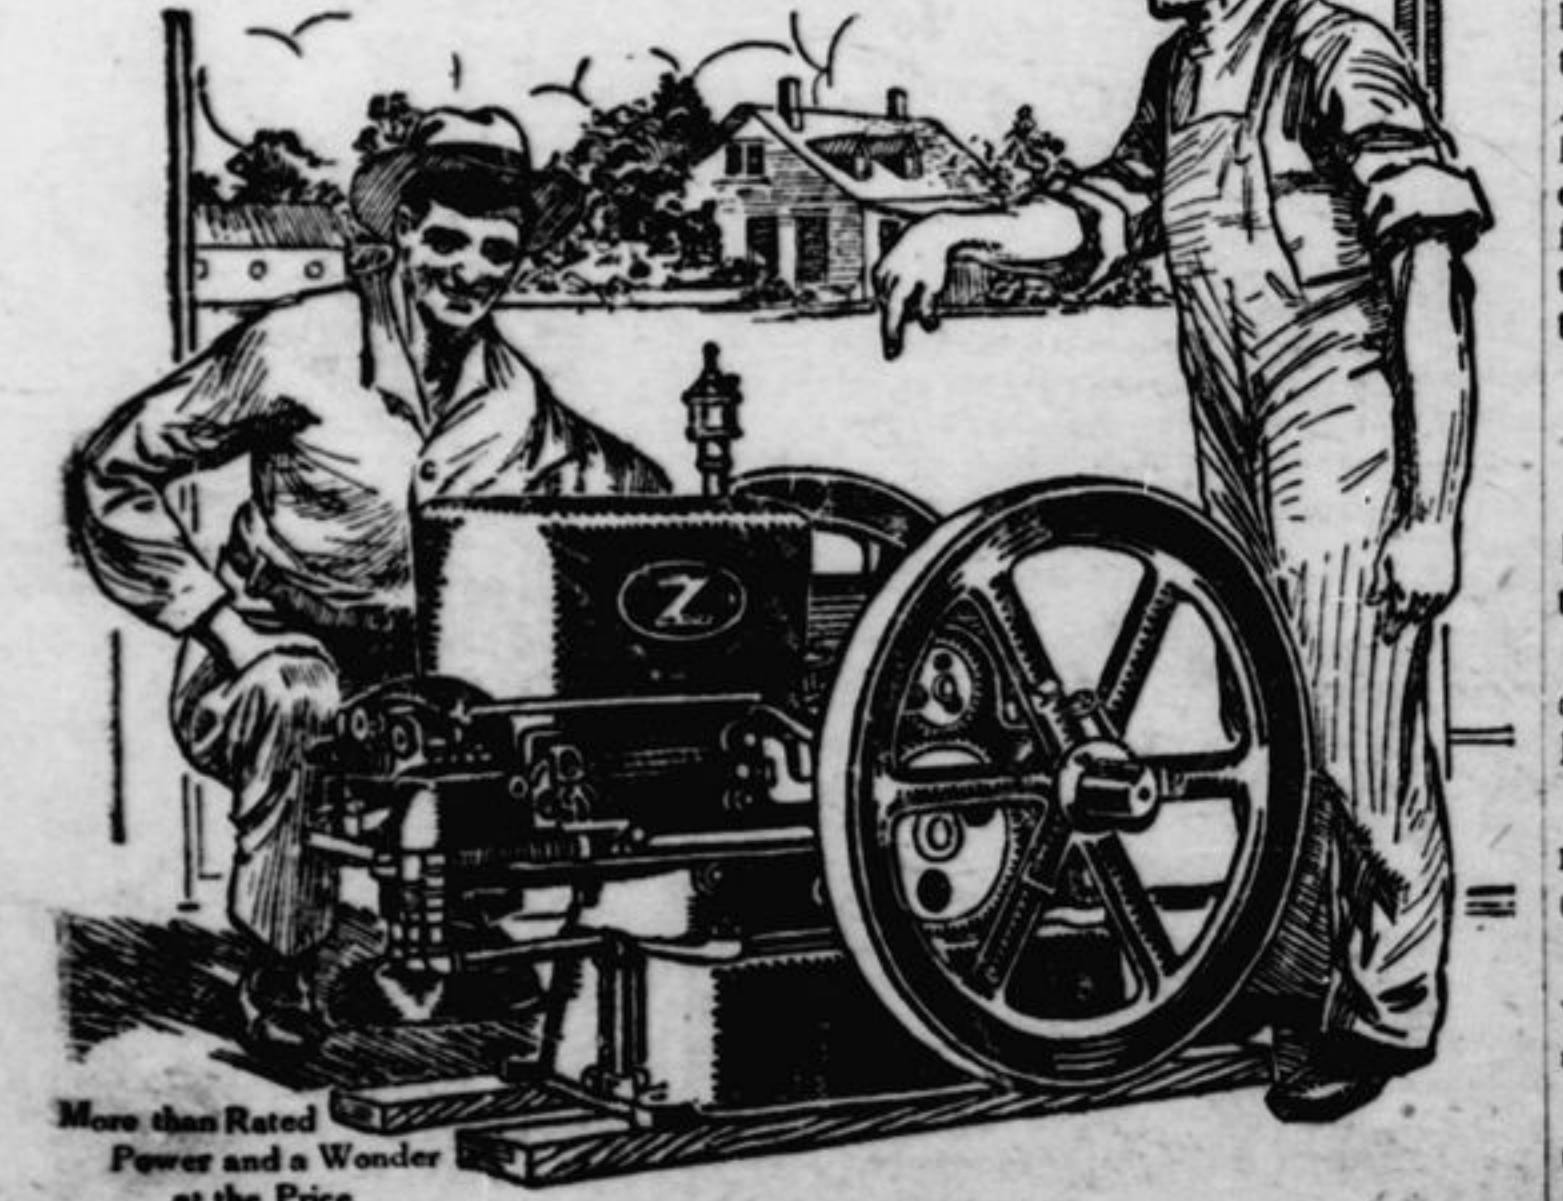

J. P. Telford of Durham Solicitor for the Executors.

"The New Fairbanks-Morse Type Z Engine"

YOU simply cannot get more engine value per dollar than you get when you buy either of these engines. They are oil engines built to use kerosene and other cheaper fuel as well as gasoline.

Here's where you get your economy—these engines use kerosene so successfully that you get the same power from a gallon of kerosene as from a gallon of gasoline—and you save the difference in cost.

POWER! All you want and more. These Type 'Z' engines are built to serve.
