

# Priceville's Busy Store

offers:  
**Lake Superior Herring at 8.50 per keg**  
 Just to hand a nice quantity of Freshly Salted Lake Superior Herring in 100 lb. kegs. These are cleaned and heads off. Choice stock. And a special price for quick sale. They're scarce.

## Special in Men's Wool Ribbed Underwear

Just before stock-taking, and in order to reduce our stock, we're offering Penman's Ribbed Wool Underwear in all sizes at \$1.50 per garment. This is unusual value.  
 Also a full range of Men's Fleece lined, Boys', Misses' and Women's Garments at especially low figures.

## Overalls, Smocks and Trousers

We have a line of Full cloth and Corduroy Trousers. Just the thing for this kind of weather. Also lined Smocks, blue Black and Striped Overalls and Smocks at various prices.

## Keep the Feet Dry

This is imperative at this season of the year. Equip yourself whether for Over shoes or not. Don't take any chances. We have Long-topped Leather Rubbers in all sizes and heights and rubbers to fit all makes of Shoes.

As has been our policy in the past, we will pay the top price for Farm Produce. We want your business, and in order to get it, we take this means.

# KARSTEDT BROS., Priceville

## Boys of 20 Years Ago Are Men of To-day

In sending a good remittance for the Review, for which he has our thanks, Mr. Peter McKechnie writes from Calvin, North Dakota:  
 "The war has come to an end, and here in the U. S. as well as Canada, we are very glad that it is over. Several from this country paid the great sacrifice. I enjoyed reading the letters from the front that appeared in the Review. The names from Durham and Priceville were familiar but most of the young men were small children when I left twenty-one years ago this winter. How fast the years go by. It only seems like a few years, but the boys of that time are the men of to-day. As I read the Review 52 weeks in the year for 21 years I see many changes. Most of the old settlers have passed to the great beyond, and the young men and women 20 years ago are scattered far and wide.  
 Yes we have the "flu" in this part of the country too. But in this immediate vicinity it has been generally of a mild form, very few bad cases, and no deaths up till a week ago when a young woman died. Our family, so far have escaped.  
 We have had a very fine winter so far. Autos ran till after Xmas. We have had one week of cold weather but it has moderated again; to-day was 32° above zero. The sleighing is good."

## Army Spent Two Millions in Many War Activities

Among the organizations operating among the troops, both at home and abroad, to improve their social condition and ameliorate the hardships of war, the Salvation Army was the first in the field, and it is the last to make an appeal for public donations.  
 This organization, which operates in six-thirty countries and speaks forty languages, is launching a campaign to raise throughout the Dominion one million dollars to carry on the work among the troops and to help to get them back into civil employment. It has adopted the slogan "First to Aid—Last to Appeal," referring to the fact that the Salvation Army had its officers and soldiers in Belgium on the heels of Lord French's army, that is, on the 18th day of August 1914.

## SWINTON PARK

At the home of the bride's uncle, Mr. Alex Richardson, a pretty wedding was solemnized when Vera, daughter of Mr. and Mrs. Jas. McLean, of Algoma and Mr. Roy McNaulty, were joined in the holy bonds of matrimony by the Rev. R. J. McCartney. The bride came in on the arm of her uncle, to the strains of the wedding march played by her sister, Miss Mary, taking her place beside the groom under an evergreen arch and wedding bells. They were unattended. The bride was tastefully gowned in white silk crepe de chene with veil of embroidered tulle, carries a bouquet of white carnations and maiden hair fern and wearing the groom's gift, a pearl snuburst.  
 After the ceremony the guests repaired to the dining room where a sumptuous repast was prepared. The happy couple were the recipients of many beautiful and useful gifts. Only the immediate relatives were present. The guests from a distance were the bride's mother and aunt, (Mrs. Stone) of Algoma, Mr. and Mrs. Jones and Mrs. W. Sackett, Toronto. Their many friends join in wishing them a happy and prosperous journey through life.

## Grey Co. Grew Most Hay and Oats

The crop bulletin for 1918, issued by the Ontario Dept. of Agriculture, contains some interesting statistics from which we have taken the time to cull a few: In all most all field crops 1918 showed a greater production than 1917, and a higher yield per acre. In 1918 Grey Co. raised the following crops: Fall wheat 13,755 acres, 18.2 bus. to acre; spring wheat 14,621 acres, 22 to acre. In barley Grey was the second Co. in the province with 33,287 acres and 34.2 bus. to acre. Grey grew more oats than any other county in province—164,369 acres, 40.7 bus. to acre. Grey was the third county in potatoes with 6,191 acres and 113.7 bus. per acre, while up in Algoma and Manitowish while the acreage was much smaller, the yield was 203.6 bus. per acre. Evidently New Ontario is "the" place to grow murrphys.  
 Grey was second county in alfalfa with 13,457 and 1.73 tons per acre, and highest in hay and clover crop with 167,668 acres and 179,405 tons, averaging 1.07 tons per acre—a very low average.  
 On June 15, 1918, there were owned by farmers in Grey Co. a total of 31,417 horses, 131,359 cattle (2nd highest), 60,991 sheep and lambs (highest Co. in the province), 69,874 swine (5th highest) and 476,682 poultry.

# PRICEVILLE AND VICINITY

## PRICEVILLE VILLAGE

Miss Annabella McLeod, who spent the past couple months in Stratford, returned to her home here on Saturday.

Misses Margaret Tryon, Myra McLean, Edith and Belle McDougall, and Messrs. Robt. Conkey and Gerrie McTaggart returned to the city after visiting their homes here.

Pte. Wm. Aldern recently returned home from overseas left last week for further treatment in Toronto.

Pte. Angus McLean of Deseronto has received his temporary discharge and is visiting his mother at present.

Pleased to learn all the families who had the "flu" are improving nicely, and hope to see them out soon.

Mr. D. G. McLean was in Flesherton Monday on business.

Miss Bernice Brawley returned to Orangeville College on Monday.

Mr. Jos. Harrison went to Durham Monday on business.

Miss Sidie McDonald was in Priceville Monday but owing to Miss Harrow, upper teacher, having the "flu," she returned to Durham. School will re-open Monday, Jan. 20th.

Died—in Priceville, Jan. 11th, 1919, Mr. John McLaughlin, aged 88 yrs. Funeral to-day, Tuesday, to McNeil's cemetery. Particulars later.

## SAUGEEN VALLEY

Cheer up! Editor and readers. January is half over.

Misses Sadie and Laura and Mr. Angus MacGillivray attended the party held at the home of Mr. J. A. Beaton's on Wednesday night last and report an excellent time. Messrs. Morrison and MacCormick furnished bagpipe music to stir the celtic blood and the "Highland fling" was faultlessly danced by Mr. Morrison who is a genuine Highlander and has only lately been discharged from his Majesty's service. Violin music was supplied by Messrs. Thos. MacCrae and Angus MacLachlan, and Angus MacGillivray showed himself a master of the accordion. The revelry ended in the "wee sma' hours" of a stormy night.

A few of the neighbors gathered one afternoon recently at Mr. Wm. Fallaise's and saved up an old log building of no use as a shelter but unequalled as winter wood.

Messrs. Robt. and Jas P. MacGillivray spent a few days of last week in Owen Sound.

Mrs. Donald MacGillivray spent a few days of last week in Durham attending her sister-in-law, Mrs. J. Webber, who has been unwell as the result of a severe fall.

The following is a portion of a letter received from a soldier on active service, which describes the way in which the writer received the good news of the signing of the Armistice.

"I am back again with the battalion after having a good time in Blighty. I was having breakfast in bed when I came to tell me that the war was over. I could hardly believe it, in fact I can scarcely realize to-day that it is all over. When I left the battalion to go on leave, we were on the left of Valenciennes and the boche was putting up a hard fight so when the news of the Armistice came out I couldn't believe it. The 52nd was at the outskirts of Mons, waiting for the signal to go over the top, when the wire came in to stop fighting.

The boys had a great time when they marched into Mons and the civilians treated them like lords. Often have I tried to imagine where I'd be and what things would be like the day peace was declared. (Then I've said good bye to myself and thought I'd never see that day. But the great day has come and I am in the land of the living and have health and strength. I hate to let my mind dwell on the things I've come through on the horrible sights and pals killed while you talked with them.

We are at present about ten kilometers past Mons and Canada and home seems considerable nearer.

## HOPEVILLE

The three day's storm of last week caused a lull in the teaming question. No mail arrived Thursday or Friday.

Mr. Mitchell Burnett is attending High School in Dundalk.

Mr. C. McArdle, Toronto, visited his father during the week end, returned Saturday, taking the old gentleman with him.

Messrs. Howard McLean and Watt, McMorde are home from O. Sound.

Monday was council meeting day, the first of the New Year but the old council all present.

Mr. Will (J.) and Miss Essie Bar. nett visited — friends Sunday.

## Notice to Creditors

In the surrogate Court of the County of Grey, in the matter of the estate of Edward Walsh, late of the Township of Glenelg in the County of Grey, Farmer, deceased.  
 Notice is hereby given pursuant to R. S. O. 1914 Cap. 121 Sec. 56, that all persons having claims against the estate of the said Edward Walsh, who died on or about the 11th day of December A. D. 1918, are required to send by post, prepaid, or otherwise deliver to J. P. Telford of the Town of Durham, Solicitor for the Executors, on or before the  
**24th day of January, 1919,**  
 their names, addresses and descriptions, and a full statement of the particulars of their claim and the nature of the security (if any) held by them duly certified, and that after the said day, the Executors will proceed to distribute the assets of the estate having regard only to the claims of which they shall then have notice.  
 Dated the 20th day of December A. D. 1918  
 J. P. Telford of Durham  
 Solicitor for the Executors

## MACHINES SAVE LABOR

Work of Efficient Gas Engine in House and Barn.

How Early Winter Pruning May Be Done Without Injury — Winter Rhubarb is Delicious and May Be Grown by All.

(Contributed by Ontario Department of Agriculture, Toronto.)

SAVING labor in stable and home, by the use of machinery, is one of the great economic problems engaging the attention of farmers to-day. Through the use of machinery they can produce even more, at less cost, than in years past, when labor was plentiful, and tolerably cheap.

Probably never before in the history of the farming world have so many farm problems been solved by a single piece of machinery as has now been accomplished by the gasoline engine. In the stable it can be employed to advantage in grinding feed for the stock. It can cut feed and ensilage. It can pump water for the house and stable whenever one pleases; a hydrant on the lawn, and in the stock yards to which a hose may be attached for washing the buggy, sprinkling the lawn. Sucking pens and stable and for other purposes, is a source of much satisfaction, pleasure and comfort.

By means of a line shaft: a gas engine may operate many labor-saving machines at the same time. It can run the grindstone, root pulper, fanning mill, cream separator, churn, sheep shearer, horse clippers, rotary curry-comb and the milking machine, with which it is possible to milk two cows in about six minutes, including the time required for changing and setting. Further assistance may be had by attaching the power for refrigeration, for circulating milk over a cooling surface—a practical necessity.

No longer need the preparation of whitewash and its application with a brush be considered a laborious task. The mixture for the engine can pump through a hose attached to a spraying outfit. It is possible to pump two hundred feet. When the job is done the hose should be cleaned out by having fresh water pumped through it.

The gasoline engine solves for the farmer the problems of comfort in the house, safety in the stables, and a great deal of drudgery generally.—Prof. John Evans, O. A. College, Guelph.

## Light Fall Pruning is Safe.

Light pruning in fall is permissible, but heavy pruning is dangerous and likely to result in serious damage from winter killing, especially if the succeeding winter is severe. The injury is caused by drying out of the cut area and may be prevented by covering all wounds of any size with a good covering of paint made from pure lime and oil. Do not use prepared paints as these contain injurious benzene or turpentine driers. To make an effective covering it will be necessary to give not less than two coats, because one coating does not prevent checking and drying of green wood. Coal tar makes an excellent wood covering and is easily applied.

This matter of covering wounds made in fall or early winter is frequently slighted by orchard men, but the writer has seen such serious damage result from neglect of this precaution that he feels justified in warning fruit growers with regard to the practice. In experimental trials in the college apple orchard, varieties so hardy as Duchess of Oldenburg, Wolf River, Snow and Scott's Winter have suffered very serious injury following November pruning with the cuts left unprotected. The wounds dry out around the edges and by spring the dead area is greatly enlarged, frequently extending down the trunk or branch for a foot or more. The dead bark comes away later, leaving a large dead area detrimental to the parts above and certain also to decay later.—Prof. J. W. Crow, O. A. College, Guelph.

## How Winter Rhubarb is Produced.

The production of rhubarb in winter has become of considerable value among gardeners. It is easy to do if certain methods are followed. If one is making a permanent business of rhubarb forcing, it is necessary, each year to set out a new bed, as plants once forced are of no further value. In the spring large roots should be dug, split in one bud sections and replaced in rich moist ground. During the growing season they are kept cultivated and free from weeds. In the fall they are covered with manure. Next spring a second bed is planned as before. That fall a large part of the first bed is taken up, leaving sufficient to replant another bed the next spring. The roots are taken up the last thing in the fall before the hard freezing weather comes and are placed in piles in a shed where they can easily be got at during the winter but will remain frozen. Early in December take in sufficient number of roots, place these bud side up on the floor of a warm cellar—about 65 degrees or 70 degrees—and cover with an inch of sand. Be sure to fill in all interstices. Keep this sand moist. About a week later the buds will begin to swell and in from four to six weeks, depending upon the heat of the room, they will be ready for use. They are now ready to be forced. Put burlaps of brown paper over the windows to give the bright pink color so much desired.—A. H. MacLennan, B.S.A., Ontario Vegetable Specialist.

## A. S. HUNTER & SON

In Flanders Now

(An answer to Lieut.-Col. McCrae)

(Several attempts have been made to answer McCrae's famous lines. The following is the best we have seen.)

We have kept faith ye Flanders' dead, Sleep well beneath those poppies red, That mark your place. The torch your dying hands did throw We held it high before the foe, And answered bitter blow for blow, In Flanders' fields. And where your heroes' blood was spilled The guns are now forever stilled, And silent grown. There is no moaning of the slain, There is no cry of torture pain, And blood will never flow again In Flanders' field. Forever holy in our sight Shall be those crosses gleaming white, That guard your sleep. Rest in your peace, the task is done, The fight you left us we have won And "Peace on Earth" has just begun In Flanders now.

—Edna Jacques in Calgary Herald.

## IN THE MATTER OF THE ESTATE OF JANE WALSH, late of the Town of Durham, married woman, deceased.

NOTICE is hereby given that all persons having claims against the deceased who died on the 4th day of December last at Glenelg, are required to send to the undersigned, solicitor for the Executors, their names and addresses, with particulars of their claims and the nature of the securities, if any, held by them. After the 31st day of February next, the executor will distribute the assets of the said estate, having regard only to the claims of which he has had notice; and he will not be liable to any person of whose claims he then had no notice.  
 Dated the 13th day of January, 1919.  
 J. P. TELFORD, Durham, Ont.  
 Executors' Solicitor
