Battlefield Coincidence.

A curious battlefield ocincidence is related by the lieutenant-colonel of the 3rd Hussars. He states that in August, 1914, his regiment, after having been railed up from Rouen, got out of their train at Houtment. near Maubeuge, and rode off to Belgium and the war. On November 11 last, the 3rd Hussars were riding through the same Houtment in pursuit of Germans when the telegram announcing the signing of the armistice and the cessation of hostilities at 11 a.m. on that day was received.

Again it became necessary to reconsider the situation, and this time more profoundly, the resistance had been so strong, the check so discouraging and the losses so heavy that the German staff decided to give up altogether the original plan to break NEW, through to the sea north of Amiens.
