TATHAT is your doctor's first VV question? Why does he suspect constipation?

Because 90% of his patients are suffering from ailments caused directly or indirectly by the action of poisons formed in a sluggish intestinal tract.

These body poisons are absorbed by the blood and carried all over the body until the weakest organ, unable to withstand the poisonous contact, becomes infected and refuses to act properly. Unfortunately it is usually not until then that the doctor is consulted and asked to treat the diseased

The surest way of purifying the blood and preventing the formation of these destructive body poisons is to prevent stagnation of food wasto in the intestinal tract-to prevent

Constipation is not a matter to be taken lightly or neglected. Nor is it either sufficient or safe to take castor oil, pills, salts, mineral waters, etc., in order to "force" bowel action. Such action does not cure constipation, it makes constipation
