RED FRONT HARDWARE

TAKE ADVANTAGE OF OUR
Big Stock=Reducing Sale

We are still very busy taking stock and making preparation for the transfer of our business to Mr A. McIntyre. In order to reduce many of our lines, we are offering them at Reduced Prices and it will pay you to investigate our stock before making your purchases elsewhere.

This week we find we have not the time to make a full list but below quote a few prices that may interest you if in need of any of the articles. If your particular article does not appear, don't think we haven't got it; just step in and ask for it. We can supply it, and at a price that will surprise you.

PRICEVILLE AND LIMITS

July is passing over and we will soon be into August which should be the harvest month. As we write on this 21st July we hear thunder in the distance and probably we may get some rain which is badly needed. Some are done saying while others are only making a start. Barley is beginning to color on early sown; early sown oats are filling well; fall wheat is about ready to cut but not much of it in this locality. Wm. Mather has a nice patch of it.

We haven't much news to write this week although there might be lots that does not come under our notice, for our obliging mail carrier, Robt Shortreed brings the mail to our gate, consequently we don't get to Priceville so often as we don't use tobacco and get our bread made at home. So there is no excuse to go to town. The bread and butter we must have but as for the tobacco for our part we would not accept tons of it on condition that we would have to smoke and chew it as some do. But we look at those taking a comfortable smoke and we feel sometimes kind of jealous that we could never enjoy such comfort (if it is so).

In olden times the five gallon keg of whiskey would be brought to the farm to help on haying and harvesting for whiskey was only 25c to 40c a gallon. We heard a strong highlander tell a story of when he used to go down to the harvest in the early history of the country, that when he

took a big tumbler of old rye he could cradle around a 10 acre field without stopping, then took another. But times have changed since sixty or more years ago. A good drink of cool refreshing water is all that is required by our harvesters nowadays.

Since we commenced writing the forepart of this budget in the morning we had the heaviest rain and thunder we had all summer. It thundered and rained for about two hours so crops got quite a refreshment.

The new Book of Praises is to be introduced in the Presbyterian church in the near future. This is the third change made in the Book of Praise in 40 or 50 years, but the good old Psalms of David should not be ignored as they stood the test for centuries back and sung by our good old grandfathers in Scotland in the olden age. We admit that some of the best tunes were left out of the old books, such as Ortonville, Newlydia, Diest, Golden Hill, Sun, Newcambridge, Orington and many other good old Psalm tones.

Rev Mr. Jones is preaching a series of sermons for the last few Sundays which is highly appreciated by his hearers.

Misses Ella and Laura McKinnon of Toronto, daughter of Mr. and Mrs. Neil McKinnon, formerly of Priceville, are visiting old friends in town and country. Their many friends are pleased to meet with them.

Mrs (Rev.) Donald McLeod is visiting some of the old parishioners of

Continued on next page.
