You Cant send away for GOOD ROADS. The work must be done at home. The worst enemy of GOOD ROADS is out-of-town buying. The only GOOD ROADS movement that is worth while is that leading to the Home Town. The model community is honeycombed with good roads-all highways to the town market, making it easy of access to the farthest farm. GOOD ROADS and TRADING AT HOME go hand in hand. They are inseparable. You can't have one without the other. Every order sent out of town puts a stumbling block in the movement for GOOD ROADS. But every dollar you spend at home is a paving block in the path of progress and economy. Join the "Trade-at-Home" brigade to-day.
